SANITARY PLUMBING.

Plumbing is a science. I make a special study of all its branches and to know your interest. Take care that your Master Plumber is an efficient engineer and understands his business thoroughly, that is where the secret of a good job lies. See me personally about your work, become my client and you shall be the owner of a first-class sanitary system. You would be surprised to see the old work that I am tearing out every day, because it was done poorly by inexperienced men. See me, See me, See me.

Respectfully,
JOHN F. JENKINS.

Letter to Mr. O. R. Lewis.
 Dear Sir: But few of the men who sell the hundred different paints in the market know much about them. All Devco agents have a state chemist's certificate telling just what it's made of; they know a good deal, not only about Devco but the rest; we see that they do. We buy every paint, that has any sale, and analyze it. Our agent finds out all about it.
 When we know what a paint is made-of, we know how it will set; we know how far it goes, and how long it wears.
 Devco is the standard; call it 100. The best of the rest is about 75; the worst about 25; the rest are between.
 But the men, who sell them, don't know any better. They know what the maker tells them. That is; they know that he tells them. They don't know whether he tells them the truth or not.
 The business is not conducted on knowledge, we less they know, the more comfortable they are.
 Yours truly
F. W. Devco & Co.,
 New York.
