**Telephone Talk**  
By **T. M. YOUNGBLOOD**  
Your Telephone Manager

**NOBODY HOME?** If you're out when your telephone serviceman calls, you'll find this bell on your doorknob. It tells you our representative came and lets you know where you can call to have your request completed. You may also be given this reminder by your telephone man if he comes and you are not ready for service at the time. The bell with its message is another way your telephone company works to furnish you quick, efficient service.

**FOR BUSINESS AND PROFESSIONAL PEOPLE** who must be away from their offices during regular work hours, 2,500 Telephone Answering Bureaus across the nation act as private secretaries. An estimated billion calls are handled annually by 42,000 Telephone Answering Service attendants. Answering services now handle about 10% of all business customers and give greater flexibility to businesses that require outside, away-from-the-office contacts.

**IT'S COMFORTING TO KNOW THAT ALMOST ANYWHERE YOU GO** ... there's probably a telephone not far away. In addition to the familiar outdoor telephone booths, there are drive-in booths that let you telephone without getting out of your car ... walk-up booths in places where there's not room for a conventional booth. So whatever kind of talking you need to do ... business, social, serious, fun or family talk ... whether you're at home, or out, there's a convenient telephone nearby.

**FOR THE AWAY-FROM-HOME STUDENT IN YOUR FAMILY**, there's no better gift than a call home. School may be great, roommates fun, grades good ... but sometimes only the sound of a family voice will do. Why not establish a regular time for your son or daughter to call home? Begin enjoying regular voice visits with them now.
