Jail Is Crowded

Our county jail keeps pretty well crowded all the time. Recently there were twenty-six prisoners in jail, but several of them were able to arrange bond and some who were in there for gang. Sunday six young white .nen and nine negroes were confined there. Two of the white men are charged with burglary and four with violation of the prohibition law. Each of them are healthy young fellows, capable of making useful citizens, but it seems All over upland and lowlend the not to have dawned upon them the seriousness of the lives they are now Some of us call it autumn and others living. We hope that they will think upon their ways before it is too late.
