#### PRIZE OF \$10,000 IN OLD SOUTH CAROLINA

Won by Curtiss in His Great

Aeroplane

## **GIVEN BY NEW YORK WORLD**

Rode the Air From Albany to New York in a World-Breaking Record -Sailed Along Over the Historic Hudson-Not a Single Accident

New York, Special.-Glenn H. Curtiss flew from Albany to New York City in an aeroplane Sunday winning the \$10,000 prize offered by The New York World. He covered the distance of 137 miles in 2 hours and 32 minutes and came to earth as camly and as lightly as a pigeon. His average speed for the distance-54.06 miles an hour—surpasses any record ever made by an aeroplane in long distance flight.

The start was made from Albany at 7:93 o'clock under weather conditions as near perfect as the most fastidious aviator could demand/ One hour and twenty-three minutes later he had made his stopping place near Poughkeepsie, where there was, an hour's intermission. Resuming his flight at 9:26 he sped southward and landed within the boundary of Manhattan Island at 10:35.

Paulhan's flight from London to Manchester-186 miles-exceeded the Curtiss feat in distance but not in speed and danger. The Frenchman's average was 44.3 miles an hour, and below him lay English meadowland. Curtiss followed the winding course of the historic Hudson, with its jut-ting headlands, wooded slopes and treacherous palisades. He swung high over the great bridge at Poughkeepsie, dipped at times within 50 feet of the river's broad surface and jockeyed like a falcon at the turns.

Only once did his craft show signs of rebelling. This was off Storm King near West Point, where at a height of nearly 1,000 feet, a treacherous gust struck his planes. The machine dropped like a rock for 40 feet and tilted perilously. But Curtiss, always cool, kept both his head and his seat and by adroit manipulation of his levers brought renewed equilibrium to his steed.

Costly Typographical Error. Milwaukee, Wis., Special.-Because Mrs. Margaret Allis, widow of the founder of the Allis-Chalmers company, forgot to append three ciphers to the bequests to her four grand-children, Margaret W. A. Norris, of Edward Phelps Allis II and William Phelps Allis, of Montana, Frances and Maud A. Conway of Milwaukee, will have to be satisfied with \$25 each instead of \$25,000. Judge Karel ruled that although the intent to leave the children \$25,000 each was plain, the court could not go back of the fact that the will itself says \$25.

Cream of the News Gathered From All Sections of the Commonwealth For Our Many Readers.

Record Battleship South Carolina. Calculations giving the battleship Idaho the trophy for record target practice may be entirely upset owing to the remarkable record made Wed-nesday by the new battleship South Carolina, now engaged in her first target practice off the Virginia Capes. The new ship in her day firing rip-ped the target to pieces in such amaz-ing style that she already stands in line to challenge the Idaho for first position.

One of her 12-inch turrefs made a record which has never been excelled in any navy, averaging more than two hits a minute, every shot fired scoring a hit, and her firing throughout was constantly good. If her night practice and torpedo practice is up to the mark, she is very likely to eclipse the best records made this year under the same conditions.

Court of Inquiry Adjourned.

The taking of testimony by the court of inquiry appointed to investi-gate the Boyd-Brock controversy was concluded Thursday with the arguments. It was announced by Gen. Wilie Jones, the president of the court, that the session had ended and that a decision would be rendered at some future date to be set by the court. It was asked that the stenographic report be completed by June 4. In the opinion of Gen. Wilie Jones. the expenses of the court will not exceed \$500.

### Improvement in Railroad Service.

The double tracking of the Coast Line from Florence to Pee Dee river will so relieve the congestion of trains that the railroad men say that the amount of traffic that can be handled then between Florence and Rocky Mount, where the road branches of to Norfolk, will be practically unlimited.

#### Bids for Convicts.

Nine bids for the services of 200 to 300 convicts have been received by the board of directors of the State Penitentiary. The bids will be con-sidered and the award will be made at the meeting of the board, which has been called for June 8. The convicts must be employed within the walls of the State Penitentiary.

