Fish Act as Surgeons.

"Along the Caribbean Sea," said an artist who has recently returned from those parts, "it is a common thing to see men and women and children sitting on the banks of streams, with their bare legs soaking in the water.

"They have a strange reason for this strange conduct. They are much troubled by a little insects kind of tick—which buries itself in their flesh, and is very hard to dislodge; and so, when the ticks have gotten in them, they go to the water bury the infested parts beneath the surface and keep quite still. The fish have a fondness for ticks, and they hasten to the gleaming human flesh they see, and pulling the ticks out, devour them.

"In that manner the Caribs fish are called upon to act as surgeons. Efficient and painless surgeons they make too."—Philadelphia Record.

As You Like It.

"Reckon we'll have good weather for Christ'mas?"

"Don't care of we don't. We wos ingrinully so full den dat all weather look alike ter us!"

THE PUZZLED BROTHER.

I pray de Lawd wid all my might,
'Fo' Chris'mus time pass 'way,
But ole Br'er 'Possum out er sight,
En Turkey roos' too high!

Oh, believers,
What you gwine ter do
W'en ole Br'er 'Possum gittin' wise,
En Turkey know you, too?

I tell Br'er 'Possum: "I yo' fr'en!"
He laugh, en wink his eye;
Br'er Turkey 'low he des can't sleep
Onless he roostin' high!

Oh, believers,
What you gwine ter do
W'en ole Br'er 'Possum gittin' wise,
En Turkey know you, too?

THAT WORRIED LOOK.

"Marse Jim's got a mighty worried look dis holiday weather."

"What you reckon make it?"

"Well, de po' man's so sober dat hit's painful ter 'im!"

No man becomes wise until he has often called himself a fool.

Monterey Mexico, is to have an electric railroad system shortly, work having begun for an expenditure of $3,000,000.

PROMINENT PEOPLE.

John D. Rockefeller gave away over $50,000,000 last year.

Andrew Carnegie's gifts of public libraries are on the decline.

General Miles will visit the European capitals before returning to the United States.

In consequence of the recent attempt upon his life King Leopold of Belgium has resolved not to ride in his motor car in the future, and has ordered it sold.

The Rev. Thomas H. Lewis has the unanimous election of being president of four colleges at one time: the Western Maryland and the Adrian of Adrian, Mich.

Samuel Burwell, of West Union, O., the oldest editor in the State, has retired from active work at the age of ninety years, having been in the harness for half a century.

Professor Morichini, of Naples University, who holds the position of physician to Queen Helena of Italy, is both in stature and proportions the most diminutive doctor in the world.

Emperor William intends to include in the annual session to bring his gift of a statue of Frederick the Great to America, descendants of German officers who fought under Washington.

The Secretary of Sandusky, Ohio, who is writing Colonel Ives' biography, is a negro principle and has worked as a slave, with the fugitive people who escaped to the United States to study their history.

The Pope is an enthusiastic pilgrim and the princess of Colonna are planning to present to him on the occasion of his silver papal jubilation, a unique collection of obsolete stamps of Persia and Cashmere.

When Dr. Lorenz was in Baltimore and as he was about to take his carriage in front of his hotel, a well known citizen and admirer took his gold watch from his fob and slipped it into his hand, telling him to keep it as a token of his admiration.

Mine Superintendent Killed.

Mocksville, Special.—George H. Trumble, aged about 35 years, lost his life in a gold mine at 2 15 o'clock Thursday afternoon. Mr. Trumble came here from Milwaukee, Wis., several months ago and had the management of a gold mine about 15 miles west of Mocksville located in Yadkin county, near the Davie and Yadkin line. The accident was caused by some hoisting machinery overturning, pinning Mr. Trumble underneath, death resulting instantly.

Had to Be Supported

Augusta, Ga., Special.—Solomon Dunn, colored, was hanged here Friday for the murder of a young white man named William Springs. Dunn was so nervous and frightened upon the scaffold that he had to be held up until the trap was sprung. His neck was broken. Springs was a bartender and the negro shot him because he refused to sell him a drink, about a year ago.

Origin of "The Finnan Haddie."

Many years ago at a seaport town on the North Sea, Port Lethen, a fire occurred in one of the fish-curing houses, and partially burned the end of the structure, which was piled full of lightly salted, freshly caught haddock, which were lying on beds of dry kelp.

After the flames were extinguished and the charred top and side of one of the piles of fish were removed, the Minister pulled out one of the slightly smoked haddock, still warm from the heat. He smelt it, while the curious group of men around him watched his every move. He tore off a piece of the fish, and, and tasting it, took another bit, saucily nodded his head, and passed it over to the foreman, Sandy, saying: "Taste you it, Candy! It is nae so nasty."

