

CATARH THIRTY YEARS.

The Remarkable Experience of a Prominent Statesman-Congressman Meekison Gives Peru-ru a High Endorsement.

Congress Meekison of Ohio.

Ten David Meekison is well known not only in his own State but throughout America. He was elected to the Fifty-fifth Congress by a very large majority, and is the acknowledged leader of his party in his section of the State.

Only one flaw marred the otherwise complete success of this rising Congressman, a cataract, with its insidious approach and tenacious grasp, was his only unaccomplished feat. For thirty years this painful and dangerous warfare against this personal enemy. At last Peru-ru came to the rescue. He writes:

"I have used several bottles of Peru-ru and I feel greatly benefited thereby from my cataract of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison, Member of Congress.

If you do not desire prompt and satisfactory results from the use of Peru-ru write at once to Dr. Hartman, Superintendent of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Foundation, Columbus, Ohio.

News of the Day.

Ill in New York.—The wife of Walter New York, the hotelkeeper, who is indicted by the grand jury for illegal liquor selling, they have just made an agreement to close their hotels until May, thus leaving the town without a hotel open to the public. The proprietors say they cannot run a hotel without a license.

S. A. Ransom, acting assistant surgeon of the United States marine hospital service, has recently reported the results of his experiments in San Francisco in estimating the length of time required for the destruction of vessels with 5 per cent sulphur dioxide. He concludes that twelve hours' exposure is sufficient.

An exchange said that the highest tribute ever paid to Kentucky market manhood was the remark of Judge Parker, of the Lexington Circuit Court, who said: "If every spot where a man has fallen by the hands of violence in this city were marked by a cross Lexington would resemble a city of the dead as much as a cemetery as a town."

There have been ninety-six policemen retired on pensions thus far this year in New York. They will draw in pension more than \$7,000 every year. Since the pension system was established, in 1872, the expenditure on this account has increased from \$250,985 to \$936,858, of which the amounts paid in by the police themselves have increased from \$75,977 to \$414,529.

Long Hair

"About a year ago my hair was coming out very fast, so I bought a bottle of Ayer's Hair Vigor. It stopped the falling and made my hair grow very rapidly, until now it is 4 1/2 inches in length."—Mrs. A. Boydston, Atchison, Kans.

There's another hunger than that of the stomach. Hungry hair needs food, needs hair vigor—Ayer's. This is why we say that Ayer's Hair Vigor always restores color, and makes the hair grow long and heavy. \$1.00 a bottle. All druggists.

I am very much perplexed to know what to do for the country boys and girls. Of course they can get a little schooling under the present system, but that will be only in textbooks of reading, writing and arithmetic. What they need is books of reference that will answer their many questions. Every mail brings me letters wanting to know things that they cannot learn in their country schools. Their teachers cannot tell them nor their neighbors. Of course not more than half of them care about knowing anything outside of their school books, but the other half do, and on that half depends the culture and progress of our country. Why should these boys and girls have to ask me and Joel Chandler Harris and John Temple Graves and others so many questions? When they inquire a stamp I answer all I can, but these young people need books that they can refer to. If Mr. Carnegie would place in every country school a standard encyclopedia, such as Appleton's sixteen volumes of universal knowledge or Dodd, Meade & Co.'s International of sixteen volumes, the young people would have a library that would answer all their questions.

And if you do not desire prompt and satisfactory results from the use of Peru-ru write at once to Dr. Hartman, Superintendent of your case and he will be pleased to give you his valuable advice gratis.

RAM'S HORN BLASTS.

THE genius of the church depends on a genius.

Heavenly manna is better than earth's manna.

Foes without are less to be feared when he bids that faults within.

Watch out for the "Good-bys."

Men are valued by others in proportion to the increase of their own valuation.

To take the fruit of just bliss the hearts must be invited to consume the life.

The stars of faith will shine long after the dust of fame has disappeared.

It is on the things the heart has but on the things the things.

