MY PATRONS FRIENDS.

Istake pleasure in thanking you for your liberal patronage you have given me in the past few months I have been in bus. ness. I will state that I am in better position now to serve you with bargains than I have been. I know its hard times but I have sold lots of goods since I have opened up. The way I have done it is selling close with small profits, and that is the only way a man can sell goods now and the only way they ought to be sold as hard as times are.

I have just received a car load of flour, and another on the way. Also a fine lot of molasses I will sell cheap. Also a fine line of sugar, coffees, can goods, wheat bran, and all other groceries. I will meet any prices you want; just try me is all I

I have bought a full line of farming implements such as traces, Lames, plow stocks, back-bands, back-band hooks, repair links, shovels, spades, pitch-forks and many other things too numerous

I am heedquarters on tobacco. Just ask your neighbor, he Dealers In Engineers' Sup- can tell you; and many other bargains he has gotten and you have missed by not calling in before you spent that hard-carned dollar. I must say a great many of you have learned where you can make that dollar go the fartherest by the one you have patronized.

I will buy all country produce and pay highest market price. I will also sell you your fertilizers cheaper than any other man in Camden. Cotton seed meal, acid and ammoniated guanos. Don't buy them until you get my lowest prices. I mean to sell you if you come to see me. I know how this great per centage is and know exactly how to cut prices to sell you the goods I

Remember you can buy a buggy cheaper from me than you can from any one else.

I Am Yours Respectfully,

D. E. HINSON.
