

COLTS FOR 4-H CLUB BOYS

Realizing the present and probable future acute shortage of work stock existing in the entire country, arrangements are being made by County Agent Green to secure about 15 good colts for 4-H Club boys of Kershaw County to own and raise. Most-ly mare colts will be gotten with the plan of raising from these when they mature. If the plan works well additional colts will be brought in. Arrangements are also being made for the placing of a fine stallion in the County.

The colts being secured are of work type and medium weight. Heavy draft type such as Percherons are not adapted to conditions and requirements here. Nor would light gaited horses be suitable for the need of our 4-H farm boys.

These colts will be placed only with Club boys who have good pasturage, a good supply of corn, oats, and hay. It is desirable that the boy purchasing a colt shall pay cash, but if this cannot be done arrangements can probably be worked out for financing if the boy can make a substantial cash payment and give some other security, such as a cow or hogs in addition to the colt.

These colts, if well grown out, should double in value by maturity. It should also prove profitable for the club boy to raise horse or mule colts from his mare while she performs regular farm duty the same as another horse or mule.

The economic cycle on work stock indicates continued shortage and higher prices for the next several years with the peak of high prices and shortage yet to come.

The County Agent has gone to much pains to investigate this matter thoroughly and to locate colts, and it is believed the project will prove of great value, not only to the boys involved, but to the county as well. There is no need for us to pay out thousands of dollars annually for new, young work stock when we can raise them profitably. I am trying hard to help our farmers stop the disastrous flow of money away from our county. Just as hundreds of our farmers in Kershaw County are saving the money they formerly spent for nitrogen fertilizer by the use of Crotalaria just so they can begin now to save the money being spent every year for work stock.

All 4-H Club boys in the County who are interested in securing one of these colts are requested to write the County Agent at once, giving definitely and accurately information as to the size and kind of pasture available, quantity of corn, oats and hay on hand, and the number of live stock to be fed from such supply of foodstuffs. State the number of acres of bermuda or carpet grass in the pasture. Farm boys who are not yet 4-H club members but who are interested in getting a colt are eligible to secure one by becoming a 4-H member and complying with other requirements above.

Cooperation of parents of club boys is requested in this connection. These colts will be fed, handled, grown out and broken under the supervision of the County Agent.

Full information as to the age, weight, breeding and cost of these colts will be given the club boys upon request.

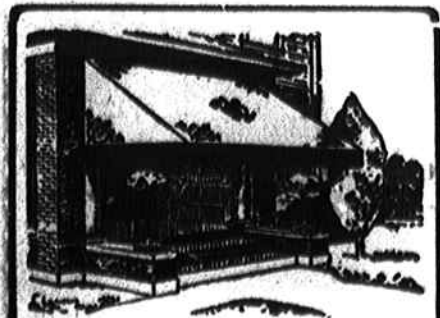

Henry D. Green, Co. Agt. Camden.

Get Rid of Poisons

Produced by Constipation

A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. Dr. J. P. Mahaffey, of Clinton, S. C., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught." A natural, purely vegetable laxative.

BLACK-DRAUGHT

All the better Awnings in this section are ANCHOR AWNINGS. This is the Awning Season. See us for quotations.

'DOC' KINKAID JOINS GULF REFINING CO.'S AVIATION DEPT.

'Doc' Kinkaid, whose mechanical genius enabled Lindberg, Chamberlain, Byrd, Ruth Elder and others to successfully fly the Atlantic, has joined forces with Capt. Al Williams, world famous speed pilot, as Lubricating Engineer of the Gulf Refining Company's Aviation Sales Dept. Williams is the Department Manager.

Admiral Richard E. Byrd, paying tribute to 'Doc' (T. Harold) Kinkaid as one of the greatest masters of airplane motors, recently wrote: "The real men behind all great progress in aviation - the men who make the motors run sweetly hour after hour under all kinds of flying conditions have never received their just due."

"Had 'Doc' Kinkaid not been absolutely right when he put the final touch on our motors for polar and trans-Atlantic flights and calmly said, 'They'll Do', Lindberg, Chamberlain, Miss Elder and I might now be dead."

Since 1909, when the development of airplane motors first started in this country, Kinkaid has been engaged in building, testing and motor research work. As a member of the Contest Committee, National Aeronautical Association, he has attended every air race of importance in the United States.

It is to 'Doc' Kinkaid that most racing pilots look for the final touch of perfection in the performance of their motors, just before the races. Pilots credit him with having them on their way to ninety seven per cent of all money places in the National Air Races.

With headquarters in Gulf Building, Pittsburgh, Kinkaid will visit airports and airplane plants, ironing out motor problems for pilots and manufacturers and making lubrication recommendations.

Blood stained the snow on

WINTER RANGE

New Mystery of the Cattle Country

By Alan LeMay

Two murdered men cast over Bar Hook ranch a shadow of mystery as deep as the winter night. What was the answer?

Jean Ragland thought she knew. Lone hand, she played her terrible secret against the law and the range. Then Kentucky Jones began investigatin'. Guns barked and the noose hung over a dozen heads!

Action, romance and a suspense that never lets you down fill this swift tale of smoking guns and sturdy hearts, by a master of Western fiction.

Anaesthetist Examination

The United States Civil Service Commission has announced that applications will be received until June 3 for the position of anaesthetist, U. S. Public Health Service.

The entrance salary is \$2,000 a year, subject to a deduction of three and one half per cent toward a retirement annuity. A deduction of \$780 per year is made from the salary when quarters, subsistence, and laundry are furnished.

Specified education and experience are required. Ordinary graduate nurse experience will not qualify.

