

NOVEMBER AILMENTS

THEIR PREVENTION AND CURE.

November is the month of falling temperatures. Over all the temperate regions the hot weather has passed and the first signs of winter have appeared. As the great bulk of civilized nations is located in the Temperate Zone, the effect of coming winter is a question of the highest importance. When the weather begins to change from warm to cold, when cold nights succeed hot nights, when clear, cold days follow hot, sultry days, the human body must adjust itself to this changed condition or perish.

The preparation needed to warm weather has been the subject of this column for many months. This means that the system must be prepared to escape through the perspiration.

Most of the ailments naturally produced in the system by the change of temperature find their way out of the body, if at all, through the kidneys. This throws upon them a burden which they become charged and overloaded with the poisonous excretory materials. This has a tendency to inflame the kidneys, producing functional diseases of the kidneys and sometimes Bright's Disease.

Perina acts upon the skin by stimulating the excretory glands and ducts, thus preventing the retention of poisons in the form of uric acid, which would otherwise accumulate in the system and cause the various ailments which are the result of this condition.

Perina is a combination of well known medicinal ingredients, which have been used by the people in Europe and America for a hundred years.

Perina has been used by Dr. Hartman in his private practice for many years with notable results. Its efficacy has been proven by the use of thousands of people and has been substantiated over and over by many thousands of letters.

Perina is sold by your local druggists. Buy a bottle today.

HELP

IS OBTAINED BY WORTHY YOUNG PEOPLE

We earnestly request all young persons who desire a thorough business education and good position, to write at once for our prospectus. This prospectus contains full and complete information regarding our business and the help that can be obtained by our graduates.

W. L. DOUGLAS, College, Mason, Ga.

MEANING OF A KISS

George B. Baker

The dictionary informs the healthless seeker after truth that a kiss is a form of salutation expressed by the contact, with pressure, of the lips, which definition, though clear and concise, seems to leave something to be desired.

Jonathan Swift testily remarks: "Lord! I wonder what fool it was that first invented kissing?" and many more are the discarded species which have been made by men and women ever since the art first became known on earth.

It is probable that every mother's son of us and daughter, too, has some sort of idea of what a kiss is, in spite of the reticence of the language scholars, but it is doubtful if any one ever reached the idea more appropriately than the lover who in 1679 wrote the epistle from which the following extract is taken. It is thus dated from the German:

What is a kiss? A kiss is, as it were, a seal expressing our sincere attachment; the pledge of our future union; a dumb, but at the same time audible, language of a living heart; it is present, when at the same time it is given, taken from us; the impression of an ardent attachment on an ivory coral press; the striking of two fists against one another; a custom balsam for a love-wounded heart; a sweet bite of the lip; an affectionate pinching of the mouth; a delicious dish which is eaten with scarlet spoons; a sweetmeat which does not satisfy hunger; a fruit which is planted and gathered at the same time; the quickest exchange of questions and answers of two lovers; the fourth degree of love.

A DOCTOR'S TRIALS

He Sometimes Gets Sick Like Other People.

Even doing good to people is hard work if you have too much of it to do. No one knows this better than the hard working, conscientious family doctor. He has troubles of his own—often gets caught in the rain or snow, or has a much sleep he sometimes gets out of sorts. An overworked Ohio doctor tells his experiences.

About three years ago as the result of doing two men a work, attending a large practice and looking after the details of another business, my health broke down completely, and I was little better than a physical wreck.

"I suffered from indigestion and constipation, loss of weight and appetite, bloating and pain after meals, loss of memory and lack of nerve force for continued mental application.

"I became irritable, easily angered and dependent without cause. The brain's action became irregular and weak, with frequent attacks of palpitation during the first hour or two after retiring.

"Some Grape-Nuts and dried bananas came for my lunch one day and pleased me particularly with the result. I got more satisfaction from it than from anything I had eaten for months, and on further investigation and use, adopted Grape-Nuts for my morning and evening meals, served usually with cream and a sprinkle of salt or sugar.

"My improvement was rapid and permanent in weight as well as in physical and mental endurance. In a word, I am filled with the joy of living again, and continue the daily use of Grape-Nuts for breakfast and for the evening meal.

"The little pamphlet, 'The Road to Wellville,' found in packages, is invariably saved and handed to some needy patient along with the indicated remedy." Name given by Postum Co., Battle Creek, Mich. "There's a remedy for you."

ONE OF THE POISON SQUAD MEMBERS DEAD

R. V. Freeman's Mother Says He Was Killed by Experiments.

Washington, D. C. Freeman's health was undermined by eating poison as a member of Dr. H. W. Wiley's "Poison Squad." Robert Vance Freeman, aged twenty-three, is dead. This is the charge made by his mother, Mrs. Laura Lathan, of this city.

The young man died of tuberculosis, contracted, as his mother declares, from the effects of the adulterants he ate in the interest of science. He had been admitted to the squad of young men who first volunteered three years ago to test on themselves the effect of adulterants. Freeman was one of these.

