### CALLING ALL HOME MAKERS By CHARLES BUICE

DON'T BLOCK THE PATH Occasionally, we bring you interior decorating hints, and here are some about furniture arrangement that a lot of people overlook.

There is nothing mor disturbing, (and painful) than watk-

ing through a living room and banging your shins on the sharp edge of a misplac e d coffee table. Remember that most

rooms lead

to somewhere else and you must have free movement within a room with clear access through it.

The furniture in too many rooms is arranged like an obstacle course. This does not mean that you should line all your furniture up against the walls. Actually it is very possible and not difficult to maintain all of the elements of good arrangement and still provide easy access through and within

each room. Don't block entrances and exits. Place chairs close enough for conversation but far enough apart to allow plenty of leg

room. Arrange coffee tables close enough to sofas and chairs to be useful but far enough away to permit free passage between the tables and furniture piec-

And, many people make the mistake of using too large a dining room table in a small dinette so that when you'try to sit down at the table, you find yourself pulling the chairs up against the wall. Better use a smaller table with

larger extension leaves. Let our experienced personnel at Maxwell Brothers Furniture in Clinton help you to make your home more passage free by selecting the right size pieces of furniture for your particular rooms.
