

GILLETTE GUILTY OF FIRST-DEGREE MURDER

Doomed to Death Chair at Herkimer For Killing Grace Brown.

JURY OUT FOR FIVE HOURS

One Juror Stood Out Against the Other Eleven Until the Fifth Ballot, When He Made Conviction Unanimous.

Herkimer, N. Y.—Charles E. Gillette was convicted of murder in the first degree for having slain his sweetheart, "Bibi" Brown.

The twelve men who rendered the verdict, which meant Gillette must be sentenced to death by electrocution, deliberated three minutes less than five hours before they reached their verdict.

Five ballots were taken. Four resulted in eleven for conviction and one for acquittal.

Two hours elapsed between the fourth and the fifth ballots, and during that time the men who fell in line of Gillette's guilt argued and worked upon the one man standing against them.

Hard words were passed, and the moderate juror was told if he persisted in his determination to hang the jury that the temper of the people of Herkimer County would not let him stay within its borders.

Then came the fifth ballot, which decided Gillette's fate.

Marshall Hatch, a farmer of South Columbia, who was foreman of the jury, started for the door as soon as he was sure of a verdict of murder in the first degree. Before he could give the signal that the jury was ready to report the man who had voted for acquittal four times caught him by the arm.

He foresaw the position in which he would stand in the eyes of the community should his course in the jury room get out. He begged Hatch not to reveal the verdict.

But Hatch turned on his fellow jurors and asked them if they would reveal their vote of honor never to reveal what had taken place in the jury room after its door was closed upon them in the afternoon. They swore they would not.

Justice Devendorf was waiting at the Palmer House, in other parts of which were also Justice Attorney Ward and the chief lawyer for the defense, Charles D. Thomas, and former Senator Albert M. Allen.

As these men hurried out of the hotel word went through the town that the jury had agreed. A crowd followed on the heels of the justices and the lawyer, and there was no one to turn them back when they pushed through the doors of the court house.

Herkimer County's office wanted no trouble. It was decided to admit the crowd home every one who sought access to the court house until the verdict had been read and Gillette got back to his cell.

The plan worked perfectly, but there was no necessity for it. The verdict was what the people wanted.

Before Justice Devendorf read the verdict word got to the crowd. Gillette was hustled out of the county jail and into the court house.

There was a pallor on Gillette's face greater than that of condemnation. He strove hard to control the nervousness which appeared in his hands and the shallow ridges in his small, green eyes.

It was 11:14 o'clock p. m. when the jury filed in. They dropped their benches just outside the jury room door. When they had been polled there came the question:

"Gentlemen," Chief Justice Devendorf said, "have you arrived at a true verdict and chosen one of your number to speak for you?"

The first man in the front row of the two solemn lines of jurors got to his feet. Marshall Hatch's voice was firmer than that of Clerk Burney.

"We have," he said, "and find the defendant guilty as charged in the indictment."

Gillette, who had been closely watching the foreman, did not move a muscle at the words. He sat with his face in his hands, but for a few minutes during his counsel's speech he had a post-mortem of indignation he got to his feet and started toward the door with an under shout after him.

After he had sat down twice the Court finally allowed him to go.

When he got to the end of any sign of fear had entirely vanished. "That's a pretty verdict," he said to his lawyer, "and I didn't expect it. I didn't believe any jury would do that."

"Well, I guess it'll turn out," he added, and addressed and went to bed.

Minors Lose Before Supreme Court.
The Supreme Court refused to interfere in the cases of the three employees of the Western Electric Co. in Albany accused of the Stranahan murder.

Working Hours Reduced.
By a new law in Russia the working hours of clerks and commercial employees were considerably reduced.

Convicted of Murder.
A first degree murder verdict was returned at Canton, O., against Jas. Coakley for killing his wife.

Hudson River Closed.
The Hudson River was closed to navigation, it being the earliest close-up since 1920, with four exceptions.

Loans of Federal Estate.
A bill authorizing National banks to make loans of real estate security was passed.

Record Cranberry Crop.
According to the latest figures from Massachusetts the output of cranberries this season will be quite 250,000 barrels. The quantity of berries already shipped west of New York and to points in Canada exceeds the total crop of 1925 and total shipments thus far exceed the total crop of 1925 by fully fifty per cent.

Jump in Butter.
The sudden jump in butter prices has been the result of the scarcity of fresh cream.

