A Sober View. Berlin, By Cable. - More sober views about China now prevail here, owing, doubtless, to the fact that Count Von able ideas about Germany's tangible interests therein, and that his influence, as Imperial Chancellor, upon the impetuous Emperor, and especially in foreign affairs, is decidedly greater than Prince Hohenloe's. It is now generally believed here that the Chinese muddle will slowly but surely unravel itself and lead to a satisfactory issue without necessitating any further large amount of actual hostilities, or an elaborate strategic campain. All the utterances of the semiofficial prees this week show this belief Only the military party is dissatisfied with this view. Douts are etill entertained here though regarding the value of the credentials of Li Hung Chang and Prince Ching, and their ability to enforce the trams of any agreement reached. The alleged latest edicts of Emperor Kwang Su are also regarded here with suspicion and even the possibility that Li Hung Chang himself is their author or instigator, to facilitate the negotiator's task, is considered.

Visits the City of New York, Doing Great Damage.

There Were Not Less Than Thirty Lives Lost, With a Property Loss 01 \$2,500,000.

New York, Special.-The long list of fire horrors that have occurred in and that includes the Royal Hotel fire, the Park Place disaster and the Windsor and Hoboken fires, was added to Monday by a fire and explosion that shook the lower end of Manhattan like an earthquake, hurled a seven-story building into the air and set fire to two blocks of buildings, with a loss of dreds of men who were rushed to the work of diaging away the rains as soon us the fire was extinguished, will reveal. The big building of carrant and Co., makers of medicinal specialties, standing at the no.thwest corner of Greenwish and Warren streets, and filled with chemicals, be known, at about a quarter after 12 o'clock in the afternoon. It was 16 minutes afterward that a citizen rushed into the house of Fire Lugine No. 30, on Chambers street, near Greenwich and shouted that Tarrent's drug house was on fire. He had seen a volume of black smoke coming 170... the third story window. An alarm was turned in. Soon afterwards second and third alarms were turned in. One fire company had just arrived when a terrific explosion occurred and threw the entire entire's crew down the stairway. The firethe street. The explosion had filled the street in front with a shower of falling glass and small debris, which sent the crowd, which was already gathered on the opposite sidewalks, fleeing for eafety and caused the horses hitched to the engines to rear and try to get away. The force of the explosion tore away the walls of the commission

store houses fronting on Washington street and caused them to collapse falling all at once in a mass, and flames burst out from the Tarrant building and caught the wreck. The explosion demolished windows and weoden structures about it. In a moment Warren street was choked up with a mass of debris and the whole place was aflame. The great explosn was followed by half a dozen more or less intense, and by a countles number of smaller ones. By this time the fire apparatus was arriving from every direction. Deputy Chief Ahern came about two minutes after the second explosion, and he at once or dered a fifth alarm sent out, followed by a general call for ambalances. The explosion and fire together had now assumed the proportions of a great catastrophe and it was at first thought that hundreds of lives had been lost. Throngs of people were rushing about in the near-by streets, many of them panic-stricken, fleeing from the fire They mingled in the crowd that was ruching down from _roadway, to see what had happened. Half an hour after the explosion the streets for blocks around the fige were crowded with fire apparatus with a score of ambulances, while hundreds of police were being rushed from all the lower precincts of the city to form lines, and many priests from near-by partshes were going here and there in the smoke-obscured thoroughfares seek ing for injured who might need their

As the result of the fire, a dozen

buildings were blown down and a score of others were damaged. The loss of life is not known, but from all sources of information it is gathered that there are perhaps the bodies of 30 persons in the ruins, though because of the hot debris and the slowness of the moving of it, no body had been removed up to midnight. The disaster was one of the most terrible that has ever occurred in this city and rivals the Windsor Hotel fire in its appairing results, though in .oss of property it will be worse. Chief Croker, of the fire department, said that the loss is fully \$1,500,000. The action of the tremendous catastrophe was more vivid and awful than the city has seen for a long time. Buildings fell in on themselves or toppled over on others, iron girders were thrown yards away, smashing through great walls, whole structures fell into the streets in piles so that the line of thoroughfare could not be marked out, huge splinters of iron, steel and wood were flying into the streets and into the buildings, clean through the walls, where they buried men and women. People walking through the streets were knocked down and dangerously injured by timbers, glass and steel, horses were thrown down, wagons, windows, store fronts and all sorts of property, for blocks in every direction were wrecked and damaged. There were 35 persons reported missing and one hundred men, women and children are on the list of the injured. Search for bodies is going on steadily. Chief Croker said that no aremen had perished in the first, all his men having been accounted

Those That Were Convicted of Helnous Crimes.