Full information may be obtained from M. H. Moore, Secretary of the United States Civil Service of Examiners, at the post office in this city.

Gulf's new Multi-sol process now brings you
A PREMIUM MOTOR OIL FOR 25¢

THE NEW GULF-LUBE

Again Gulf offers you a saving . . . Now you can get a premium oil at a popular price!

HAVE YOU ever wished for a premium motor oil—without a premium price . . . ?

Then—listen to this . . . There is now a premium oil—with full premium oil qualities—that sells for only 25c a quart. It is the new Gulf-lube.

have focussed their efforts on a better method of refining motor oil.

Out of their efforts has come a giant new Gulf refinery, operating upon a new refining principle—the Multi-sol process.

And from this new process and new refinery comes the new Gulf-lube!

- No other 25¢ motor oil gives you all these quality points!
1. It is Multi-sol processed.
 2. Its already high mileage has been stepped up 20% to 25%.
 3. Highly resistant to oxidation—non-sludging . . . extra long life.
 4. It has a high viscosity index—thins out less under heat . . . easy starting year-round. Thoroughly de-waxed.
 5. Forms far less carbon.
 6. High film strength—a pure mineral oil that will not corrode new alloy bearings.

How the Multi-sol process works
In this history-making process, solvents of two opposite actions are used.

One action dissolves out the impurities and settles them to the bottom of the extraction tanks. The other action selects the desirable parts of the oil and floats them to the top. This selected oil is then "skimmed off,"

thoroughly de-waxed and filtered—the finest motor oil 25c ever bought!

Try just one filling!
Try this extraordinary new oil. Fill up, replace with the new Gulf-lube—and you'll notice a difference before you drive your first hundred miles!

You'll add less oil between drains—for Gulf-lube's already high mileage has been stepped up 20% to 25%! You'll get less carbon, less sludge—and far better motor protection.

You can get the new Gulf-lube at all Gulf dealers—at only 25c a quart.

U. D. C. CHAPTER NOTES

The May meeting of the John D. Kennedy Chapter U. D. C., was held at the home of Mrs. S. C. Zemp, with Mrs. Burwell Boykin as assistant hostess.

After the minutes were read the treasurer's report was given and it was stated that a Stratford program had been recently given at the school auditorium. Dr. Gwathney, president of Converse College was the speaker. Mrs. Robert M. Kennedy, Jr., in behalf of the U. D. C. presented the Doctor with a lovely basket of flowers. The school children contributed \$9.30 on the Stratford fund.

A motion was made to write Doctor Gwathney a note of thanks for making the address and also one to Mrs. Kennedy, for the lovely flowers.

The Memorial Committee reported that the luncheon for the Confederate soldiers had been planned for noon, Friday, May 10th and at 5 p.m. there will be exercises at the cemetery. George Wittkowsky will be the speaker. Mrs. S. C. Zemp told of the work that had been done in cleaning and repairing the graves of the unknown soldiers buried in the Quaker cemetery.

A report of the district meeting was given by Mrs. Zemp, Misses McDowall and Mrs. J. B. Cureton, which was held in Rock Hill.

After the business meeting a delightful social hour was spent and delicious refreshments were served.

Fish and Game Rally at Beaver Creek Last Thursday

An enthusiastic meeting of sports men was held at Beaver Creek last Thursday evening. The affair was a joint rally of the three nearby associations, Kershaw, Lancaster and Chester. Among those present were officers of the three chapters, Ex Gov John G. Richards, and members of the State Association, and other guests.

Deas Boykin, president of the local chapter acted as toastmaster and fish supper was served for 127 persons. The occasion was much of a success. Many of the sportsmen arrived early and spent the afternoon fishing. Those who made short speeches were Ex-Gov. J. G. Richards, Deas Boykin, Kirkland Trotter, Vice President State Association for the 5th district, and members of the Lancaster and Chester chapters.

Junior Senior Reception At Baron DeKalb School

The Juniors and Seniors of Baron DeKalb High School held their reception in the Home Economics room of the school on Friday night, May 3. The color scheme was blue and gold. The room was beautifully decorated with spring flowers.

The guests assembled in the auditorium and were led into the Home Economics room by the host and hostess, Mr. and Mrs. J. K. Lee, Jr. There were seventy one present.

The following program was carried out.

Welcome— Toastmistress, Willie Mae Horton.

Songs—

Response— Juniors to Seniors.

Toast to Seniors— Willie Mae Horton.

Response, Juniors— Katherine Ogburn.

Toast to faculty— Louise Hinson

Response— Mr. Lee.

Joke— Albertus Thomas.

Statistics of Seniors— Wilma Gay

Statistics of Juniors— Robert Hood

Statistics of Faculty— Fred F.

Song, Isle of Capre— Evelyn Horton.

ton, Bencico Truesdale, Willie Mae Peach, Vernon Williams, Albertus Thomas, Fred Fletcher.

Song— It's June in January.

Miss Gates Albertus Thomas.

At the conclusion of the above program the guests were invited to a farewell dance for the seniors at the 4-H club house.

Albinistic Snake Caught on Charleston Streets

Charleston, May 13.—From right off a city street, the Charleston museum has received an albinistic snake specimen which may be the first on record.

E. Burnham Chamberlain, curator of science, said it was a Southern hognose snake and so far as he knows no albinistic snake of any specimen ever has been recorded, although he added that he had not had an opportunity to verify this by a thorough investigation.

The snake, of a pale buff cream color with pinkish eyes, was picked up on a street by a man who presented it to the museum. It is about 16 inches long. The normal color is brownish red splotches on grayish background.
