Supervisor's Report For Quarter Ending March 31st, 1905.

The happiest man in the world is the common, every chap who makes his own living, pays his bills, has a little money as he goes along but doesn't strive to get a corner on the local output, and is a slave neither to ambition or society.

To Young Men Who Want A College Education. A Good Letter From Mr. Roy Brown, of Heath Spring, Now at the Presbyterian College at Clinton.

To young men who want a college education and are about to give up the thought of it because of unpromising surroundings, and the thought of final failure, let me say that you can get a good college education and work your own way, if you will determine to do it.

Young men the power to make your life a success lies within your self. You must have a purpose though. The man who succeeds has a program. He fixes his course and adheres to it.

Do you want to fit yourself for your life work? If you do, you can. Don't get discouraged, for opportunities will present themselves if you will make use of the ones you have.

I am working my own way through college and you can do the same thing if you will do it. I will be glad to lend you any assistance I can to set you on the right road.

The president of our college, Dr. W. G. Neville, will send you a catalogue upon request. Write at once, Roy Brown.