DEATH OF COLONEL YOUMANS

The End Came Peacefully, Quietly and Unexpectedly at an Early Hour Yesterday Morning—One of the Most Eloquent Court Room Orators Known in South Carolina in Recent Years.

Columbia, S. C.—Colonel Leroy E. Youmans is dead. The eloquent advocate and learned lawyer passed away Monday morning about 3 o'clock.

The death was peaceful and painless. During the night Gen. Youmans awoke and, as was his custom, began to read in bed. He had a volume of Macaulay, which he read for a time, and then rested his head on his wife's shoulder. After a short while Mrs. Youmans, thinking her husband was asleep, felt that there was something wrong with him. He was dead.

Gen. Youmans was in his office in the State Capitol on Wednesday. The next day being Thanksgiving Day the office was closed, and he has not since been to the Capitol. He was ill on Saturday, but seemed better on Sunday, and there was nothing alarming in his condition. He had suffered for months from arthritis of the liver and several times during the last year his health had been expected but he rallied and seemed to possess a wonderful vitality.

Besides his wife, who was Mrs. T. F. Youmans, of Greenville, South Carolina, Gen. Youmans is survived by the following members of his family: Private T. Youmans, of the Columbia army; Mrs. M. C. Youmans, wife of Major W. A. Motts, of Columbia; Colonel Youmans, who died about fifteen years ago, and Mr. Paul Youmans, who died in June, 1921. The following brothers and sisters survive: Mr. W. H. Youmans, of San Antonio, Texas; Lawrence W. Youmans, of Fairfax, S. C.; M. H. Youmans, of Stafford, Hampton county, S. C.; Mrs. Frank Youmans, of Hampton; Mrs. Robert T. Saussey, of Estill, S. C.

Leroy E. Youmans was born November 14, 1844, at Laytonville, S. C. He graduated at the South Carolina University in 1872 and was admitted to the bar in 1876, having studied law under the celebrated R. J. Dancy.

He formed a partnership with Mr. Edmund Rhee, who first admitted and later with Gen. J. W. Moore, of Hampton. He was elected solicitor in 1890 and moved to Edgefield, to join a partnership with Gen. M. C. Butler, which continued until 1892, when Gen. Youmans came to Columbia, where he has since resided, represented by all who knew him and loved by his associates at the bar.

This year when Attorney General Hunter died Gen. Youmans, at that time assistant to Mr. Gault, was appointed Attorney General by Governor Heyward. The appointment was made on March 29, 1906, and Gen. Youmans has since been in office.

During a large part of the time his health has been such as to cause his friends much anxiety, but he has given attention to the duties of his office having a capable assistant in Mr. D. C. Ray, of Columbia. Mr. Youmans was in his office last week and had lately seemed in better health.

His death Monday, therefore, was a great surprise to his friends in Columbia.

When Mr. W. H. Townsend in September, 1905, resigned the position of assistant Attorney General Mr. Gunter selected Mr. Youmans to fill the vacancy. Upon Mr. Gunter's death, a few months later, in March, 1906, Mr. Youmans was chosen by Governor Heyward as his successor, his commission being issued March 27.

Primary for Aiken.
Aiken, Special.—At the called meeting of the county executive committee for the purpose of considering the matter of ordering a primary to nominate successors to the present county treasurer and probate judge, both of whom recently resigned, it was decided to order a primary and this has been scheduled for the first Tuesday in January.

Cap. Whilden Woodward Dead.
Harwell, Special.—The town and surrounding community was shocked Monday afternoon by the death of Capt. Whilden Woodward. Capt. Woodward has been an invalid for the last few years suffering from paralysis and his death was quite unexpected and came as a great shock to all his friends. Capt. Woodward was injured in a wreck years ago and from that time he has never regained his former strength and activity. Later he suffered a stroke of paralysis and since that time has been confined to his room almost continually.

Williams Case on Trial.
Columbia, Special.—In the Federal Court Monday the time was occupied with the suit of R. M. Williams against the Southern Railway, the trial not being concluded at night. Williams claims \$10,000 damages for injuries alleged to have been received while he and a companion were walking along the Southern's track near the Blending street depot in Columbia in April, 1923.

Remarkable Case of Newberry Youth.
A recovery which is regarded by physicians here as a very remarkable one, is that of young John Andrew Satterwhite, of Newberry, S. C. On November 13 this youth inhaled a part of an atom and it went deep into his lungs. His condition was critical and he was taken to the Columbia hospital for an operation. An incision was made and a part of the atom was found and removed; the rest of it since then has been coughed up and removed in dressing the wound.

