

# EIGHT COAL CARS PLUNGE INTO RIVER

A TRESPASSER LOSES LIFE IN  
ACCIDENT ON COAST LINE  
RAILROAD.

## DETOUR TRAINS BY FAIRFAX

Cars Jump Track and Tumble Into  
Coosawhatchie River Near Yemassee—Unknown Negro Found Dead  
Near Wreck—Cause of Accident

Charleston.—When eight cars loaded with coal jumped the track and tumbled over into the Coosawhatchie River the Atlantic Coast Line trestle over that stream was damaged to such an extent that trains between Charleston and Savannah had to be detoured by Fairfax, entailing a loss of time of about two hours in each case.

The Coosawhatchie trestle, at which the derailment occurred, is on the main line of the Atlantic Coast Line, and considerable derangement of the schedules of the through trains between New York and Florida resulted from the accident. Coosawhatchie station is between Savannah and Yemassee and is about sixty-four miles from Charleston. Special freight No. 391, southbound, carrying about twenty-five cars, was the train to which the derailment occurred, the eight cars of coal which fell over into the river being the only damage of consequence to rolling stock.

No cause for the accident is ascribed by officers of the Atlantic Coast Line. An unidentified negro, believed to have been a trespasser, was found dead after the accident, but beyond this no personal injury of any kind has been reported. In the derailment the trestle was damaged for a distance of about 100 feet. Crews were at once put to work on the structure, and the road was soon passable for trains.

The eight cars of coals which plunged off the trestle into water below will not be a total loss. It is thought that about half of the coal, at least will be saved.

### Two Barbecues in Lexington.

The candidates for the various county offices had an opportunity a few days ago of attending two barbecues—one at Ioor Hayes, near Gilbert; the other at Pellon on the Perry extension of the Southern railway company. Both of them were very largely attended; but the candidates only spoke at Hayes'. Here only the candidates for county superintendent of education faced each other on the stump. There are so far four aspirants for this office—A. D. Martin, the incumbent; Holly L. Harman, M. Pickens Lindler and D. A. Kleckley. Each was present and laid his claims before the voters.

### State Campaign Goes Merrily On.

Interest in the state political campaign will centre in the meeting in the near future in Charleston. The speeches of the candidates for governor will on that occasion have special importance. Judge Jones will hardly overlook the opportunity of directing public attention to notorious conditions there, and of which grave charges have arisen against the governor of the state, and of which charges the governor has not yet undertaken to clear himself, except by general denunciation of a committee from the general assembly as a "guttersnipe commission crawling on their bellies in the filth." It is possible also that Gov. Blease is withholding until the Charleston meeting whatever he may have to say.

### To Wage Fight on Mosquito.

"Without the existence of standing water their breeding is impossible." This statement is the keynote of an important bulletin that has been issued by the South Carolina state board of health on "the mosquito." It is pointed out that the mosquito needs no introduction to South Carolinians and that few, if any, have been overlooked by this cheerful little pest as she goes her rounds.

### Rewards Offered For T. W. Vaughn.

Rewards aggregating \$700 are offered for the arrest of T. W. Vaughn, who escaped from the Greenville county jail. No trace of the fugitive has been found since he was seen to scale the prison fence by Warden Phillips. The general impression prevails that he is hiding in his native hills near the Dark Corner, or that he has taken a train from some nearby town in female disguise. Sheriff Poble has issued a circular and sent it broadcast over the country, giving a description of Vaughn together with a picture.

sued a circular and sent it broadcast over the country, giving a description of Vaughn together with a picture.

Work of Orangeburg Farmers' Union. President J. H. Claffy, of the Orangeburg County Farmers' Union, in accordance with the call of the state president of the Farmers' Union, has appointed W. Q. Tatum of Cope, L. A. Carson of Holly Hill, Dr. J. H. Price of North, R. E. Wannamaker of Orangeburg and T. R. McCants of Cameron a committee to call upon the banks of the county and ascertain how much money will be loaned to farmers on cotton this fall. The effort is being made to hold cotton until the price demanded is obtainable.

