The attention of the Democratic voters of Camden is called to the notice elsewhere in this Issue of Dr A. A. Moore calling for a meeting to be held at the Opera House on next Thursday evening at 8 o'clock

The locomotive is a good simile by which to illustrate the power of the press. It can carry mighty burdens; it can distance the fleetest bird: when it is pushed across continents, it changes the channels of trade and makes new stations for commerce; when it is driven into the wilderness, savage beasts and savage men alike retire before it, and civilization, with unsoiled andals, follows in its trail. - Ex.

The Camden Chronicle wants to now whether justice has been done Mr. Boykin, one of the two mema of the state board of control against whom no charges have been Our contemporary might inquire the whether justice has been done to the other fellows, -Chester

No. If justice had been done the other fellows at least one of them might now be serving a sentence for the State, but as matters now stand Mesars. Boykin and Williams suffer for the misdoings of Haselden. That's exactly where the trouble lies -the just are being punished for the the top of the scaffeld. A bill has been introduced in the legislature to impose a ponalty of railroads for failure to post schedules according to law. We do not know exactly what the law is, but railroads should be forced, when trains are should be forced, when trains are late, to post the extent of the late ness every time, and they should not be allowed to say an hour or two hours late when they are four or five hours late. They know where trains are all along, and there is no excuse for this misrepresentation. If trains lose more time after posting, then the bulletin should be changed. Even local agents are often kept in ignorance of a train's whereabouts, or else they are not allowed to tell .--Chester Lantern.

Something Should be Done About It.

Twice has the grand jury of this county called the attention of the Court to the fact that Mr. A. D. Kennedy is the only man in the county selling pistol cartridges who has paid the lidense for doing so. This condition of affairs is wrong utterly, and something should be done about it. The parties violating the law should be prosecuted or else Mr. Kennedy's tax money should be returned to him. It is not only unfair but ridiculous that Mr. Kennedy should be taxed for a priviledge that others (as inferred by the presentment of the grand I hardly recognized them when they jury) enjoy without paying for it. sppeared in print. To My Friends & Patrons:

This is the beginning of another season with cotton at 4 and 5 cents per pound. This means cheap goods or no sale. I have got the goods and they have got to Be sold and as I have always said I never allow any one to undersell me, the money is what I want and that I am going to have if you come in my store. I have a big stock as usual, fresh and nice; never have any old stale stock.

coming in every day. I went in business in 1894 when cotton was about the same prices it is now and I am still here doing my share; some predicted that I would not pull through that season. Low priced cotton don't frighten me, I have gone through a hotter battle than this. I sold my goods for such small profits, I find that it pays to make small profits and quick sales. I have kept it up and don't want to change it. I will say to those who have stores in the country to come in and I will divide the profits with your as have always done. Some business houses may tell you taey carry a larger stock than I do, you can say to them you get more for a dollar