CORNELL BOYS DIE IN CHAPTER HOUSE FIRE

Three Prominent Ithacans, Volunteer Firemen, Also Perish.

SEVEN STUDENTS WERE HURT

Members of Chi Psi Fraternity Sacrificed Their Own Lives to Rescue Comrades Trapped in Upper Stories—Victims Trapped Asleep.

Ithaca, N. Y.—Four men students of Cornell University and three members of the Volunteer Fire Department of Ithaca were killed and seven students were injured in the burning of the Chi Psi Fraternity house on Cornell campus. Two bodies remain in the ruins.

Thirty students lodged in the house, which originally was the McGraw-Fiske mansion, and was the most palatial fraternity lodge at any college in the United States. All except three escaped when the fire was discovered reaching up both stairways at 4 o'clock a. m. Two of the victims died as heroes, returning to rescue comrades, and the three firemen were killed together under a falling wall.

Students Dead.
Greife, Ferdinand W., twenty South Orange, N. J., freshman in engineering school, barely missing.

McCartoon, James Jr., Pittsburg, halfback on Cornell eleven, sophomore class; died in hospital.

Nichols, William Helen, Chicago, senior class; body not positively identified.

Schmuck, Oliver Leroy, Hanover, Pa., senior class; jumped from third story after trying to rescue Nichols, died in hospital.

Volunteer Firemen Dead.
Landon, E. J., salesman, Ithaca.

Robinson, Alfred S., lawyer, Ithaca, graduate of Cornell.

Runsey, John C., hardware merchant, Ithaca.

Students Injured.
Pope, Clarence J., East Orange, N. J., freshman; football eleven; got back to rescue comrades; probably fatally injured.

Curry, Henry M., Pittsburg, injured attempting with Pope to rescue a comrade.

DeCamp, H. S., New York City, sophomore; football eleven; got back to rescue comrades; probably fatally injured.

Cliff, Harry, Pittsburg.

The fire started in the kitchen, and when H. S. DeCamp, a New York student, who lodged on the third floor, was awakened by smoke and gave the alarm, the flames had reached the hall on the first floor and started up both stairways, cutting off escape from the upper floors.

DeCamp shouted to awaken the men on the third floor and ran through the blinding smoke to the attic. From a window he slid down the vines and ran to another chapter house and a station there sent in an alarm from the nearest fire on the campus.

Most of the students remained on the third floor, and they were entrapped by injury if they jumped, death if they remained.

Oliver Schmuck got early out of the building before he discovered that his roommate, Nichols, had followed him. He dashed back through the flames, but could not find his friend. Driven, finally, to save himself, he had to jump from a third-story window. His chapter body was quickly extinguished and he died within a few minutes.

McCartoon gave his life, too, remaining too long to assist other boys to escape. He rescued with Curry and Pope. McCartney was made helpless because he would consent to help. Then his comrades put him on the coping outside a window, and having nothing with which to lower him to the ground, had to leave him there while to save their lives they escaped from the flames that drove them out of a window. When men got a fire engine, fire trucks and hose from a ladder up to the window McCartney was nearly dead.

Greife and Nichols finally retreated to the tower, where from a window they called for help. The volunteer firemen had arrived by this time, having taken a half hour to get those apparatus up the steep hills that are everywhere in Ithaca. They were straining a rope along the tower when the two students appeared there. It was impossible to rescue them, and they had to jump.

Firemen and students in honor watched the flames, fanned by a fair typhoon, rise in the window, and low the helpless boys. Suddenly the tower crumbled, the two perished in flames and the firemen who were three of the firemen volunteers.

NO MEDICINE
But Change of Food Gave Final Relief.

Most diseases start in the alimentary canal—stomach and bowels. A great deal of our stomach and bowel troubles come from eating too much starchy and greasy food.

The stomach does not digest any of the starchy food we eat—white bread, pastry, potatoes, oats, etc.—these things are digested in the small intestine, and if we eat too much, as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, indigestion, and a long train of all result.

Too much fat also is hard to digest and this is changed into acids, sour stomach, belching gas, and a bloated, heavy feeling.

In these conditions a change from indigestible foods to Grape-Nuts will work wonders in not only relieving the distress, but in building up a strong digestion, clear brain and steady nerves. A Wash, woman writes:

"About five years ago I suffered with bad stomach—dyspepsia, indigestion, constipation—caused, I know now, from eating starchy and greasy food."