Mrs. Lathan declares she will seek to recover damages from the Government, though the volunteers for the "Poison Squad" signed contracts agreeing to observe the Government for blame for any ill results of the experiment by Dr. Wiley as chief of the Bureau of Chemistry of the Department of Agriculture.

The first "Poison Squad," of which young Lathan was a member, was the first volunteered three years ago to test on themselves the effect of adulterants. Freeman was one of these.

Mrs. Lathan declares she will seek to recover damages from the Government, though the volunteers for the "Poison Squad" signed contracts agreeing to observe the Government for blame for any ill results of the experiment by Dr. Wiley as chief of the Bureau of Chemistry of the Department of Agriculture.

SHE WILL SUE GOVERNMENT

Tested Food Adulterants—Volunteered and Agreed to Absolute Authorities From Blame in Case of Disaster.

Washington, D. C. Freeman's health was undermined by eating poison as a member of Dr. H. W. Wiley's "Poison Squad." Robert Vance Freeman, aged twenty-three, is dead. This is the charge made by his mother, Mrs. Laura Lathan, of this city.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. One case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

J. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

TRADE UNION OLD AGE PENSIONS

By 1905 there were 4,591 on the fund, the total amount paid in superannuation for the year being £20,094.—Nineteenth Century.

The warehouse of the American Snuff Company, at Eddyville, Ky., has been wrecked by dynamite, following warning messages from the "Night Riders."

The Mine Owners' Association at Leadville, Col., will do away with the card system and run its mines on an open shop basis.

The Interstate Commerce Commission has unseated a federal act which, it is asserted, may prevent the Union Pacific merger.

HELD BY GAS WELL CAP

Extraordinary Accident Costs Two Workmen Loss of Hands.

New Martinsville, W. Va.—George Wilson and Arthur Steepleton, oil workers, narrowly escaped death in a remarkable accident. The two men had cleaned an oil well and were putting the cap, which weighed 4000 pounds, back on the well. Their cap, which had slipped, causing Wilson to fall on their hands, and gas began to escape, threatening both men with asphyxiation.

With a mighty jerk Steepleton released his hands, tearing off three fingers. He then, with great difficulty, released Wilson, and both men fell unconscious from pain and inhaling the escaping gas.

JAPS LAUNCH FIRST BATTLESHIP

Greatly Elated That It Is Their Greatest Terror of Sea, Too.

Tokyo, Japan. The first-class battleship Satsuma, 19,000 tons, the first battleship to be launched in Japan, was launched in the presence of the Emperor and amid the greatest enthusiasm. The newspapers reflect the epoch-making nature of the event, as indicated by the unprecedented presence of the Emperor, and elaborate the success of the naval construction. It is also reported that the Satsuma is the equal to, and perhaps the superior of, anything afloat, including Great Britain's battleships.

PRUNE-GROWERS PROSPER

The prune growers of California will receive \$2,500,000 more for their crop of 1905 than was obtained by them for the crop of 1904. The estimated amount due to the prune growers for the crop is \$4,050,000, representing 180,000,000 pounds of prunes.

LABOR STILL SCARCE

Labor is scarce and wages, especially those of railway employees, have undergone further favorable changes.

Accidentally Kills Himself. Joseph Cashman, aged twelve, of Ashburham, Mass., accidentally shot himself with a rifle while going up stairs to bed. He fell dead into the arms of a sister, who was behind him.

CAPITULANT GRANTS IMPROVED SERVICE

H. H. Rogers, through his counsel, promised improved lighting and trolley service for Staten Island.

Express Company Increases Wages. The National Express Company has announced a ten per cent. increase in wages.

THE CHARLOTTE OBSERVER AS A DEVELOPER OF TALENTS AS WELL AS RESOURCES.

The Charlotte, N. C. Observer has long been recognized as a powerful factor in helping to bring about the development of its State and section generally. And its labors along this line have been much in bringing capital to build up our manufacturing interests and valuable citizens to cast their lot among us. But the Observer has not stopped there. Like the great, broad-minded and useful paper it is, it has widened out its field of usefulness and has helped materially in creating a distinctively local and Southern literature. Some of the brightest literary stars of the present period have been discovered and their talents brought out through its columns. Much valuable historical matter, heretofore unknown, has been given to the world through the medium of its immense Sunday issues. For genuine literary merit a single Sunday issue of the Observer goes far and away beyond the current magazines, carrying both quantity and quality to an extent impossible with the best of them.

In fact, so great is the Observer in its field of a family newspaper that it were difficult to determine whether it has accomplished the more in the field of industry or the field of literature. Anyway, it stands at the head among Southern dailies in every particular.

News of the Week

WASHINGTON.

The Republican majority of Congress is 222, and the Democratic 157.

The case against the declared body in view of charges and existed men.

Charles D. Sillings, the Public Printer, may be appointed to a position through investigation of his office by Congress.

George of War-Tan's office force is busy caring for hundreds of post-cards and letters reaching Mrs. Taft to save Niagara.