The first thing some people do when troubles fly into their lives is to clip their wings.

Almost every fool thinks that he is bright enough to throw dust in the eyes of the Divine.

Talk about "looking for opportunities of doing good." We may as well talk about looking for fire-wood in a forest or for water during a flood. The world is full of such opportunities.

Old truths are too great a price to pay for new doubts.

The temperature of the heart cannot be gauged by the head.

Selfishness is the cause of sin and suffering service its cure.

Some people make a great show of fleeing from the roaring lion that will not see the secret serpents they carry in their pockets.

Too Many Cocoanuts.

Mobile, Ala. Special.—There is a great glut of the cocoanut market, caused by unprecedented arrivals here. There are at present housed and on boats 7,500,000 cocoanuts and 1,000,000 more vessels are due, that will add 800,000 to the number. The railroads are congested and cannot make an impression on the stock. There has been a material slump in prices.

Davidson Wins.

Atlanta, Special.—Davidson won from the Georgia Techs here Thursday afternoon by a score of 7 to 6. The Techs made a touch-down in the first half on a double pass and a 40-yard run by Brinson. In the second half, Davidson made two points. McLeod, Davidson's full back, was the star of the game.

Remarkable Photography.

One of the most charming happenings ever photographed by natural history camerist, is the birth of a butterfly. Mr. Fred Enock was the photographer. He depicts the whole event from the stage when the larva has slung itself by a silken girdle to a twig until the butterfly, fully developed, is poised on a leaf about to make the first trial of its wings. Mr. Enock notes that in seven minutes from the time that the chrysalis first split the butterfly was fully developed, and from the moment that the skin opened until the newborn beauty was poised on the empty shell it emerged so quickly that exposures of a hundredth of a second only were given.

Mr. Balfour's Sleep and Speeches.

Mr. Balfour sleeps at least twelve hours a day—sometimes longer. He does not prepare his speeches word for word, as Sir William Harcourt, or dictate them to a shorthand writer, like Disraeli, but "thinks them out while in bed" and notes the principal headings on a sheet of folded foolscap, which he holds in his right hand while speaking and slaps against his left when he wants to emphasize a point. He seldom pauses to find a word, but when he requires time to think of the next argument he sips from a glass of water.—London King.

Great-Grandnephew of Washington.

George Washington, a great-grandnephew of the immortal president, was a witness in a New York city court a few days ago. His great-grandfather, William Washington, was the general's brother, but being a Tory left this country for England during the war of the Revolution. Later he settled in Belgium. The twentieth century George does not care for the reflected glory that comes with his name, though an one has greater veneration than he for the man who was first in the hearts of his countrymen.

Odds and Ends.

The day of the lightning rod is passing. The Government's latest census returns show that Franklin's invention for protecting the house is little used today. No electrical manufacturer's advertisement reports it among the products and so far as the census expert has been able to learn only one American electrical engineering firm makes a business of setting up the rods of designing them. So far as large cities are concerned disastrous lightning strokes are reported to be more rare and the decrease is accounted for by the network of electrically charged wires and other apparatus with which the city is now interwoven and surrounded.

The Union Bleaching and Finishing Company, a New Jersey corporation, backed by New York capitalists, will build a large bleaching and finishing plant in Greenville, J. B. Duncan, formerly of the Willoughby Bleachery, Utica, N. Y., is president. The authorized capital of the company is \$2,500,000. The plant in Greenville will cost a quarter of a million dollars.

It has been announced by George H. Sheldon, the manager of the syndicate which will take over certain loans of the Trust Company of the Republic, made in connection with the financing of the United States Ship Building Company, that the syndicate had been successfully formed. The full amount of the subscriptions to the new syndicate exceeds by \$1,500,000 the preliminary estimate of \$1,000,000.

A man named Rhodes is in the Wallunda jail charged with bigamy. He married a daughter of Dr. Brown of Seneca one day last week, having eloped with her into the State of Georgia. He is said to have a wife and several children.
