Camden, S. C., Nov. 3, 1911.

Find the best newspaper in your community—and use it for all you are worth to help build up your business. Then use other newspapers if you can afford to. Use them all if you can—but use the best one first.

The Fair opens Wednesday.

Some one has presented the Lancaster News force with ripe blackberries and the editor of The News is happy.

Help swell the crowd at the County Fair next week. Lend your presence and make the attendance a record breaker.

President Taft has issued his annual Thanksgiving proclamation. Thursday, the 30th day of November is the day set apart to be observed.

Hon. W. B. deLoach, of Camden, has been appointed judge to preside at a special term of court to be held at Barnwell next week. This is quite a compliment to our fellow townsman and a well deserved tribute to his ability as a lawyer and jurist.

J. Otis Hull, who has been editing the Rock Hill Herald, will assume the editorship of the Chester Lantern, the Herald having been purchased by a stock company who will change it to a daily. Editor Caldwell goes to Columbia to take charge of the Charleston News and Courier bureau.

The Chronicle is in receipt of a communication signed by a number of citizens, reflecting upon the character of others, with the request that we publish same. The columns of a newspaper is no place to air these differences and the public at large are not interested, hence, we cannot publish it as reading matter or even as a paid advertisement.

Senator Tillman does not think Chief Justice Jones can defeat Governor Blease. Speaking of the article published in another column of The Chronicle today, Senator Tillman says: "In today's Chronicle your correspondent, Mr. McWhorter, has fallen into a serious mistake or omission. He makes me say 'if he (Jones) does that and makes his fight on Blease's record, he will win.' I went on to say and I now repeat that as the record now stand under the indictment as drawn by the newspapers, I do not believe Jones or any one else can defeat him. Something new and disgraceful must be brought out which will shock the people and arouse State pride."

**INDUSTRIAL EDITION.**

The last issue of the Darlington News and Press was a beauty. It contained 48 pages and was the Trade and Industrial Edition. From a typographical standpoint the big paper was perfect. This edition was probably the largest and most complete ever attempted by any county weekly in the state, and contained many page and double page ads of Darlington's live and progressive merchants—"the men who do things." The big paper is profusely illustrated and contained a mine of valuable information which will enable outsiders to get a clearer understanding of Darlington and her county. The publishers are to be congratulated on the success of the edition.

**AN ENCOURAGING SIGN.**

For time immemorial people have twice a year been subjected to a very great but unnecessary and useless danger from fireworks at Christmas time and the 4th of July. Many fatal and serious accidents have occurred by this custom, and why it should have been so long tolerated is a mystery. We see a hopeful sign, however, in that Columbia's excellent Mayor has thus far ahead issued peremptory orders forbidding the use of fire works of any kind within the city limits during the Christmas holidays, and we trust the example will be followed by the city officers of Camden. The following article on the subject is from the Columbia Record:

"The use of fireworks in celebrating the Christmas season will not be allowed in the city limits. This was the positive edict from Mayor Gibbs Wednesday morning. The announcement was made early so that merchants who deal in the festive explosives might not purchase

stocks for the holidays and sustain a loss on account of the ruling by the mayor, who is head of the police department.

"Mayor Gibbs does not desire to abbreviate the joys or festivities of the holiday season, and he is also a friend of the small boy, but there is a serious side to the fireworks question which he has decided to settle safely and sanely. The stern ruling of a court judge is that if a council allows an ordinance to be suspended in whole or part, liability for damages resulting is placed upon the city. Should the shooting of fireworks be allowed in back yards or side streets, as has been the case, and a fire results, the city could be sued and a verdict to cover loss would result.

"The booming of cannon crackers and the whizz of the rocket through the night air is gradually losing popularity. During the past ten years there has been a considerable decline for fireworks, as people are awakening to the keen danger to life and property that lurks in every charge that is exploded in a celebration. The deadly tetanus germ—the cause of lockjaw—lies in paper caps for pistols and many a bright youngster has met an untimely end while enjoying himself with fireworks on Christmas or the Fourth of July."