**BILL WILL WIN, SAYS NEWCOMB** 

CAMDEN, S. C., FRIDAY, JUNE 3, 1910.

Mrs. Blatch and Her Aids Take Note of Those Who Oppose Their Fight-Sentiment Growing in Favor of Measure.

Albany, N. Y .--- The Senate refused to discharge the Judiciary Committee from consideration of the constitutional amendment giving suffrage to women by a vote of 30 to 16. The Senators who registered their approval of woman's right to vote were: Allen, Brough, Burlingame, Emerson, Heacock, Holden, Hubbs, Newcomb, Rose and Schlosser, Republicans, and Bayne, Gardner, Harte, Mc-

Manus, Stillwell and C. D. Sullivan, Democrats. Those voting in the negative were:

Agnew, Alt, Brackett, Coats, Cobb. Cordts, Davenport, Davis, Gledhill, Grattan, Griffith, Hamilton, Hewitt, Hill, Hinman, Kissell, Mackenzie, Meade, Platt, Thomas, Travis, Wainwright, White and Witter, Republicans, and Caffrey, Cronin, Cullen, Grady, Harden and Ramsperger, Democrats. Senator Frawley, Democrat, the only absentee when the vote was taken, said if he had been present he would have voted in the negative.

The subject was brought up by Senator Newcomb at the request of Mrs. Harriet Stanton Blatch and other advocates of woman suffrage, who were present with the notebooks to make record of the attitude of the individual Senators on the question, Senator Newcomb said: "I believe that sentiment in favor

of woman suffrage is growing and that ultimately it will win." Senators Travis, and Hill opposed

the motion, while Senators Hill and Bayne put themselves on record in favor of woman suffrage. Senator Brackett spoke in opposition, arguing that the proper procedure was to pass his bill permitting the women of the State at the next election to pass on the question whether they desire the right to vote.

SHE SENDS BURGLAR TO DEATH.

Woman Ilits Him With Rolling Pin at a Window.

themselves.

Watertown.

Albany, N. Y. -- The Legislature adjourned sine die, but the final gavel had scarcely fallen in Senate and Assembly before the Capitol corridors became alive with rumors that the members would soon be called back. The Governor's proclamation follows:

"Pursuant to the power vested in me by Section 4 of Article IV, of the Constitution, I hereby convene the Legislature in extraordinary session at the Capitol in the city of Albany on Monday., the 20th day of June, 1910, at 8.30 o'clock, post meridian. "Given under my hand and the

privy seal of the State, at the Capitol in the city of Albany, this 27th day of May, in the year of our Lord one thousand nine hundred and ten.

"CHARLES E. HUGHES." The Governor issued his proclama-tion after consulting several members

in each House who have stood for the primary reforms he has advocated. It is thoroughly understood at the Capitol that the Governor's Direct Nominations plan will be the chief topic submitted to the Legislature at the special session.

A majority of the legislators had already left Albany when the Gov-ernor make publichis intention. Those who remained felt none too happy over the prospect. Speaker Wads-worth and other leaders of the opposition freely expressed the opinion that there would be no change in the legislative verdict on the Governoor's plan, which has been beaten twice in the Assembly, first through the defeat of the Hinman-Green bill and later through the defeat of the so-called Cobb compromise bill, which did not go quite so far in carrying out the di-

rect primary principle. It may be predicted on good au-thority that the recommendations of Governor Hughes when the Legislature convenes for the extra session will call not for a compromise measure, but for a bill that will provide for the State-wide application of the direct primary principle, substantially

nlong the lines of the rejected Hin-man-Green bill: The Governor feels that there is a strong and broad sentiment for the passage of just such a measure, and that the urgency that some primary reform be had at once instifies him calling the legislators back.

