

CONGRESSMAN SHELL HURT

KNOCKED DOWN BY A WASHINGTON CABLE CAR

Descent a few feet below the Fender and Painfully Cut and Bruised About the Head and Body.
WASHINGTON, August 21.—Congressman George W. Shell of the Fourth District of South Carolina...

AS GOOD AS GOLD.

Clearing House Certificates Going the Round in Atlanta.
The first little five-dollar certificate from the Atlanta clearing house found its way into the pockets of the trading public yesterday.

It was passed over the marble counter of one of the best banks of the city, and stands for what it is worth, whether it be used for debt paying or for trade.
It is as good as the gold or the silver. It is real live money. Money with the bloom on it...

But, when the leading trade journals of the North began to publish reports that the banks of the South would not be able to furnish enough ready cash to move the cotton crop...

The banks of Atlanta, always ready and willing to do all that the people and business men of the city demand of them, at once took steps to meet the call. They decided not to issue certificates such as the mass meeting asked them to do...

WE HAVE OUR SHARE.

No More Places in the Interior Department for Carolinians.
WASHINGTON, August 21.—Representative Lattin called at the Interior Department this morning and recommended Walter Miller, of Abbeville, for a chief's place.

THE FURY OF THE TEMPEST

A TERRIFIC STORM STRIKES NEW YORK

Great Horror Wrought by Wind and Wave at the Seaside Resorts on the Long Island and Jersey Coasts.
NEW YORK, August 24.—A heavy gale, with rain in torrents, struck this vicinity last night, giving none of the usual warnings.

Ceilers and basements along the west and south streets (the river front) were flooded, and much damage to goods stored was caused. Trees all over the city were uprooted or stripped of their branches.

Comparatively small loss of life is reported, owing to the lateness of the hour at which the storm broke.
The greatest calamity to life was at Asbury Park, N. J., where the fishing schooner Mary E. Kelley, of New York, blew ashore and was wrecked in front of the town.

Long Island, for its entire length, suffered heavily on the shore as well as on the water. A number of vessels in New York harbor were in collision during the storm, but none were sunk.

The damage to Coney Island resorts will doubtless reach far into the hundred thousands. From Norton's Point on the western end of the island, to Point Breeze, on the extreme east, the beach is full of wreckage, and a scene of disaster is presented which tells the story of the terrible night far better than could any words.

Nearby towns in New Jersey all suffered in the same manner, as did Long Island. Up the Hudson river, mountain streams that had been dry for a month are perfect torrents today.

HIGHLANDS, TWENTY YACHTS OF ALL SIZES

BEING DESTROYED BY THE TEMPEST

CHICAGO CONFLAGRATION.
Seven Thousand People Made Homeless—Loss \$1,400,000.
CHICAGO, August 24.—Fire broke out at 5 o'clock this afternoon in South Chicago, in a three story brick building, corner Ninety-first street and Superior avenue.

The rapidity of the spread of the fire caused a panic. The territory is crowded with inflammable material, including immense lumber yards. Every engine in the south end of the city that could be spared was sent into the threatened territory.

Woolen and Flour Mills Burned.
MERCED, Cal., August 24.—The town of Merced Falls, twenty miles north of here, has been destroyed by fire. The Merced woolen works, valued at \$125,000, Nelson flour mills, \$25,000 and the warehouse of the woolen mill containing goods worth \$50,000 were burned.

St. Louis, August 24.—Fire today destroyed the plant of the Western Brass Manufacturing Company at 615 and 617 Wall street, and caused a total loss of about \$165,000, on which the insurance is about three quarters of the loss.

Barrett and Two of his Pals Indicted.
A Precious Trio of "Reformers" for Perry Murphy to Tackle—Postoffice Inspector Feet Still at Work.