The attorney general has rendered an opinion on an important matter. The text of the opinion gxplains the matter very fully:

BUILDINGS WRECKED AND BURNED, Hon., D. J. Griffith, Superintendent State Penitentiary, Columbia, S. C. Dour Sir: On the 22d inst. you wrote to this office as follows:

"When the present board of directors entered upon the discharge of their duties, they found quite a number of convicts, hired out by their predecessors in office, who had been convicted of murder, rape, arson and manslaughter. Upon reading section 565 (2729) of the revised statutes, I find that it is forbidden to hire out convicts convicted of any of these offenses. The present board is in doubt, however, whether it is now its duty to recall such of these prisoners who are still in confinement and keep them within the jurisdiction of the whether the action of the previous board is final in the matter, and binding upon the present board. I therefore write to ask that you will kindly give me your official opinion upon this matter, and advice me what action the board should take, if any, in

regard to the name." I beg to reply as follows: Section 565, criminal statutes is as follows in part: "The board of directors of the penitentiary are hereby authorized and empowered to lease, or hire out any convicts in the penitentiary, except convicts under sentence for murder, rape areon and man-slaughter * * * " You will notice that the use or the words "authorized and empowered" evidently implies that but for this provision the board would not have the authority and power to lease convicts and that such authorization and empowering is limited expressly by the word "except preceding the naming of certain classes not perposition, rushed out of the building to mitted to be hired out. So that to my the part of any preceding board to hire out these convicts would or could be construed to be a valid contract, but, on the contrary, would be construed ultra vires and of none effect. Such being the case these convicts are beyond the limits of the pentientiary in violation of the law and it becomes the duty of the present board to have them return to the walls of the penitentiary or property exclusively under the control of the authorities of the penitentiary such as the farms. It is clear that the action of the previous board is not final in the matter, nor

hinding upon you. Section 573 of the "criminal statutes" directs "no convicts shall be hired out, as provided in the foregoing section, unless such convicts shall be and remain under sworn officer and guards appointed by the superintendent of the penitentiary . . such officer and guards to be responsible to the superintendent of the penitentiary and to hold their of fice subject to removal by the superintendent; * * * The superintendent and directors of the penitentiary shall prescribe the rules and regulations to be observed by said officer and guarus in all cases;" and art. xii, sec. 9 of the constitution of 1895 reads as follows: "The peniten ary and the convicts therein sentenced shall forever be un der the supervision and control of of-ficers, employed by the State, and in case any convicts are hired or farmed out, as may be provided by law, their maintenance, support, medical attendance and discipline shall be under the direction of officers detailed for these duties by the authorities of the penitentiary." If the requirements of the statute law and the constitution have been respected by the present and preceding boards then these convicts are directly under the control of officers and guards appointed by he superintendent which officers and guarus are subject to your orders, and in epinion, it is your duty to order these to return to the penitentiary the convicts who are serving sentences for any of the crimes mentioned in section

565 of the criminal statutes. While one convicted and duly sentenced by law is deprived of his liberty to a certain extent, he still has certain rights under the law, and among these rights is the one to be punished only as prescribed by the law in force at the time of his conviction and sentence, and the hiring out of a person sentenced to imprisonment in the pen-Loutlary for the crimes of rape, arson and manslaughter" is violation of the law and (it may be) in derogation of the rights of the conricts so hired out.

Very truly yours, G. DUNCAN BELLINGER. Attorney General.

Verdict Set Aside. Anderson, Special.-The court of common pleas which recently adjourned tried several cases of interest. The case of Harris against the Anderson county was an action for \$2,000 damages provided for by recent legislation in cases of lyaching. It seems that Elbert Harris, a negro, was arrested on the charge of arson some time last year and was taken from the officers and severely beaten, dying from the effects of the beating. As in Orangeburg case, the jury found for the county, and his honor Judge Alirich set aside the verdict an. granted new trial. In justice to the jury, however, it must be said in some points the case of the plaintiff was not made very strong in the evidence.

Mr. Harris will own nice slice of the stock in the compan, that has purchased the spring.

Attempts to Burn Mill.

Rock Hill, Special.-A small fire cesurred at 5 o'clock Saturday morning at the Southern cotton platform and also it 50 bales belonging to Springs, Mason & Co. were burned. Our new water works proved their efficiency and put out the blaze in 10 minutes after was discovered. Loss about \$3,000. It now appears that there were four distinct attempts to burn cotton here Saturday morning. At 1 o'clock there was a blaze in a row of Friedheim Bros.' cotton in rear of Hand Bros.' restaurant. Mr. Hand and others extingwished it with a bucket of water 5 o'clock the 50 bales at the Souli ern platform were burned. Hour later Mr. Campbell, of the South Carolina and Georgia office found a bale of pickings on fire upon his company's patform. While at work upon that the alarm, was sounded from A. Friedheim & Bros', platform in year of their store. All of these sinall blazes were subdued without any trouble and witho ut allowing a spread. It was very apparently an incendiary attempt.