"I doctored for two years without any benefit. The doctor told me there was no cure for me. I could not eat anything without suffering severe pain in my back and sides, and I became discouraged."

"A friend recommended Grape-Nuts and I began to use it. In less than two weeks I began to feel better and inside of two months I was a well woman and have been ever since."

"I can eat anything I wish with pleasure. We eat Grape-Nuts and cream for breakfast and are very fond of it." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Well-being," in page "Three's a Crowd."

Church Inventories Restored.
The taking of inventories of the French churches was resumed, without serious obstacles.

Legislature Nearly Unanimous.
Alabama's next Legislature will contain one Republican.

Newsy Gleamings.
Over 140,000 autos are now in use. Speaking in Japan because of the San Francisco school affair is disappearing.

Not a single American has died from disease in the Canal Zone during the last three months.

Chewing of tobacco around the University of Nebraska has been forbidden under pain of expulsion.

Suffer in Silence

THE SUPPORT OF THE LOCAL MERCHANT.

The approach of winter and the holiday season, when the most important and largest expenditures on the part of every person and family takes place, calls attention to a matter of great consideration, for those who are to purchase these supplies. This matter is where are you, the citizen, going to buy your goods, of your home merchant, or are you already sending out for catalogues from outside merchants of the great north-western cities, and figuring on saving twenty-five cents on every ten dollar purchase?

There is no greater community of interests in a town or city, than that which is to be found in local co-operation of the people. It is the sentiment put into active practice of doing everything possible for your neighbor's interest. It is the good word ever ready for the city's defense. It is the ready help to promote and advance every local interest which means public betterments.

It is found in giving the local merchant every possible order, every possible dollar in trade for goods, that can be purchased in his store, or ordered through his store.

The support of home institutions is best seen in the local patronage given every worthy local merchant. The retail merchant, as a taxpayer, is a most important supporter of every thing that makes up a municipality. He is taxed for everything, and proportionally bears the greatest burden as a local taxpayer. This being true the local merchant deserves the consistent support, and every possible dollar of patronage from his home people.

At this season of the year, the pamphlet by mail, and the attractive ad in some outdoor periodical, is too apt to draw attention away from the local merchant. The person wanting goods, very often will say what is the use of going to the local merchant, he can't carry such goods, so he sends an order to some outside merchant. But how does the home citizen know that the article wanted is not to be found in town? Has the local newspaper been looked over, to see if the local merchant advertises, or if not having the exact article, cannot order the goods, and so make a small profit?

Oliver Schmuck got early out of the building before he discovered that his roommate, Nichols, had followed him. He dashed back through the flames, but could not find his friend. Driven, finally, to save himself, he had to jump from a third-story window. His chapter body was quickly extinguished and he died within a few minutes.

McCartoon gave his life, too, remaining too long to assist other boys to escape. He rescued with Curry and Pope. McCartney was made helpless because he would consent to help. FACE ALL BROKEN OUT.

Troubled Almost a Year—Complexion Now Perfect and Skin Soft, White and Velvety.

"I had been troubled with a breaking out on my face and arms for almost a year and had the services of several physicians, but they didn't seem to do any good. Some time ago one of my friends recommended Cuticura to me. I secured some, and after using it several months I was completely cured. I can highly recommend Cuticura Soap as being the very best complexion soap made. It creates a perfect complexion, leaving the skin soft, white and velvety. I now use Cuticura Soap all the time and recommend it to my friends. Maud Logans, R. F. D. No. 1, Sylvia, Tenn., Aug. 1, 1925."

What Do They Cure?
The above question is often asked concerning Dr. Pierce's two leading medicines, Golden Medical Discovery and Favorite Prescription.

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier and tonic invigorator and is especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder—curing a large percent of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach or bowels (dyspepsia, indigestion, constipation, hemorrhoids, uterine or other pelvic organs). Even in the chronic or ulcerative stages of these affections, it is often successful in effecting cures.

"The Favorite Prescription" is advised for the treatment of all cases of female weakness, nervousness, irritability and irregularities incident to womanhood. It is a powerful yet gently acting invigorant tonic and nervine. For weak women, overworked women—no matter what has caused the breakdown—"Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A box of particular value, each containing the formula of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians all the world over, prescribing as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Dr. Pierce's medicines by such writers should have more weight than any amount of merely professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal herbs, stems, leaves and barks sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Peppets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.
