Every analysis undertaken shows this food to be made strictly of Wheat and Barley, treated by our processes to partially transform the starch parts into a form of Sugar, and therefore much easier to digest.

Our claim that it is a "Food for Brain and Nerve Centres" is based upon the fact that certain parts of Wheat and Barley (which we use) contain Nature's brain- and nervebuilding ingredients, viz., Phosphate of Potash, and the way we prepare the food makes it easy to digest and assimilate.

When you realize that Minard's Liniment had its birth in the prescription of the late Doctor Levi Minard, who used it and recommended it in his private practice, 55 years ago, and that by personal recommendation it has since come into universal use, and that each year an increasing number of people use it, you begin to appreciate that our confidence in its merit is but reflecting the faith expressed by those who depend upon it, who know by experience that It is best for them, that it stands alone as the most effective economical and clean-to-use external application for rheumatism, neuralgla, pleurisy, stiff, twisted joints, sore, strained, or lame muscles, tired, aching feet or any pain or ache.

# Why This Statement?

Because we propose from time to time to tell you of the merits and to let others testify to/ the personal benefit derived from MInard's Liniment, so pure and antiseptic, so powerful, penetrating and soothing as to have justly earned its litle, King of Pain. We know you believe in the doctrime of the Square Deal. We ask you to tell others of the good Minard's Liniment has done you. Yours respectfully, Minard's Liniment Mfg. Co., So. Framingham, Mass.
