

STATE OF OHIO, CITY OF TOLEDO, Lucas County.  
FRANK J. CHERNEY makes oath that he is a color partner of the firm of F. J. CHERNEY & CO., doing business in the City of Toledo, Ohio, and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE. FRANK J. CHERNEY.  
Sworn to before me and subscribed in my presence, this 6th day of December, 1913.  
A. D., 1913. A. W. GLEASON, Notary Public.  
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Sold for ten cents a bottle. F. J. CHERNEY & CO., Toledo, O. Sold by all Druggists, 7c.  
Hall's Family Pills are the best.

Some People.  
There are some people whose use in the world it would be as hard to define as the uses of pieces of parsley draped around meat on the table.—*Atchison Globe.*

Pay-Day Friends.  
A man has a lot more friends on his pay day than he has on others.—*New York Press.*

PTB's permanently cured. No other nervous affections after the use of Dr. Kline's Great Nerve Restorer. Effort bottles and bottles of Dr. B. H. KLINE, Ltd., 931 Arch St., Phila., Pa.

Some fellows can no more keep out of debt than other fellows can help falling in love.

Mrs. Winslow's Soothing Syrup for children's teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. A bottle the undertaker.

Janssore's Cure for Consumption saved my life three years ago.—Mrs. Thomas H. Janssore, Maple St., Norwalk, N. Y., Feb. 17, 1913.

All things may be born equal, but only a few get to the top.

The Bobbitt Chemical Co., Baltimore, Md., manufactures TRICACIC, which is said to possess unusual merit, and makes permanent cures of that dread disease, rheumatism, which is a very common, painful and dangerous disease. The sale of this remedy is increasing at a rapid rate, which fact is excellent evidence of its intrinsic worth.

A High Grade School for Boys.  
Pupils from Michigan to Texas have already been enrolled for the coming season at the Fishburne Military School, Waynesboro, Va. Persons interested in the school question would do well to send for a catalogue of this high grade school for boys.

### Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too. \$1.00 a bottle. All druggists.

If your druggist cannot supply you send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office to J. C. AYER CO., Lowell, Mass.

### FREE TO WOMEN

A Large Trial Package of

### DAVENE TOILET ANTISEPTIC

A NEW SPECIALTY FOR WOMEN.  
Internal cleanliness is the key to woman's health and vigor. Inflammation, soreness, pruritus, Catarrh cannot exist without it.  
Fragrant and a vaginal douche is a revelation in combined cleansing and healing power. It kills all disease germs. Heals inflammation and cures all discharges. Never fails to cure Nasal Catarrh. Cures offensive perspiration of arm pits and feet. Cures Sore Throat, Sore Mouth and Sore Eyes. As a tooth powder nothing equals it. Removes Tartar, Hardens the gums and whitens the teeth, makes bad breath sweet and agreeable. Thousands of letters from women prove that it is the greatest cure for Leucorrhoea ever discovered. We have yet to hear of the first case it failed to cure.  
To prove all this we will mail a trial package with book of instructions absolutely free. This is not a tiny sample, but enough to convince anyone. At druggists or sent by post paid by us, 50c per box. Satisfaction guaranteed. The E. Paxton Co., Dept. 5, Boston, Mass.

### RIPANS TABLETS

Ripans Tablets are the best dyspepsia medicine ever made. A hundred millions of them have been sold in the United States in a single year. Every illness arising from a disordered stomach is relieved or cured by their use. So common is it that disordered stomach from the stomach it may be safely asserted there is no condition of ill health that will not be benefited or cured by the occasional use of Ripans Tablets. Physicians know them and speak highly of them. All druggists sell them. The five-cent package is enough for an ordinary occasion, and the Family Bottle, sixty cents, contains a household supply for a year. One generally gives relief within twenty minutes.

### CAPUDINE CURES COLDS and FEVERISH CONDITIONS.

10 25 and 50 cents, at Druggists.

### ESAW MILLS

Our Latest Improved Circumferential Saw Mills, with Hogshead Universal Log Hoop, Reciprocating, Self-Adjusting, and the Best of the World. The VARIOUS FEED WORKS are now offered for ACCURACY, SIMPLICITY, DURABILITY and EASY OPERATION. Write for full particulars and prices to THE IRON WORKS, Winston-Salem, N.C.

