It Takes No Lengthy Argument

To convince you that we are well equipped to turn out the very highest grade of Printing. A visit to our up-to-date shop and see the many labor-saving devices in operation will suffice.

We clip the following from the Linotype Bulletin, a magazine published in the interest of linotype operators and owners. The article appeared under the heading "Among the Master Printers," and **THEY KNOW:**

"Every issue of the Camden (S. C.) Chronicle is a gem typographically, due to the excellent use made of the Junior Linotype throughout the eight pages of an all home print newspaper."
