For sale by F. Leslie Zemp.

Fire at Mr Hammond's.

It seems that fire has had quite a "pick" at Mr. R. W. Hammond recently. He has been the victim of it twice in the last few days. A pan of ashes with some fire in them caused his kitchen to catch on fire but was discovered before much damage was done. A day or two afterwards a piece of woods on his plantation caught fire and was doing considerable damage but fortunately a heavy rain came up and stopped it.

A Narrow Escape.

The Graded School Building all O. K.

A report was recently being circulated that the Camden Graded school building was not in a good sanitary condition. Our trustees were satisfied that there was nothing wrong but to set matters straight they promptly requested an examination of the building by the Bd. of Health. The following letters will show how promptly the trustees did their duty and how groundless was the report; the Supt. of Education's office, and they will please come at once and take them

Camden, S. C., Feb. 27, 1899.
Dr. A. A. Moore,
Chairman Bd. Health, Camden, S. C.
Dear Sir:—The Board of School Trustees have learned that it is reported that two cases of fever in Camden have resulted from the imperfect con dition of the Graded School Building, And, in view of such report, and of the importance of the matter, the Board of Trustees have directed me to request the Board of Health of Camden to make, as early as possible, a thorough examination of the School Building, and ascertain if its condition is such as to cause fever. We also request the Board of Health to advise us of the result of their investigation, together with any suggestions they may deem

proper in the premises.

Respectfully Yours,

Wm. D. Trantham.

Chairman Board School Trustees.

Camden, S. C., Feb. 28, 1809.
W. D. Trantham, Esq.
Chairman Board School Trustees,
Camden, S. C. Chairman Board School Trustes,
Camdon, S. C.
Dear Sir:—In compliance with the
request of your Board, and in order to
allay all anxiety in reference to the
sanitary condition of the School Building, a committee of the Board of
health inspected the building from top
to besement. They are pleased to report that they found nothing whatever
to imperil the health of the pupils, or
to cause apprehension on the part of
the patrons of the School. The building is heated, lighted and veotilated
according to modern sanitary principles, and all other arrangements are in
patisfectory condition.

Yours Very Respectfully
A. A. Moore, M. D. Chairman Md. Hearth, of Camden. the inspection consisted of