## BILL ARP IS DEAD.

### The Southern Philosopher Rests From His Writings.

#### LIVED TO SERENE OLD AGE.

Cartersville, Ga., Special.—Major Charles H. Smith, widely known by the people as "Bill" ARP, died at his home, "The Shadows," late Monday evening, after an illness of many months, which within the past three weeks had become serious. Following an operation for the removal of gall stones, several days ago, he became gradually weaker, most of the time unconscious, until the end. Of his family, his wife, four daughters and two sons were at his side. The four other sons, two in Texas, one in Mexico, and Carl Smith, of New York City, have been summoned by telegraph. The funeral will be held Wednesday morning. Major Smith was born at Lawrenceville, Ga., June 15, 1826.

#### Disquieting Rumors.

Sofia, By Cable.—With the rumors of massacres and the murder of prisoners in Monastir now authenticated, the general situation is considered here as fast becoming intolerable. Official and diplomatic circles alike are concerned, having every reason to fear that only a part of the horrors enacted in the interior of Macedonia have come to light as yet. The revolutionary committees are doing their utmost to force the hands of the Bulgarian government and the immediate outlook is exceedingly serious.

It appears that the Turks have obtained the upper hand in the village of Monastir and the insurgents are planning to move the centre of their activity close to the Bulgarian frontier. Dispatches arriving today from the disturbed area are exceedingly gloomy. From Adrianople comes the news of the revolutionary outbreak from Monastir, the news of Turkish victories is accompanied by barbarous excesses.

While many of the reports remain without confirmation, sufficient authentic details are forthcoming to cause the authorities the greatest anxiety. According to the Sofia D'Neurick the Turks committed unspeakable atrocities at Krushievo. The mutilated corpses of 90 women and children were found in one building; pieces of the bodies had been thrown into the street. Fifteen of the principal merchants of the town were killed and their heads exhibited on poles.

A Monastir church was demolished, the houses sacked and the town is now in a heap of ashes. The populace fled to the hills, where they are in a starving condition. The D'Neurick also asserts that a general massacre has taken place in the whole vilayet of Monastir. Nearly all of the villages have been destroyed. The treacherous murder of 80 insurgent prisoners by their guards near Monastir has made an especially bad impression here.

Many rumors are current of massacres in the city of Adrianople, but confirmation is lacking. The situation there, however, undoubtedly is serious. The population is afraid to leave the houses. The prisons are full. When the Russian consul protested at the situation, the Vail is reported to have answered that he was powerless against the rampant population.

#### Fires at El Paso.

El Paso, Tex., Special.—Five fires have broken out within the past 24 hours, and suspicion of incendiarism has been confirmed. Fires have been started in the residence of William Crawford, in the Texas Pacific station and in other places, but watchfulness and prompt action made the losses trivial. Great anxiety exists and the police force has been increased.

#### Cost of Car Strike.

Richmond, Va., Special.—The strike of street railway employees here was officially declared off shortly after noon Monday. It had lasted just 63 days, and is estimated to have cost the street car company \$150,000, the strikers in loss of wages \$50,000. The State, by reason of the necessity for troops to maintain order, \$75,000 and the city for special police, etc., \$5,000. One man was shot and killed by soldiers during the progress of the trouble, and one motorman was fatally stabbed by another, while scores of persons have been more or less seriously injured in various ways as a result of the disturbance.

#### Steamer Affre.

Tampa, Fla., Special.—The steamer Manatee, of the Independent Line, plying between Tampa and St. Petersburg, and Manatee river points was badly damaged by fire which was discovered in the engine room at 9:30 Monday night. The steamer was well loaded with outgoing freight. The fire department turned out in full force. Three streams were played on the burning vessel, which was kept from drifting, thus saving the other shipping in the harbor and the docks.

