GALA DAY FOR VISITORS TO DARLINGTON JULY 5.

Darlington is going ahead at a lively rate to have the largest July celebration ever held in that progressive city. For many years "before the war"—which now means the World War—the public-spirited citizens of Darlington celebrated the 4th of July, and the attendance came from all adjacent counties, and was unusually large.

This year the celebration will be held Monday, July 5th, and many progressive steps will be added to the attractions which formerly brought such a large number of visitors to the city.

First of all, the business men, and the entire community, backed by the Chamber of Commerce, have determined to have everything absolutely free. A program which includes continuous and varied performances from early morning until late at night has been arranged, and it is impressed upon all prospective visitors, that they will be the guests of the town with no charge for any of the attractions.

Especially attention is called to the fact that horse racing will be a marked feature of the celebration, as this has always been; music will not stop during the day, and an orchestra will continue the music for open air street dancing as late at night as the dancers care to trip the light fantastic; moving pictures, carnival attractions and distinguished visitors will all add to the pleasures of the occasion, when the town and community generally will be the committee on hospitality. Several humorous features will emphasize this part of the program. Do not forget that everything will be absolutely free.

Mr. Merchant:

Mr. Farmer:

If some well known graduate in the school of experience came along and told you that he could give you a very simple remedy for your high cost of "doing business," whether it be passing cigars over the counter or raising cotton, tobacco and corn, you would at least pay some attention to him, would you not?

Then why not listen to some of the users of trucks in your own territory and elsewhere? Why did the Rainwater Bros. Furniture Co., and the Cheraw Coca-Cola Bottling Co. buy two Reo Speedwagons from us? Just because a Reo Speedwagon user, who before we sold him had the idea that there was only one truck that it would pay to own, and that a very well known light truck—sold them. Wherever we sell one Reo that very soon means another in the same neighborhood. Don't ask us about these trucks, write us for names of users and ask them—what they say is what counts. Call us up and ask for a demonstration.

GRASS PLOT WEEK.

The Civic League is anxious to beautify the streets of Cheraw and as it is too late to plant anything, can't we get the beautiful grass we already have now, cut even, mowed and all the trash kept off? Think about it, house-keeper, and help us. The town only cut the weeds on the streets in August and by that time our streets will be a wilderness unless we do something now. We want the help of every man, woman and child here to not only help us to keep the streets clean but also to beautify them. It will cost very little after we get them in shape. The town scraper evens them off with the ugly old telephone poles with which we have to put up with but we can keep the grass mowed down around them. Especially the streets with

three rows of trees are kept, these could be improved greatly if some one would only take their rake and mower out there. We are going to try to move all the ugly old stumps, etc., and hope by the 1st of July to have our streets in beautiful order.

Miss Lois Frierson, of Brooksville, Fla., who has been attending school in Spartanburg, has joined her mother, Mrs. Leola Frierson, who is spending the summer with her sister, Mrs. Irene Reid.
