rensury investigation that I shall tentionally withhold from the public Some times I do not think it hest for the success of the investigation to rayeal facts and suspicious as soon as they have come to me, or to disclose our plans for the future. So in this

put myself in a position that could,

with even a color of justice, he corri-

eized.

case, I will enswer your question only so far as I think the present statue of the investigation justifies.

### One Cause of Delay.

"We are trying to get the facts in regard to several suspeions matters which we think should be investigatd. Among this is the statement, as I recall it, of Senator Tillman that he returned certain rebates to a distillry. We wish to find the emdits on the books of the distiller showing the amount of relates which Senafor Till Ing was one he used to tell: man said he returned as a gift for the ratitude he telt to the liquor coneern crediting the State of South Cardina. Besides this there has come to my cars a rumor, the source of which I do not now recall but which I think should be looked into, that Senator Tillman, when Governor, was presented with a piano by a liquor concern It may be that receipts may be shown for the rebates, which may have been returned, and for payment of this piano, which may have been received. as was runnered to be the satisfac tory explanation in the case of the Lowill horse matter. Still, we do not mow the facts in regard to these things and think the Legislature in tended for us to investigate such transactions as the set as well as other vasce and uncertain matters to which common runner gives corrected. We

must do our daty in looking into these things and you may judge by the above samples that we must have male time in doing it - Furthermore, it is not expedititions and would not be approved if the committee held a public session every time.

### May Be Chasing Will o-the-Wisps.

"Senator Christensen and I have lone all we could in examining each claim. I recognize the fact that we may be chasing will otherwisps in all of these matters and that your cit izens may suffer in the meantime, but whether our efforts be such a chase or not a seems certain that, in all events, our committee must walk through the mire. The opinion is so prevalent that the dispensary has been a breeder of so much corruption that no one can touch it without the sus pieion of someone being aroused. Un fortunately, in the case of our committee, the insinuation of this suspicion is east upon us in the public prints by one who, above all others, may know of the innermost affairs of the dispensary os transocted by its officers since its inception. I trust, however, that we will finally emerge from our distasteful task meriting the confidence and approval of all honest citizens. Beleiving that this will satisfactorily explain our delay, Yours Very Truly. 1 am.

J. FRAZIER LYON."

study of law with me?" said the man addressed. "Yes."

"Well, I thought he might as well begin at the bottom of the ladder, and I told him that when he arrived this morning the first thing for him to do would be to clear out the office. He found there half a dozen people waiting to see me on business, and he bundled out the lot!"

Told By a Stage Coach Driver. Joseph Hobbs, whose death occurred a few months ago at Exctor, N. H., was in his younger days the driver of a stage coach between Nashua and Lawrence. He was an inveterate story-teller, and was always sure to have a large audience. The follow-

When I was driving coach from Nashua to Lawrence I used to always stop over night in a small town about half-way between the two citles. One day three or four of us got a large piece of cardboard and printed on it: 'The fellow who is courting a certain married young woman had better leave town, as the husband is on to him.' And, would you believe it, in less than two hours after that sign had been posted on a tree in the village every man in town had left, except three old cripples and one man who had not read the sign."

### DECAYED STARCH. A Food Problem.

An Asheville man tells how right food did that which medicines had failed to accomplish:

"For more than 15 years," he says, "I was afflicted with stomach trouble and intestinal indigestion, gas forming in stomach and bowels and giving me great distress. These conditions were undoubtedly due to the starchy food 1 ate, white bread, potatoes, etc., and didn't digest. I grew worse with time, till, 2 years ago, I had an attack which the doctor diagnosed as appendicitis. When the surgeon operated on me, however, it was found that my trouble was ulcer of the pancreas, instead of appendicitis.

"Since that time I have had several such attacks, suffering death, almost. The last attack was about 3 months ago, and I endored untold agonies.

"The doctor then said that I would have to eat less starchy stuff, so I began the use of Grape-Nuts food for I knew it to be pre-digested, and have continued same with most gratifying results. It has built me up wonderfully. I gained 10 pounds in the first 8 weeks that I med Grape-Nuts, my general health is better than ever before, my brain is clearer and my nerves stronger

"For breakfast and dinner, each, I take 4 teaspoonfuls of Grape-Nuts with cream, a small slice of dry toast, an egg soft bolled and a cup of Postum; and I make the evening meal on Grape-Nuts and cream alone-this gives me a good night's rest and I am well again." Name given by Postum Co., Battle Crepk, Mich. There's a reason. Read the little book. "The Road to Wellville," in page.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women bring hope to despairing women. and girls, who are either awaiting Chicago, Ind., writes : and girls, who are either awaiting or recovering from serious operations. Why should this be the case? Sim-ply because they have neglected them-selves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feelof warning in that bearing down feel-ing, pain at left or right of the abdomen,

ing, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back. dizziness, flatulenoy, dis-placements of the organs or irregular-ities. All of these symptoms are indi-cations of an unhealthy condition of the female organs, and if not heeded the penalty has to be paid by a danger-ous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hos-pital and submit to an operation-but remember that Lydia E. Pink-ham's Vegetable Compound has saved thousands of women from surgical operations.