#### Killed Prominent Plan.

Punta Gorda, Fla., Special.—Sunday morning at 3 o'clock E. B. Williams was shot and killed by E. B. Polk. Both were prominent men. Deputy Marshal Nick Langford attempted to arrest Marion J. Walker, who was intoxicated and resisted arrest. E. B. Williams, who was assisting the deputy marshal, struck Walker with a club, when Polk, who was with Walker, shot him through the right breast. Polk was arrested and locked up in jail.

## THE PRESIDENT'S OPINION.

### Strikes in Government Bldg. Discussed by Mr. Roosevelt.

Oyster Bay, Special.—President Roosevelt has made applicable to all departments of the government service the principle he enunciated at the time he re-instated Wm. A. Miller to the position in the Government Printing Office from which Miller had been dismissed because of a disagreement with the bookbinder's union. The President has plainly stated to the members of his cabinet that the principle is to "indicate the policy of the President" in similar cases.

Thursday night the President authorized the publication of a letter, which was sent to each member of his cabinet on the 22nd of July. The letter was signed by Mr. Barnes, acting secretary to the President, and is as follows:

"My Dear Sir: The President regrets that he is unable to send you herewith your information, copies of two letters sent to Secretary Cortelyou with reference to the Government Printing Office which define the attitude of the administration in connection with the subject discussed. They are sent you for your information and guidance, as they indicate the policy of the President in this matter."

The letter to Secretary Cortelyou was written on the 13th and 14th. The salient sentence of the first letter is: "There is no objection to the employment of the Government Printing Office constituting themselves into a union, if they so desire, but no rules or resolutions of that union can be permitted to override the laws of the United States, which it is my sworn duty to enforce."

In the letter of the 14th, the President quoted the finding of the Anthracite Strike Commission regarding the employment of labor as follows: "It is adjudged and awarded that no person shall be refused employment, or in any way discriminated against on account of membership or non-membership in any labor organization, and that there shall be no discrimination against or interference with any employee who is not a member of any labor organization."

#### The South Leads.

Washington, Special.—The Census Bureau has published a bulletin in discussion of the increase of population in the United States as shown by the census of 1900. The principal results of the study of these figures are summarized as follows:

The increase in the population of continental United States and the United States exclusive of Alaska and the recent insular possessions, was 13,046,961, or 20.7 per cent. Only one country, Argentina, has shown by the most recent figures a more rapid growth.

The present rate of growth in continental United States is estimated as double the average rate of Europe. In the decade 1890 to 1900 the first time in our national history, the Southern States increased faster than the Northern. East of the Mississippi, however, the Middle West and the group here grown in the late ten years somewhat more rapidly than the Southern, but west of that river to the Southern States have increased almost two and one-half times as rapidly as the Northern, and it is this fact which makes the growth of the South as a whole exceed that of the North.

The region west of the Mississippi river is still increasing faster than that east of it. The rates of increase in the North and South during the last 20 years were practically the same. But in the character of the growth in the two regions differ widely, there being a relatively uniform growth over the whole South, equalized by a balance in the North between a lower rate of rural growth and a higher rate of urban growth. The most noteworthy result of the entire discussion is that there is the cumulative evidence of the approach to equality in the rates of increase of various parts of the United States. This appears whether North be compared with South, East with West, or city with country.

#### He Did Not Remember.

When Emperor William of Germany was staying with Lord Lansdale, a fellow guest, talking to another across the table, quoted a line from Shakespeare, adding the words "as the divine William said." The Emperor heard the quotation, and, turning to his host, said, with a puzzled look: "Curiously enough, I do not remember that my sainted grandfather ever said that."

#### Fireman Killed.

Spartanburg, S. C., Special.—A special from Columbia says: J. R. Duncan, a fireman on the Southern Railway, was killed nine miles above this city Friday, on the train from Asheville, N. C. The body about the head was horribly mutilated, and death was instantaneous. Duncan was a son of Col. D. P. Duncan, secretary of the railroad commission. The dead man attended Wofford College here several years ago, and was well known in Spartanburg. He was a nephew of Bishop Duncan.