Gaffney.—The summer term of court of general sessions of Cherokee county adjourned after one of the shortest sessions ever held. Court was in session only two days.

St. George.—The so-called "Grace faction" was injected into the senatorial, congressional and solicitorial campaign meeting in St. George and provoked a rather heated colloquy between George S. Legare and his opponent, H. Leon Larsley.

Columbia.—A normal school for all Sunday school workers in the Lutheran church of South Carolina will be held at Leesville July 22 to 25. There will be three departments under the charge of Mrs. E. C. Cronk, Rev. A. V. Golgt and Rev. E. J. Fox.

Darlington.—The tobacco season for this market will open here July 11, and there will be three warehouses in the business this year—Sydnor & Stem, Milling Williams, and a new concern, Mazingo & Jones—will buy leaf tobacco in the Central brick warehouse.

Conway.—A shout from J. A. Lewis, county chairman, "Everybody to the oak, gentlemen," was the signal for the assembling of several hundred citizens around a stand built about the base of a venerable moss draped live oak on the bank of the Waccamaw, the occasion being the ninth meeting of the state political campaign.

Chester.—J. L. McLean of Maxton, N. C., a high school teacher of several years' experience, has been elected to succeed H. H. Scott as a member of the faculty of the Chester Hill school. Mr. McLean is a graduate of Davidson College, holding both the bachelor of arts and the master of arts degree, and comes recommended as a high school teacher.

Sumter.—The chamber of commerce is satisfied that Sumter will be well represented at the organization of a state commercial body to take place in Columbia Tuesday, July 9. A special will probably be run over the Southern railway, leaving here at 1 o'clock and returning after the banquet. The presence of the Sumter band is expected to liven up the trip.

Columbia.—A well attended mass meeting of the citizens of Waverley was held to consider the annexation of that suburb to Columbia. The city council was represented by Messrs. Blalock, Keenan and Stieglitz, each of whom ably expressed himself as to the advantages that would be derived by Waverley and the city, each one taking up his branch in the management of the city government and to what extent Waverley might expect advantages.

## A LIVER MEDICINE THAT BEATS CALOMEL

**Dodson's Liver Tone Does the Same  
Work as Calomel Without Making  
You Sick. It is Vegetable,  
Tastes Good and Never  
Fails.**

Everybody who has ever taken calomel knows what a strong drug it is. Calomel spurs the tired liver as if it were a tired horse, and while the liver works harder for a little while, it is soon weaker than ever.

Dodson's Liver Tone is a vegetable tonic that gently induces the most sluggish liver to work. Taking it is followed by no bad after-effects. No restrictions of habit or diet necessary. For either children or grown people. Ladd sells a large bottle of Dodson's Liver Tone for fifty cents and guarantees it to be a perfect substitute for calomel and will give you your money back if it disappoints you.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

## INTEREST IN SHOW

NATIONAL CORN EXPOSITION IS  
ATTRACTING CONSIDERABLE  
ATTENTION.

### TO BE HELD IN COLUMBIA

The Date of the Corn Show is January 1913.—Farmers From the West and the Middle West Will Attend in Great Numbers.

Columbia.—The National Corn Show will be held in Columbia during January and February of next year. Many farmers from the West and Middle West will attend the exposition. In the last issue of The Country Gentleman, one of the most widely read agricultural papers, the leading paragraph heading a page of "Notes From Progressive Communities," tells of the National Corn Show.

The paragraph follows: "The National Corn Exposition to be held at Columbia proposes to have an exposition school for the prize-winners in the county contests of the Boys' Corn Clubs, as conducted throughout the Southern states by the federal farm demonstration bureau. The school will open on Monday, January 27, 1913, and will continue a week. The scholars will be the two boys in each county who win first and second places in the club contests and the instructors will be agricultural experts from all parts of the country. The boys will be quartered in a large building near those of the exposition, will be organized in semi-military fashion, will visit the exhibits in the morning and be given instruction in corn-judging, stock-judging and the like, and they will prepare reports of what they see. At the close of the week they will be given a banquet by the city council of Columbia, with speeches by notable men. Prof. O. B. Martin will have charge of the arrangements."