This proved to be a great day in Port Lethen, for every fisherman in the town had a haddie given him free of cost that had been cured by the smoke from the burning kelp; and from that time until the present no one in Port Lethen or the greater fishing village a mile away, Findon, ever cured a haddock except by smoking them over the burning seaweed.

The cleverness of the Findon fishdealers in being the first to put this new cured haddie on the market won for them the glory of the trade named "Findon Haddie," which was abbreviated later on into "Finnan Haddie."

Science in Business.

In a recent issue of the Journal of the British Society of Arts some striking examples of the effect of the use of science in German factories are given. In 1840 154,000 tons of beet root were crushed, from which 8,600 tons of raw sugar were produced—about 5 1-2 per cent. In 1860 1,500,600 tons were treated, and produced 128,000 tons of sugar—8 per cent. Last year 12,000,000 tons were crushed and yielded 1,500,000 tons of raw sugar 13 per cent. This increase of quantity, as well as percentage of product is due entirely to scientific treatment. The production of dry colors, chemicals and dyes in Germany shows a corresponding increase in production and dividend-paying capacity, which is due to the constant maintenance of laboratories or trained scientists, whose only purpose is to improve and cheapen processes.

New York Women's Clubs.

The New York Ladies' Club, now Bohemian, was the most exclusive in the metropolis. Its initiation fee was but $20, and the annual dues amounted to $30. It costs $25 to join Sorosis, while something like $33 will pay the dues and for the various breakfasts and dinners, says Ainslee's Magazine. You can become a patroness of a fashionable hospital or a life member of almost any old thing for $100. At the newly quartered Women's Club in New York, dining and writing rooms, dressing rooms and attendant maids, sleeping rooms, where for $1 you may put up for the night, lockers, where a change of clothing may be kept, telephone, telegraph and messenger service, Turkish and Russian baths, with a trained nurse—all these are obtainable with annual dues of but $15.

Lavender Leaves.

The waving corn was green and gold,
The mornsk roses blew;
The lilacs and lilies sprung; wheel
Kept on a drowsy droon.
When Phebe Standish, folding down
Her linen, white as snow,
Between it laid the lavender,
The summer long ago.

The slender spikes of grayish green,
Still moist with morning dew,
Recalled a garden sweet with box
Beyond the ocean's blue;
An English garden, quaint and old,
She nevermore might know;
And so she dropped a homesick tear
That summer long ago.

The yellow sheets grew worn and thin,
And fell in many a shred;
Some went to bind the soldiers' wounds,
And some to shroud the dead;
And Mistress Standish rests her soul
Where graves their shadows throw,
And violets blossom, planted there
In summers long ago.

But still between the royal rose
And lady lily tall
Springs up the modest lavender
Beside the cottage wall.
The sweet spreads her gossamer
Across it to and fro
The ghost of linen laid to bleach
One summer long ago.

—New England Magazine.

Gladys—He said he would die if I refused him.

Edith—And still you refused him

Gladys—Oh, yes! I think he will live long enough to propose again.—Puck.

Chew Tons of Gum.

Cleveland claims to be the headquarters of gum chewing and chewing gum, says The Chicago Record-Herald. It is asserted that more gum is manufactured in that city than any other, difference in population for being considered, and the two greatest manufacturers of chewing gum are numbered among the merchant princes. They find it difficult to spend their incomes. But Chicago can claim the second place, and the best judges estimate that our people use about a ton of gum a day—that is, 2,000 boxes containing 200,000 pieces and costing $2,000. That is a very small expenditure for the amount of pleasure and good that is derived from the habit; for, while gum chewing may not be refined or elegant, it is considered very healthful. It aids digestion, prevents dyspepsia, cures insomnia, concentrates the mind, and promotes meditation.

Nibsy Murphy—If I didn't me mudder'd wash it.—Judge.

TALE OF A BASHFUL MONKEY.

Simian at Philadelphia Will Only Chum with a Cat.

The Zoo has a bashful monkey. The keepers call him "Bashful Willie. He was born in the Garden one year ago, and is the son of the large Japanese monkey, whose destructive proclivities have earned for her the sobriquet "Carrie Nation."

Carrie was with Willie in a separate cage until he was four months old. He was then placed in the large cage with the other monkeys, but he was found to be too bashful to live in their company. He kept on bowing right and left, but was too timid to eat or even drink in the presence of others.

A special cage was placed in Keeper McCrossan's office, and there in solitude Bashful Willie is thriving. The only company he enjoys is Snake Keeper Hess' white cat, which has become famous for having one blue and yellow eye. The cat pays regular visits to Willie and allows him to pull her tail through the bar.

