It is very gratifying to note the increased interest being manifested by our farmers in wheat growing. This is a step in the right direction.

Mayor Woodward, of Atlanta, has been demanded by city council to resign his office. The mayor is charged with drunkenness and the action of council is the result of a big spree he has been on recently in which he is said to have acted in a disgraceful and immoral manner.

It requires as much business tact to run a newspaper successfully as any other business and the one man who makes his paper a success as to "make up" and "put up" and at the same time finances it successfully is capable of most any place in the community.—S. S. Publisher.

The Columbia Record says: "It is nearly a year before the next State campaign, but political fever is building in a town. Among those spoken of as probable gubernatorial candidates next year are Gov. McSwain, Col. Willie Jones, Judge O. W. Buchanan, A. H. Patterson, ex-Gov. John C. Sheppard, O. L. Schampert, C. C. Featherstone and the perennial G. W. Whitman. There may be others in the 'class'."

What is going to be a dominant opinion in South Carolina is voiced by the Chester Eastern when it says: "According to the penitentiary investigating committee, the State's farming is like that of some individuals; it costs a good deal more than it comes to. There was commendation of improvement and the management generally, but it appears that it took money by thousands of dollars. The convict should be put on the roads and let the free farmers have a monopoly of raising farm products."—E. X.

We clip the following very complimentary notice of Confederate veterans from a paper published in New York City. We know that four of our Confederate devotees every word of it but we cannot but wonder at it coming from that source. It says:

"The deeds of valor of Southern soldiers are a priceless heritage to the south, the memory of which will stimulate generations yet unborn to generous emulation. No country has ever, or can ever, produce finer men than the old Confederate veterans but let us hope that the South will always produce some worthy of such sires. When it comes to be so it will have won the old blood which had honor and duty above even life itself."

The rate at which taxes are raised to prosecute the war is alarming. The taxes collected by this government are enormous in amount, and we do not believe any one so successful a country as ours can stand it indefinitely. The people would never have put up with it as long as they have but for the fact that the levy outside the "sanitary revenue" is so indirect that they do not identify the pressure with many of the privations they are subjected to. Yet how hopeless is the future, with millions of voters bought up in the North indirectly with pensions, the like of which no country ever paid before.—E. X.

A Talk With Farmers.
The following from the Cherokee County Ledger is possibly applicable to every section of our country: "Every section of our country, no far as we have learned, has been vis-

ited with beautiful rains, and the improvement in the crops is almost magical. Many a farmer will be surprised and delighted to find his crops, which he had considered past all hope of escape, finally recovering after the care of the farmers, better than they are looking at themselves.

It is said to be the best in the world. It is the only one that is made in the United States. It is the only one that is made in the United States. It is the only one that is made in the United States.

A few more lines, immediately after the war, and the number of our farmers appear to be actually equal to the population. It is a fact that the war has not only saved the life of a man in the field, but it has also saved the life of a man in the field.

INSTALLMENT PLAN.

Don't let the price of cotton keep you away. Respectfully,
W. GEISENHEIMER,
Proprietor.

To My Friends & Patrons:

This is the beginning of another season with cotton at 4 and 5 cents per pound. This means cheap goods or no sale. I have got the goods and they have got to be sold and as I have always said I never allow any one to undersell me, the money is what I want and that I am going to have if you come in my store. I have a big stock as usual, fresh and nice never have my old stock.

FRESH GOODS

coming in every day. I went in business in 1891 when cotton was about the same price it is now and I am still here doing my share; some predicted that I would not pull through that season. Low priced cotton don't frighten me. I have gone through a hotter battle than this. I sold my goods for such small profits, I find that it pays to make small profits and quick sales. I have kept it up and don't want to change it. I will say to those who have stores in the country to come in and I will divide the profits with you as I have always done. Some business houses may tell you they carry a larger stock than I do, you can say to them you get more for a dollar.

AT HINSON'S

than you get from them, it makes but little difference to you how much stock they carry. What you want is all you can get for your money. I am satisfied with the past and I know I will be with the future for I am working just as hard for your trade as I ever did. Come on you will find me at the same place.
Yours Respectfully,
D. E. HINSON.
