But Lady in Christmas, Who Went to Bed With This Idea, Has Changed Her Mind.

...in a letter from Mrs. Lillie Gibson says: "About three years ago, I was just entering my second month and was sick in bed for some five months. I took medicines from four doctors, but it didn't help me. Now, I would have such a headache, I don't go to bed."

# POSTAL BANK SUCCEED

NEW INSTITUTIONS ARE FAST EXPERIMENTAL STAGE—A FINE SHOWING.

HITCHCOCK ENTHUSIASTIC.

The United States Postal Bank's Record For First Month Better Than British Postal Banks in Their Best Year—Deposits Reported.

Washington—"If the necessary appropriations were available, I would establish postal savings banks at once in five hundred additional cities and towns of the United States."

This statement was made by Postmaster General Hitchcock in view of reports thus far received concerning the first month's operation of the postal savings system. The reports are most gratifying to Mr. Hitchcock and to the other officers of the postal savings service. They are regarded as demonstrating that the new system already has passed the experimental stage.

The certificate of deposit plan, which is an innovation in the transaction of postal savings business, is shown to be admirably adapted to its purpose. It is found to be readily understood by depositors and easily handled by postmasters.

The total deposits in the forty-eight existing postal banks for the month of January will amount to approximately \$66,000. This is an average of about \$1,300. Assuming that this average will be maintained throughout the year, the aggregate of annual deposits will be close to three-quarters of a million dollars. This, too, will be the situation in the small offices, where the banks now are in operation. It is assumed by the officers of the system that the deposits will be correspondingly greater when the service is extended to first-class offices.

The average amount of deposits being received at each office, as indicated by the January returns, is larger than the corresponding average for the British system of postal savings depositories in 1908, the most successful year in the history of that system.

A large majority of the depositors in January were foreign-born Americans, many of whom have been in the habit of sending their savings to their native countries for deposit. An important result of the system, therefore, is to diminish the outflow from the United States of such funds.

In view of the successful operation of the new system during its first month, Postmaster General Hitchcock has recommended to the Congress the appropriation of \$1,000,000 to be immediately available for the extension of the postal savings system to a considerable number of postoffices, the patrons of which are clamoring for the new banks.

**CHAMP CLARK OPTIMIST.**

The Old World is Growing Better as Time Passes. Declaring that he is an optimist, and that he believes the world is growing better, Representative Champ Clark of Missouri, Speaker-elect of the next House of Representatives at Washington, delivered a message "of hope and courage" in an address before the Young Men's Christian Association here.

Among other things Mr. Clark said: "Thanks be to Almighty God, wars are becoming rarer and rarer. One thing which the flying machine will accomplish will be to put an end forever and forever to all wars. Lotteries have been stopped. Institutions for preservation of morals, relief of human sufferings, for perpetuity of our institutions are springing up on every hand. The idea of reformation of criminals rather than their punishment is taking a deep hold on the minds of men. There is more money today devoted to charity per capita than ever before! Controversial religion has passed and practical religion is at hand. The masses of the people are waking up to the fact that politics should be purified, demanding primary reforms."

**A "Friendly Match."**

I speak of a "friendly match," not at all forgetting that dictation of the old Scot to whom his opponent, breaking some trivial rule, said: "I suppose you won't claim that in a friendly match?" "Friendly match!" was the reply. "There's no such thing as golf!"—London Telegraph.

**Great Baseball Play.**

"What was the greatest baseball play you ever saw?" asked a friend of Governor-elect John W. Tener. "The greatest play I ever saw," said he, "took place in an amateur game on a town lot at Charleroi. The teams were playing on a wet field and an outfielder who wore a derby hat went after a high fly. He came to a little pond and taking his eye off the ball made a jump to cross it. As he was leaping the ball struck him on the head, went through the crown of his hat and lodged there. The base runner was out and the fielder had not touched the ball with his hands. Can you beat it?"—Washington Correspondence Pittsburg Dispatch.

Danville Judge Orders Prosecutor to Answer All Questions Put by Jury in Bribe Quiz.

Danville, Ill.—Judge Kimbrough in the circuit court handed down a decision in the case of City Attorney Jones, who declined to answer certain questions regarding vote selling and buying which the grand jury put to him.

The court instructed Jones to answer all questions. The opinion stated that, according to a decision of the Supreme court of the United States, a witness before the grand jury is immune from indictment. The court also held that the city election law is unconstitutional, which means that Jones cannot be questioned about happenings more than eighteen months ago.

This means that the investigation will continue until all the witnesses now summoned are examined. It is said that many indictments have been voted, but whether they are for vote selling is not known.