At the conclusion of business in the Senate/the gavel was turned over to Majorfty Leader Cobb and to Lieutenant-Governor White was presentwindow. He fell into a yard and was killed. The woman who fought with him until he reached the window is Mrs. Dora Gietman, of No. 296 Delancey street. She discovered the man in

Scranton, Pa .- Dr. F. W. Lange, in whose laboratory the experiment which resulted in the death of Charles 0. Dickinson, the New York City banker, occurred, gave a statement about the experiment which resulted in Mr. Dickinson's death.

Baser Things.

FATAL

Dr. Lange says it occurred during the demonstration of a process which he has discovered for transmuting the baser metals into silver. In the has discovered for transmuting tourse of the demonstration, he says,

Mr. Dickinson became so enthusiastic that he left his seat and stepped close to a furnace where metals were being subjected to a heat of 4000 degrees and inhaled gases.

Dr. Lange's description of his discovery reads like a page from the chronicles of any of the alchemists who have written of their theories since the days of the Arab Geber.

"Four years ago, while experimentng with a process for the reductionof the cost of making silver chloride used in dry-cell electric batteries." he said, "I ran across a wonderful secret. I discovered the means of increasing an atom of pure silver to 100 times itself in weight and of equal, if not

greater, fineness. "For four years I carried the se eret. It was so great that I did not dare believe it myself. Night and day or years I have demonstrated over and over again in my laboratory the wonderful process. I have taken base metals of four different kinds and successfully transmuted them from proportions of one part silver and ninety-nine parts of base metal into the resulting metal to New York City, Philadelphia, Boston and Chicago,

and in every case received a report from the assay that the substance assayed was true silver. I sent it to the analysts of the big silver-dealing. houses of the country and from them came word that the substance stood every test for silver and showed

traces, woll defined in each instance, of gold. "When Mr. Dickinson saw the transformation take place he was elated. He jumped to his feet, and insisted on looking into the furnace.

The gases arising from the furnace made him slightly ill. Before he left for his home Mr. Dickinson had agreed to invest his money in exploiting my discovery."

SEYLER ACQUITTED OF MURDER.

Jury Believed His Story of Jane Adams' Death.

Swift Parcels Post. . . . May's Landing, N. J.—After delib-erating five hours, the jury had reached a verdict of not guilty in the been reported to the Fostmaster-Genretire from legislative life during the case of William Seyler, accused of the eral. The package was placed in the murder of Jane Adams on the night | malls at Bremen, Germany, on May of February 4, at Atlantic City. 2. and delivered to the addresses at The court room was packed when the foreman, William McClurg, an-nounced the verdict of not guilty. Seattle, Wash., on May 14-twelve days. Taft Danced All Night. There was a burst of applause from the spectators. Seyler took the stand and asserted Dickson, Tenn .- At the eightieth General Assembly of the Cumberland that the girl had fallen off the Mil-Presbyterian Church the question of church federation was taken up, but no action resulted. The Rev. J. P. lion-Dollar Pier at Atlantic City by accident, and denied that there was Gill, of California, led the forces in opposition. He denounced President any struggle. He explained how he and his brother Orvis chanced to meet Jane and Alice Adams. He said that when they got to the Million-Dollar Taft as one he would not want to federate with; because, he said, "though he turned down the glass, he Pier they were too early for the moving-picture show they were to see and danced all night with a Mayor's decided to walk out on the pier. "It was very cold," said the acvife.' cused, "and I had no overcoat, so I suggested that we go back to the warm hall. Alice and Orvis, how-ever, said they wanted to walk around the pier, and Jane would not return without them, so we stood waiting for the couple near the wave Pope Sees Priest in Aeroplane. motor "I finally suggested to Jane that we go back into the hall to wait for the two, but she would not go. I started in and had gone only a short distance when I heard her call 'Alice' three times in a natural voice. I thought it was a shame to leave her alone out there and went back. "When I reached the wave motor she was not to be seen, nor have I seen her since, so help me Almighty God."
