Stockholder's Meeting.
The annual meeting of the stockholder's in the Cotton Factory was held at the Opera House yesterday and was well attended, a majority of the stock being represented. A full statement of the financial condition of the company and all that had been accomplished during the first year of its existence, was presented by the president, Mr. A. D. Kennedy. There was general expression of satisfaction on the part of stockholders, and a strong determination manifested to push the work to completion in spite of all difficulties. A statement from the engineer showed that 37,000 cubic yards of earth had already been moved, and that the removal of about as much more would ensure the proper development of the water power. The previous board of directors were re-elected for the ensuing year, and a resolution thanking them and the president for efficient performance of duty was unanimously adopted.
All present at the meeting were convinced that this enterprise, promising to the interests of our community, was on the high road to success.