#### Southern Mill Merger.

Chicago, Special.—A dispatch to The Record-Herald from New Orleans says: "The organization of the Southern Textile Company, a combine of Southern cotton yarn mills, has been practically completed, and the mills will soon be taken over. This is the largest cotton mill merger that has ever taken place. The company, which is capitalized at \$14,000,000, will take over about 70 mills in North Carolina, Georgia, Mississippi, Alabama and Tennessee."

#### No Authority.

Montgomery, Ala., Special.—Judge Jones, in the United States Court issued an order giving W. R. Lyttle, who is wanted in Chicago on a charge of assault with intent to murder, into custody of T. S. Kebo, a Chicago detective. On an appeal of the defendant, the order was suspended and Lyttle was turned over to the United States marshal here. The court ruled that it had no authority to give Lyttle up on extradition, but permitted the question, "how early?" About 8 o'clock Sunday morning.

## SOUTHERN FARM NOTES.

### TOPICS OF INTEREST TO THE PLANTER, STOCKMAN AND TRUCK GROWER.

#### Strawberry Fields After Fruiting.

The most successful strawberry growers plow up their fields as soon as the berries are all gathered and sow them in cow peas, thus putting the land in perfect till to rest in strawberries the following fall. The spring as may be most convenient. But the vast majority of growers gather two and sometimes three crops of berries from the same field.

How to do this successfully is the object of this article. Bar with by a turning plow the strawberry rows, leaving unturned a strip about a foot wide containing the plants. On this strip chop out the plants, leaving them about eighteen inches apart. Always leave young (one year old) plants instead of old ones when possible. In this chopping out also kill weeds and grass. A week or ten days later sow cotton meal seed at the rate of 500 to 1000 pounds an acre in the furrow left on each side of the row. Then split out the middles, throwing the earth closely around the plants but not on them, or they will be smothered.

Whenever practicable, though with a large acreage it is not usually practicable, it pays to burn off the field or bed before carrying off. To do this now the foliage of the plants as closely as possible. Then loosen up the straw used as a mulch and on a dry breezy day after the mowed foliage has got dry, set fire to the field along the border to windward. If there is a fair quantity of foliage or mulch, the field will burn as a floor. Weeds, seed and any insect pest that chances to be present will meet their judgment day, and to a novice the strawberry plants will seem to have done so too. But seemingly will be all in a week, or earlier if it rains. In the fire-blackened, Sahara-like field, a magic transformation will take place. Every strawberry plant will have put leaves of the most vivid and beautiful growth. They can then be barred off, chopped out, fertilized and treated just as above directed.

Subsequent cultivation should be the same for young fields—shallow plowing with a small tooth cultivator and shallow hand hoeing frequent enough to kill all grass and weeds before they come, and to keep the crust on the soil broken. This is all important, as in a dry time it greatly lessens evaporation and minimizes the effect of draught.—O. W. B. in the Southern Fruit Grower.

#### A Swarm Catcher.

I have tested quite a number of swarm catchers, but have found none to give such thorough satisfaction as this simple device which any bee keeper can make. Find a suitable stick and remove the bark; make a ring about twenty inches in diameter out of stout wire, telegraph wire is about right. Next take a piece of burp and sew into bag shape; then sew the wire ring into the mouth of the bag and fasten

it into the crooked sticks so it will swivel and the device is ready for use. It is well to have on hand one or two poles of different lengths and two short straps, with which to unite them. This device will reach a swarm thirty feet from the ground. It is light and no matter what angle the pole is held the bag is always perpendicular. To have a swarm whose queen is at large with the bees, bring the swarm catcher right up under the cluster and give it a sharp jerk upward and the cluster will drop from the lightning into the mouth of the catcher. Carry to the hive and invert the bag, or rather turn it inside out, and the bees will drop in front of the hive and run into it and the living is done.—F. G. Heuman, in The Epitomist.

#### Ideal Ration For Young Pigs.

The fastest growth of young pigs can be secured by allowing them to run on alfalfa pasture supplemented with skim-milk and the addition of ration composed of one-third corn meal and two-thirds wheat middlings. Plenty of clean water convenient is also essential. Do not try to raise good pigs without a suitable alfalfa pasture. The young man who will stick to the raising of alfalfa and hogs will be indubitably rich within a comparatively few years.

