The latest thing in blers is a plane, and the credit for introducing the novelty belong to Jessie E. Clinton, a Kentucky music teacher. She had been a planist and until her health falled a few monhts ago was a teacher in the Sumerset (Ky.) schools. She was compelled to resign and go to her mother's home in Louisville to die.

While she was able to be up she played dally at her plane, a large square model. When she became too weak to play she had some of her friends play on the instrument.

Just before her death she told her mother that she did not wish to be laid out in a coffin, but upon the plane, which she had owned for ten years. In compliance with her dying wish the body was laid out upon the plane. which was draped in white. Detecting Iccbergs.

One way in which the crew of an ocean steamer detect the fact that they are nearing the neighborhood of Icebergs is by observing the action of the ordinary for a considerable distance around, and when the vessel enters water of such a reduced temperature the propeller runs faster. When this action is perceptibly increased without the steam power being augmented, word is sent up from the engine room to the officer on the bridge, and a close lookout is kept.

WEEK'S COMMERCIAL REVIEW

Bradstreet Reports a Continuance of the General Expansion of Prices.

LARGEST AUGUST TRADE YET.

Heavy Exports-The Warm Weather Has Assured the Corn Crop Number of Business Faitures.

Bradstreet's commercial review for the week ending Saturday, Sept. 4th, says. The previous activity in all lines of trade is maintained. There is a better tone to the demand from jobbers, and the volume of business in wool, leather, clothing, hats, groceries and light hardware has increased. There is a better request for woolen and cotton goods, jewelry and rubber goods, tabrics and shoes. Some wholesale merchants at Western centres report the largest olume of August trade on record. There has been an increased consump ion of cotton by Southern mills.

Western fron and steel mills have orlers to keep—them busy until January In the Central-Western States the ottuminous coal strike has had a further depressing effect on the general industrial situation. At the Northwest gome commercial houses have had to work overtime to meet the demand for loods, and the warm weather is reported to have practically assured the Indian corn crop. On the Pacific coast wheat exports have been checked by inability to secure crews for yessels. Mercantile collections have improved in some sections.

Last week's general and unprece leuted expansion of prices for staples s continued, wool, cotton and woolen fabrics, hides, leather, white pine lum ber, sashes and doors, iron and steel bars, billets and rods, wire nails, barbed wire and Southern foundry iron, wheat, corn, lard and sugar having advanced, and higher prices being expected for boots and shoes. Lower prices are recorded for cotton, wheat flour and coffee, while those for oats, nork, print cloths, petroleum and coal are unchanged.

This week's export of wheat (flour in cluded as wheat) are the largest with two exceptions—the second week o September and the fourth week in Augus), 1891. The total shipments amount to 6,268,247 bushels, against 5,149,653 bushels last week; 3,389,862 bushels last year; 2,260,261 in 1897; 3,207,300 bushels in 1894, and 4,920,000 bushels in sest. The shipment of corn is also large, aggregating 3,185,064 bushels this week, against, 2,682,452 bushels last week; 2,527,526 bushels last year; 1,405,370 bushels in 1895; 127,000 bushels in 1894, and 672,875 bushels in

There are 128 business failures re ported through the United States this week, against 210 last week, 336 in the week one year ago, 184 two years age 207 three years ago, and as contrasted with 319 in the like week of 1893. There are 30 business failures reported from the Canadian Dominton this week. Last veck the total was 39, and a year ago it Dun & Co.'s report says that failures

in August 1897, were not 17 per cent ess in number than in August 1896, but in amount of liabilities were 70 per cent. ess; July and August show lower average of liabilities per failure than tor any quarter in the last twenty three the improvement extends to nearly every important branch of

Both men and women are apt to feel a little blue, when the gray hairs begin to show. It's a very natural feeling. In the normal condition of things gray hairs belong to advanced age. They have no business whitening the head of man or woman, who has not begun to go down the slope of life. As a matter of fact, the hair turns gray regardless of age, or of life's seasons; sometimes it is whitened by sickness, but more often from lack of care, When the hair fades or turns gray there's no need to resort to hair dyes. The normal color of the hair is restored and retained by the use of

As a rule, "cheap medicine" is inert, worthless, or dangerous. In Zeilin & Co. 'a naswer to our bilt they said the packages énjoined were designed as "cheap negro medicine for the negroes of the blissist-pil Valler." Now, as Zellin & Co. 's advertisoments ruy, and their manager swore, that all the liver medicine which they make is made by the same formula, is t' is not conclusive evidence from their sworn testimony and advertisements, that all the liver medicine emanding from them is "Cheap Negro Medicine?" Questiont Do the sick of America dosare "Cheap Negro Medicine?" Let the afflicted answer by their future purchases. Dr. M. A. Simmons' Liver Medicine, established in 1810, is not "cheap medicine." It is "no cure all," and is only recome mented for these indispositions caused by inscriving of the liver.
