We are the Sole Agents in the United States for the sale of Guano Peruvian Guano, free from all adulteration or chemical treatment, and we believe it to be the best all 'round fertilizer

Reports have been persistently spread by sellers of various brands of Manufactured Fertilizers that the Peruvian Guano Deposits have long been exhausted; but we are glad to say that there is no foundation for such reports, as is evinced by the fact that we have imported during the last year, over 10,000 tons of this material and expect to import during the coming year at least double that quantity.

Peruvian Guano is a complete, well-balanced, Natural Manure, containing the principal elements of plant food in the most suitable condition, and is completely blended and incorporated that it can never be equaled by any ordinary compounded Chemical Mahure.

All Genuine Peruuian Guano is packed in even weight 200 pound Red Burlap Bags, with our name and analysis printed