#### Minor Mention.

Lack of shade need not hinder any one from giving a lawn party, for paper-covered lawn umbrellas, varying in size from four feet to twelve feet, may be purchased at prices ranging from seventy-five cents to three dollars and a half. Having double covers, these umbrellas not only furnish shade and help carry out the general scheme of the party, but they are so strong that they may be used any number of times.

#### News of the Day.

Houston, Tex., Special.—On the first ballot, John M. Pickney, of Waller county, was nominated for Congress by the Democratic convention for the eighth district of Texas. He will succeed T. H. Ball, resigned.

#### Texarkana, Ark., Special.—

At Goldonna, 39 miles east of here, a street duel occurred between J. N. Weaver and Walter Kennedy, in which both were shot to death. They were brakemen, and disputed over some matter connected with their work.

A pianist has to cultivate the eye so as to see fifteen hundred signs in one minute, the fingers to make two thousand movements, and the brain to understand all these signs, as well as direct "Moto Perpetuo."—A pianist has to read 4,541 notes in less than four minutes, or about 19 a second, but the eye can receive only about ten consecutive impressions a second. So that in quick music it seems that a player does not see every note singly, but in groups, probably a bar or more at one view.

The difference in the health of hogs pastured on alfalfa and those that have been kept in feed lots and fed grain and dry feed is well understood by every man in the business, and particularly so with regard to young pigs. Sucklings that have alfalfa-fed mothers are far more rugged and hearty than are those that trace their ancestry to the pigsty. Sows that forage on alfalfa raise lusty, hearty pigs that seldom fall victims to cholera, while the mothers, kept on other feeds and not-permitted the freedom of the alfalfa fields, are generally inclined to become over-heated and sickly. Then, too, our cool nights prevent that outness of fat and flabbiness of flesh so common to hogs in climates where warm nights prevail.—Field and Farm.

#### Wire Fencing Device.

I herewith send my device for taking up wire and moving wire fence. With this device four or five miles of wire can be taken up in a day. First take the bed of the wagon and couple it as short as you can. Then take two by four inch planks long enough to extend six inches beyond the front bolster to four feet beyond the rear bolster. Place three boards, one on the two by four over the front bolster and

one over the rear bolster and one under, and about one and a half feet from the hind bolster as shown at points D, E and F. Cut places for windlass to roll in, about eight inches from ends, at A and B; cut in about one and a half inches at G and H, to fit over hind bolster so it will not slip; add six inches from end cut W and X to fit over front bolster. Between D and E a box can be placed for tools. The windlass should be square and spools should be made to fit it, on which to roll the wire. Put leather straps over the end of the windlass at A and B to keep it from getting out of place. A slow team and a careful driver are required. It takes two men to do the work, one to turn the windlass and the other to drive over the laid out wire, one horse on each side. All farmers should have one of these rigs with which to move wire fences.—O. F. Stoltz, in The Epitomist.

#### Collard Greens For Poultry.

A reader at Powersville, Ga., asks if collard greens will prevent hens from laying. He says his hens do not lay. We have never tried this kind of green stuff for laying hens, but feel satisfied that it will not keep hens from laying. Hens will not eat too much of any kind of green food, and in the absence of something better we should not hesitate to feed collard.

The failure to lay is due to some other cause. Perhaps the hens themselves are at fault, perhaps the method of caring for them, or the food is at fault. It is often not so much what the hens are fed as how they are fed. Cats, wheat and corn in this order are the three best grain foods, but must be thrown in litter and the hens be made to scratch.

They must have grit, fresh water and oyster shells, and unless something is radically wrong with the hens, they should lay.

Georgia climate should be admirably suited for poultry, and a good flock of hens should lay the entire year.—Home and Farm.

#### A Few Points to Remember.

Cotton will be much benefited by continual shallow harrowings are continued until the bolls are fully grown and begin to open.

This is of doubtful utility in general. But when crops are late and the growth is rank, as it is apt to be, then if properly done it will greatly increase the crop of bolls and hasten the maturity. To do this at exactly the right time will require very close watching and good judgment.