Governor Blease At Marion. Marion.—Marion county which gave over Blease two years ago, seems to be the seat of a strenuous effort this year on the part of the Blease forces, but representative men here say that it will be carried easily at the August primaries by Judge Jones, in spite of a profession by the governor of confidence that he had made large gains here recently. Judge Jones certainly has reason to be pleased with the attitude toward him of a majority of the audience, composed of about 1,200 people, which he addressed on the court house green.

### Automobile Highway Fund Growing.

Charleston.—President J. M. Connelley, of the Charleston Automobile Club, who for some months past has been engaged in the work of raising a fund for the completion of the Summerville automobile loop between this city and Summerville, now has in hand \$2,285 to devote to this purpose. Mr. Connelley stated that contributions had not been coming in as rapidly as they should in view of the great importance of the work.

### Will Glass Still At Large.

Lexington.—Will Glass, the negro who shot and mortally wounded his wife, Bettie Glass, and seriously wounded her baby, two loads from a breech-loading shotgun having been fired into her body, has so far managed to elude the officers. The murder occurred near Cayce, the shooting taking place in the same house where "Pinky" Culpepper, a negro woman, shot and killed her husband about two years ago.

### Train Kills Young Man.

Charleston.—Julian Steinmeyer, a young white man was run over and killed by a train of the Southern railway near the six mile post. The particulars of the accident are hard to get and it is not known definitely just what train struck him. His body was found some time after he had been killed. It is supposed that he probably attempted to board a moving train and met his death in this way.

### Man Shot 15-Year-Old Daughter.

Manning.—J. J. Bryant, a white man about 60 years old, was before Magistrate D. J. Bradham for a preliminary hearing on a charge of assault and battery with intent to kill, he having shot his 15-year-old daughter in the leg and foot with a shotgun. No testimony was taken, as the defendant acknowledged having done the shooting. He offered to explain why he did it but the magistrate would not hear

Truck Farming in Camden County. That truck farming can be made to pay handsome dividends in this section of the state was demonstrated this season by J. A. Melton, who planted on a small scale on the lower end of Fair street. He planted one-fourth of an acre in cabbages and cleared \$138. On another one-fourth acre, which was planted in beets, spring turnips and onions, he cleared \$70. On the same one-fourth acre, which he has gathered all the vegetables, he has a very promising crop of tomatoes, which he expects to make at least \$50 on.

### Charge Withdrawn After Hearing.

Columbia.—After a preliminary hearing before Magistrate Fowles, the charges against J. C. Easterling of Columbia were withdrawn. Mr. Easterling, who is well advanced in years, was arrested a few days ago on a warrant charging him with committing a serious crime at Hyatt Park. The charges preferred against him surprised his friends and relatives, who are glad that after investigation they proved without foundation. Mr. Easterling is a member of a prominent family.

### During the summer months mothers of young children should watch for any unnatural looseness of the bowels. When given prompt attention at this time serious trouble may be avoided. Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon. For sale by all dealers.

### Mean Temperature.

When the weather man speaks of mean daily temperature he does not use mean in the usual sense, but he might as well.—Cleveland Plain Dealer.

### Truck Farming in Camden County.

He planted one-fourth of an acre in cabbages and cleared \$138. On another one-fourth acre, which was planted in beets, spring turnips and onions, he cleared \$70. On the same one-fourth acre, which he has gathered all the vegetables, he has a very promising crop of tomatoes, which he expects to make at least \$50 on.

### "Bill Bugs" Do Much Damage.

Professor Thomas of Clemson College spent a day inspecting a corn field of Mr. Huggins near the Wateree river, which has been practically ruined by "bill bugs." Prof. Thomas says that they are of a larger variety than the bill bugs that have been attacking the fields around Marlboro county and other parts of the state and that they not only attack the roots of one plant, but go from plant to plant and completely destroy the crop before leaving it. Mr. Thomas has sent in his report to Professor Conradi of Clemson College, and he hopes to be able to find a remedy for it at an early date.