GREENVILLE, August 18.—"Reformers" Charles P. Barrett, J. W. Owens and T. J. Harrison, the chief conspirators in the scheme devised by Barrett to defraud the government by establishing new postoffices and cancelling large quantities of stamps and to secure large shipments of valuable goods on which bogus mortgages would be given and foreclosed so as to defraud shippers, were today indicted in the United States Court here.

THE DISPENSARY'S FIRST RETURN.
The dispensary made its return today for the month of July. Dispensary Hill turned over to the city treasurer thirty-two dollars.

CHARLESTON, August 21.—The death of Sergeant Brannan at Brunswick and the arrival here of two men registered at the hotel at Atlanta, but who it seems came from Brunswick has created some feeling here, and it is not improbable that steps may be taken to quarantine Atlanta.

FORCED TO QUIT WORK.
Because They Accepted a Reduction in Wages.
OSODA, Mich., August 24.—A week ago, the lumber mill of the H. H. Lord & Sons Lumber Company was closed down.

FAILS TO PASS THE SENATE

THE SILVER DEBATE STILL ON IN THE HOUSE

Vest Offers an Amendment and Wants \$464.4 Grains of Pure Silver in a Dollar: The Silver Question Brings Several New Members to the Front—Sibley's Position Stated.
WASHINGTON, Aug. 18.—The Senate was presided over today in the absence of the Vice President, by Harris, President of the Senate pro tem.

Voorhees interposed a motion for an executive session, remarking that it seemed impossible to get a vote on the bank bill tonight. The Senate then went into executive session, first allowing Butler to offer an amendment to the bank bill, repealing the 10 per cent tax on the notes of State banks.

At 4:30 p. m. the Senate adjourned until Monday.
In the House,
The new members of the House continue to ope to the front. The star speaker of the day was delivered by Sibley of Pennsylvania, the only member of the Keystone State who is opposed to placing the United States upon a single gold standard.

That so much of the Act approved July 14, 1890, entitled "An Act directing the purchase of silver bullion and the issue of treasury notes thereon, and for other purposes," as directs the Secretary of the Treasury to purchase from time to time silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as may be offered, in each month at the market price thereof, not exceeding \$1 for 371.35 grains of pure silver and to issue in payment for such purchase treasury notes of the United States, and the same is hereby repealed.

Vest, on behalf of the minority of the Finance Committee, presented a substitute for the bill. The substitute fixes the number of grains of silver in the silver coins of the United States at 464.4 grains of pure silver per dollar, and proportionately for half dollars, quarters and dimes.

Another cause of the panic was the reform Club of New York. He thought that the speaker knew something about the Reform Club. That club had attempted to fix up the tariff before the meeting of Congress.

Stewart hoped that the pending bill would be stripped of every objectionable feature and then passed. This was no task, however, for the national bank to ask a further subsidy until every effort was made to relieve the country. If that effort was not made in good faith, it would not be the fault of the silver men.

McPherson, a member of the Finance Committee, made an argument against the amendment, as calculated to defeat the whole measure.
Manderson opposed his colleague's amendment and favored the immediate passage of the bill.

At 4:30 p. m. the Senate adjourned until Monday.
In the House,
The new members of the House continue to ope to the front. The star speaker of the day was delivered by Sibley of Pennsylvania, the only member of the Keystone State who is opposed to placing the United States upon a single gold standard.

FOUGHT ADMITTED THAT THE REMOVAL OF UNCONSTITUTIONAL TAX ON THE NOTES OF STATE BANKS WAS A PLANK IN HIS PARTY'S PLATFORM.

He admitted that the removal of unconstitutional tax on the notes of State banks was a plank in his party's platform. If the States were permitted to exercise power over the banks he had no doubt that there would be less danger from that sort of circulation than there was today from the national bank circulation.

At 4:30 p. m. the Senate adjourned until Monday.
In the House,
The new members of the House continue to ope to the front. The star speaker of the day was delivered by Sibley of Pennsylvania, the only member of the Keystone State who is opposed to placing the United States upon a single gold standard.