In all these cases be sure to use the dustboards on all crops. The fertilizer will do good in proportion to the quantity of water. Evaporation carries off immense amounts of water. The dust prevents this and keeps the water just where it is needed.—Southern Cultivator.

#### Some Angora Advice.

Angoras are at their best when three years old and should then be sent to the butcher unless it is desirable to keep them longer for their fleeces. After this age they begin to grow coarse, both in fleece and fiber. No wether should be kept in the flock after it has passed its prime and done its best. Where a number of old wethers are kept in the shearing fold, the average fineness of the clip of mohair is necessarily lowered, and the longer they are run in the field, the lower goes the standard of the hair.—Stock Journal.

## BACKACHE. TYPEWRITERS CHEAP!

Backache is a forerunner and one of the most common symptoms of kidney trouble and womb displacement.

READ MISS BOLLMAN'S EXPERIENCE.  
"Some time ago I was in a very weak condition, my work made me nervous and my back ached frightfully all the time, and I had terrible headaches."  
"My mother got a bottle of Lydia E. Pinkham's Vegetable Compound for me, and it seemed to strengthen my back and help me at once, and I did not get so tired as before. I continued to take it, and it brought health and strength to me, and I want to thank you for the good it has done me."—Miss KATIE BOLLMAN, 142nd St. & Wales Ave., New York City. —\$6.00 for full trial of above letter proving genuineness cannot be produced.

Lydia E. Pinkham's Vegetable Compound cures because it is the greatest known remedy for kidney and womb troubles.

Every woman who is puzzled about her condition should write to Mrs. Pinkham at Lynn, Mass., and tell her all!

### Bilious? Dizzy? Headache? Pain back of your eyes? It's your liver! Use Ayer's Pills. Gently laxative; all vegetable. Sold for 60 years.

### Want your moustache or beard a beautiful brown or rich black? Use BUCKINGHAM'S DYE.

### PISO'S CURE FOR BRONCHITIS AND CONSUMPTION.

### ATLANTA COLLEGE OF PHARMACY.

### BEST FOR THE BOWELS

## Cascarets

CANDY CATHARTIC

### Littleton Female College

One of the most prosperous schools in the South, with a standard of scholarship, located at a very popular Summer Resort in Jersey to Florida. An institution that is doing a great work. We will take a limited number of pupils, including Board and Full Literary Tuition for \$50 per term on conditions made known on application to REV. J. N. RHODES, A. M., Pres., Littleton, Fla.

### CLAREMONT COLLEGE

For Girls and Young Women. A noted health resort. Pure mountain air. Pleasant home life, under efficient instruction. Twelve courses of study. Rates most reasonable. Director of Conservatory, J. H. Norman, Dox, (Oxford, Eng., and Leipzig, Ger.) catalogue. A. J. BOLIN, A. M., President.

### BROMO-SELTZER

CURES ALL Headaches

### MEDICAL COLLEGE OF VIRGINIA

Established 1838.

### CORN MILLS and MILLSTONES

Constipation kills more people than all other diseases. It starts chronic ailments and long years of suffering. No matter what ails you, take CASCARETS today, for you will never get well and stay well until you get your bowels regular. Take our advice, start with Cascarets today under absolute guarantee. Money refunded. The genuine tablet stamped C. C. C. Never sold in bulk. Booklet free. Address: Sterling Remedy Company, Chicago or New York.

### CLAREMONT COLLEGE

### Ice Gardens.

A glacier, when it dislodges itself and sails away over the Arctic ocean, never travels alone. In the wake of every large one floats a line of smaller companions. Strange as it may seem, plants grow and blossom upon these great ice mountains. When a glacier is at rest most attaches itself to it, protecting the ice beneath, just as seaweed does. After a time the moss seeds and forms a soil, in which the seeds of buttercups and dandelions, brought by the wind, take root and flourish.

### FREE PROOF FORBIDS DOAN'S KIDNEY PILLS

Doan's Kidney Pills are the best for all kidney troubles, including backache, bladder irritation, and all other ailments of the urinary system. They are sold in every drug store.