The contorted 55 silver certificate which made its appearance in the Chicago has been discovered by the Secret Service. The bad bill is of the series of 1899, and bears check 1757.

Officers interested in the matter say that a vessel constructed in accordance with the Department's designs would give the navy a more powerful hand than any now afloat or building.

The Navy Department has completed its review of the accident in Hampton Roads, when the Old Dominion liner, Monitor, ran into the battleship Virginia. The officers of the battleship are held blameless.

BABY'S AWFUL HUMOR.

This Skin Formed Over Body and Under It Was Watery Blood—Cured in One Week by Cuticura Remedies.

"When my little girl baby was one week old she had a skin disease. A thin skin formed over her body, under it was watery blood, and when she was washed it would burst and bleed. She was in that condition for weeks, and I tried everything I could think of, but nothing did her any good. When she was three months old I took her to San Antonio to see a doctor, but the doctor we wanted to see would not see her, so my sister gave me a box of Cuticura Ointment, and told me to use them, which I did in time. I used them three times, and the humor began to subside, and in the week she was sound and well, and it has never returned again. I think every mother should keep the Cuticura Remedies in the house. Mrs. H. Aaron, Benton, Texas, July 3, 1905."

Politeness is benevolence in small things.—Macaulay.

The Original Porous Plaster.

It's Allcock's, first introduced to the people sixty years ago, and today undoubtedly has the largest sale of any external remedy—millions being sold annually throughout the whole civilized world. There have been imitations, to be sure, but never has there been one to even compare with Allcock's—the world's standard external remedy.

For a weak back, cold on the chest or any local pain, the result of taking cold or over-exertion, there's nothing we know of to compare with this famous plaster.

Power goes before talent.—From the Danish.

"THE MARRYING SQUIRE."

Justice Geo. E. Law, of Brazil, Ind., Has Married 1400 Couples.

Justice Geo. E. Law, of Brazil, Ind., has fairly earned the title "The Marrying Squire," by which he is known far and wide, having already married some 1400 couples. Ten years ago he was Deputy County Treasurer. "At that time," said Justice Law, "I was suffering from an aching kidney trouble. My back ached, my rest was broken at night, and the passages of the kidney secretions were too frequent and contained sediment. Three boxes of Doan's Kidney Pills cured me in 1897, and for the past nine years I have been free from kidney complaint and backache."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

No old age agreeable but that of a wise man.—Pythagoras.

Mrs. Winslow's Soothing Syrup for Children teething softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Hum that is in possession God helps.—From the Italian.

FITS, St. Vitus' Dance, Nervous Diseases Permanently Cured by Dr. Kline's Great Nerve Restorer. 23 trial bottles and treatise free. Dr. H. R. Kline, M. D., 351 Arch St., Phila., Pa.

A north wind has no corn and a poor man no friend.—From the Spanish.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. One case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

J. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

TRADE UNION OLD AGE PENSIONS

By 1905 there were 4,591 on the fund, the total amount paid in superannuation for the year being £20,094.—Nineteenth Century.

The warehouse of the American Snuff Company, at Eddyville, Ky., has been wrecked by dynamite, following warning messages from the "Night Riders."

The Mine Owners' Association at Leadville, Col., will do away with the card system and run its mines on an open shop basis.

The Interstate Commerce Commission has unseated a federal act which, it is asserted, may prevent the Union Pacific merger.

HELD BY GAS WELL CAP

Extraordinary Accident Costs Two Workmen Loss of Hands.

New Martinsville, W. Va.—George Wilson and Arthur Steepleton, oil workers, narrowly escaped death in a remarkable accident. The two men had cleaned an oil well and were putting the cap, which weighed 4000 pounds, back on the well. Their cap, which had slipped, causing Wilson to fall on their hands, and gas began to escape, threatening both men with asphyxiation.

With a mighty jerk Steepleton released his hands, tearing off three fingers. He then, with great difficulty, released Wilson, and both men fell unconscious from pain and inhaling the escaping gas.

JAPS LAUNCH FIRST BATTLESHIP

Greatly Elated That It Is Their Greatest Terror of Sea, Too.

Tokyo, Japan. The first-class battleship Satsuma, 19,000 tons, the first battleship to be launched in Japan, was launched in the presence of the Emperor and amid the greatest enthusiasm. The newspapers reflect the epoch-making nature of the event, as indicated by the unprecedented presence of the Emperor, and elaborate the success of the naval construction. It is also reported that the Satsuma is the equal to, and perhaps the superior of, anything afloat, including Great Britain's battleships.

PRUNE-GROWERS PROSPER

The prune growers of California will receive \$2,500,000 more for their crop of 1905 than was obtained by them for the crop of 1904. The estimated amount due to the prune growers for the crop is \$4,050,000, representing 180,000,000 pounds of prunes.

LABOR STILL SCARCE

Labor is scarce and wages, especially those of railway employees, have undergone further favorable changes.

Accidentally Kills Himself. Joseph Cashman, aged twelve, of Ashburham, Mass., accidentally shot himself with a rifle while going up stairs to bed. He fell dead
