Some Alleged "Hold Ups."

We are informed that there were several "hold ups" in Camden this week. We do not know if this is correct, but whether it is or not, we wish to give a word of warning to those who care to play a "trick" in this line. Tricks may be all right, but a rather dangerous work to jump from behind a tree about eight feet, and tell a man to hand up his money. The person who attempts this is taking his life in his own hands for he is liable to be picked up out of the gutter possibly with a fatal gun shot wound. "A word to the wise is sufficient."

Letter to Telephone Exchange

Dear Sirs: Devos, \$10 a year; lead and oil, \$22.

Mr. McConley, late cashier of Patagon National Bank, of Elliott City, Mo., painted his house—Devos—in 1885. It was 17 years at a cost of less than \$10 a year.

Mr. Harold Hartings, the present cashier painted his house—three coats lead and oil—it was six years, at a cost of \$22 a year. He then repainted Devos; and he wanted the paint that cost best by the year.

This is important, such comparisons are extremely rare. We know the general fact, however.

The paint that goes farthest, wears longest, always.

Yours truly, F. W. Devos & Co., P. S.—Springs & Shannon sell our paint.

In Country Homes

"In time the great cities may be come dominant, but it will be many years hence, and I would be sorry should I live to see the day," said James J. Hill, President of the Great Northern railroad. "The national welfare depends upon the prosperity of the farms, the mining districts, the lumber camps—not on the growth of big cities. The agricultural interests in particular represent the greatest strength of the country, and will for many years to come."

Yet men stand appalled at the spectacle of a metropolis. Let us take New York, as our most striking example—where the visitor gapes at the crowded markets the endless traffic, the hurrying throngs, the skyscrapers the roaring factories, the bustle of commerce, the urban teak and riel, and heedless of what lies behind the hidden motor power, electric.

"Here is the heart of things, here is the pulse of the national life; here is the life blood of the nation, centers, life blood which flows through the veins of commerce vigor to all the land." New York, the heart of the country? Rather New York the parasite—the blood sucker.

June 22nd, 1902, "The coronation of King Edward." High art clothes are royally good clothes, fit to grace the back of a King. Neither "hang" alone or "fit" alone makes a man well dressed. It is a combination of the two that accomplishes it.

Stross's High Art clothes hang true and fit your figure. There is no bulging here and no sagging there when you sit on or after you keep on. Shirts, Cravats, and all the little articles of Dress to go with "High Art Clothes."

Special Fall Announcement!

Cotton Is Up! Wool Is Up! Leather Is Up! But Still Hirsch's Prices Remain The Same!

We are proud of our position this Fall because it enables us to show in a substantial manner how we appreciate your patronage. Never before, possibly never again, have we been able to be of such great saving to you as we are this Fall. Early when wool and leather began to go up we began buying Dress Goods, Clothing, Overcoats, Cloaks and Jackets, Jeans and all woolen goods, as well as Shoes, simply to be in a position to hold down the prices this Fall. In June when cotton went up we bought thousands of dollars worth of Drills, Sheeting, Canton Flannels, Outings, Plaids, Hosiery and Underwear and we planked our money down.

Hirsch's prices must be the lowest. No other store in Camden can show you such an immense stock nor can they match our prices. We have bought enough goods to supply all of the adjoining counties as well as Camden.