A few days ago Willie had a cough, and it was thought advisable to bring the mother to him, but even Carrie was repulsed by Willie, who screamed loud and buried his head in a corner.—Philadelphia Ledger.

He Kept Cool.

One of the pluckiest things I have ever witnessed, says a traveler, happened when I was staying for the night at a country inn. I was on a cycling tour at the time, and I had just put up my machine when a man on horseback galloped up to the inn door. The horse was a splendid animal, young and spirited, but its rider managed it with the most perfect ease. On dismounting he asked that his steed might be turned out to pasture—a request which was granted.

In the morning as I was about to recommence my journey I overheard the horseman inform the landlord that he could go and catch his horse himself, as it was difficult for a stranger to approach him.

"No, no," said the landlord, pointing to the meadow. "D'ye see that bull?"

We both turned and saw a red-eyed, savage-looking bull regarding us from over the hedge. Not far away from him the horse was placidly feeding.

"He looks nasty," said the stranger. "Nevertheless, I'm going to fetch my horse. I should also advise your bull to keep his distance."

We both had of it then. There was something in his cool assurance that was very taking.

HEALTHY WOMEN

Praise Pe-ru-na as a Cure for Colds and a Preventive of Catarrh.

MRS. M. J. BRINK

MISS. SARA McGAHAN.

FIRST STAGE OF CATARRH.

A Serious Mistake Which Thousands Are Making.

The first stage of catarrh is what is commonly known as "catching cold." It may be in the head, nose, throat or lungs. Its beginning is sometimes so severe as to cause a chill and considerable fever, or it may be so slight as to not hinder a person from his usual business. In perhaps a majority of cases little or no attention is paid to the first stage of catarrh, and hence it is that nearly one-half of the people have chronic catarrh in some form.

To argue that a cold is to invite chronic catarrh. As soon as any one discovers the first symptoms of catching cold he should at once begin the use of Peruna according to directions on the bottle, and the cold is sure to pass away without leaving any bad effects.

Unless this is done the cold is almost sure to end in the second stage of catarrh, which is making so many lives miserable. If Peruna was taken every time one has a cold or cough, chronic catarrh would be practically an unknown disease.

Miss Elizabeth Uber, No. 57 Bassett street, Albany, N. Y., writes:

"I have always dreaded unsettled weather because of my extreme liability to catch cold, when a catarrhal trouble would quickly develop through my entire system, which it would take weeks to drive away. I am thankful to say that since I have taken PE-RU-NA I do not have any reason to dread this any more. If I have been at all exposed to the damp, wet or cold weather, I take a dose or two of PE-RU-NA, and it throws out any hint of sickness from my system."—Miss Elizabeth Uber.

Mrs. M. J. Brink, No. 820 Michigan avenue, St. Joseph, Mich., writes:

"This past winter during the wet and cold weather I caught a sudden and severe cold, which developed a catarrhal condition through my entire system, and so affected my general health that I was completely broken down, and became nervous and hysterical and unfit to supervise my home. My physician prescribed for me, but somehow his medicine did me no good. Reading of PERUNA I decided to try it. After I had taken but three bottles I found myself in fine health."—Mrs. M. J. Brink.

Sibyl A. Hadley, 26 Main street, Huntington, Ind., writes: "Last winter after getting my feet wet I began to cough, which gradually grew worse until my throat was sore and raw. Ordinary remedies did not help me and cough remedies nauseated me. Reading an advertisement of what PERUNA could do, I decided to try a bottle, and you can imagine how glad I felt when it began to relieve me in a very short time. In less than two weeks I was completely cured."—Sibyl A. Hadley.

Miss Sarah McGahan, No. 197 3d street, Albany, N. Y., writes:

"A few months ago I suffered with a severe attack of influenza, which nothing seemed to relieve. My hearing became bad, my eyes became irritated and feverish. Nothing seemed right and nothing I ate tasted good. I took PERUNA and within two weeks I was perfectly well."—Sarah McGahan.

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be glad to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Why Syrup of Figs is the best family laxative

It is pure.

It is gentle.

It is pleasant.

It is efficacious.

It is not expensive.

It is good for children.

It is excellent for ladies.

It is convenient for business men

It is perfectly safe under all circumstances.

It is used by millions of families the world over.

It stands highest, as a laxative, with physicians.

If you use it you have the best laxative the world produces.

Because

Its component parts are all wholesome.
It acts gently without unpleasant after-effects.
It is wholly free from objectionable substances.

It contains the laxative principles of plants.
It contains the carminative principles of plants.
It contains wholesome aromatic liquids which are agreeable and refreshing to the taste.

All are pure.
All are delicately blended.
All are skillfully and scientifically compounded.

Its value is due to our method of manufacture and to the orginality and simplicity of the combination.

To get its beneficial effects—buy the genuine.