**A PLEA FOR THE MINISTERS.**

Anent the Avis Linnel affair the Columbia State thus editorially remarks:

"Original sin" is in preachers of the Gospel as well as in other men. A clever, cultivated and popular young minister of New England is in jail, accused of killing a girl with whom he is said to have had illicit relations. Why, in most instances, when a minister falls, is there a woman in the case?

"Original sin in its assertion takes the line of least resistance. The conventions preclude the clergy from the open indulgence of most vices and secret indulgence in them is impracticable. The minister dare not 'sit in' a poker game; he can not frequent the race course and bet on the 'ponies'; his behavior, in the public eye, must be circumspect or he will be unfrocked.

"The minister's profession commands confidence. It necessitates friendly and intimate association with woman-kind. If the minister's abuse of his station is peculiarly iniquitous, it is fair to remember that the temptations to which he is subjected are sometimes extraordinarily intense."

**REMBERTS NEWS ITEMS**

Remberts, Nov. 1.—The heaviest fall of water in a year fell here last Friday afternoon and night. And another yesterday evening and night. These rains have damaged cotton and peas very much.

It seems that every effort to get a better price for cotton only results in it going lower and when the crop is all sold there wont be any profit to the man who raises it. The cost of raising it will have to be less or many people can't afford to plant it.

Pisgah church has been moved back from the road and will be remodeled at considerable expense.

B. C. DuPree and J. D. Evans went to Columbia today to take in the Fair.

Lee County Union had a very interesting meeting last Saturday and Sunday. The next meeting will be at Pisgah church.

There is much chills and fever about. What causes it no one knows. It did not used to be in this section. Outside of this the health of the people is good.

**Indian Aristocracy.**

Among the guests at an Indian dance were Mr. and Mrs. Walsingham Kick-a-hole-in-the-Tepee, Misses Gwendolyn and Cleopatra Buffalo-Fat, Miss Hayzelle Saw-the-Bear-Go-into-a-Hole and her brother, Algernon, and Charley Fell-Off-the-Bridge, and his sisters, Claudia and Penelope.—Washington Post.

**Appeal for Native Talent.**

A New York hotel man, who has just returned home after scouring Europe for cooks, complains that they are a scarce commodity abroad. The condition is one for which hotel men themselves are largely to blame. Why don't they encourage native talent in the cooking line instead of filling their kitchens with foreigners?—Rochester Democrat and Chronicle.

**Constant Supply of Gas.**

Near the Caspian sea there are fissures in the earth from which natural gas is perpetually emitted. In some cases this gas has been ignited and has burned for ages.

**Daily Thought.**

Ideals are like stars; you will not succeed in touching them with your hands; but, like the seafaring man on the desert of waters, you chase them as your guides, and, following them, you reach your destiny.—Carl Schurz.

**Havoc Wrought by Beast Creation.**

Even in thickly peopled communities man has not yet subdued the beast creation. In India last year wild animals and poisonous serpents killed 25,000 persons. The number of cattle killed by the denizens of the jungles was 93,000. The natives, in turn, slew something over 100,000 elephants, tigers, leopards, bears, wolves, hyenas and other animals, including 91,000 snakes.

**Coming of Autumn.**

Sometimes autumn may be perceived even in the early days of July. There is no other feeling like that caused by this faint, doubtful yet real perception, or rather prophecy, of the year's decay, so deliciously sweet and sad at the same time.—Nathaniel Hawthorne.

**Man's Independence.**

No iron chain nor outward force of any kind could ever compel the soul of man to believe or to disbelieve; it is his own indefeasible right, that judgment of his; he will reign and believe thereby the grace of God alone!—Thomas Carlyle.

**Man's Period of Foolishness.**

Of all literary compositions the love letters of men contain the maximum of twaddle and the minimum of sense. The only explanation is that every man in love tries to become a poet.
