## TESTING CANNED MEATS.

#### Experts Can Tell Their Condition by Tapping Upon the Lids.

Among the most incomprehensible proceedings to be observed within the wast area of Woolwich reserve depot are the doings of a small party of offivials, one of whom appears to do nothing all day long but sit at a table and tap on the top of tin canisters with a Reed farm in Kershaw, the county couple of bits of stick something after | line being the line between the two the manner of a child beating on the farms. upturned end of his drum. The tins are passed before him about as fast as he can tap them and absolutely nothing seems to come of the game. To the unenlightened onlooker it is guite unintelligible. The tins contain meat and before they are passed into store | the yield would be 175 to 200 bales It is, of course, important to examine | Fifty-four acres were sown in wheat the condition of what is inclosed, and which yielded 930 bushels, measured this, in fact, is the way it is done. ### Ingenious Idea of a Brids.

A Belgian bride of recent date made an ingenious application of the autograph idea. She asked every guest to write his or her name in pencil on the train of her white satin gown. These she will embroider later in silk and keep as a souvenir of the occasion. The same original young woman had in her bridal bouquet some myrtle grown from a sprig planted by her from her elder sister's bridal bouquet.
