**OLIVER**  
Typewriter

The Only Writing Machine  
in the World that Success-  
fully Typewrites Print.

**17 Cents**  
**A DAY**

The Printype Oliver Typewriter, which has crowded ten years of typewriter progress into the space of months, is now offered to the public for 17 Cents a Day!

Offered at the same price as an ordinary typewriter—payable in pennies!

The commanding importance of Printype is everywhere conceded.

For who does not see what it means to make the world's vast volume of typewritten matter as readable as books or magazines! The Printype Oliver Typewriter is equipped with beautiful Book Type, such as is used on the world's printing presses.

Printype is distinguished by marvelous clearness and beauty. It does away with all strain on eyesight which the old-style outline type imposes. Printype put life and style and character into typewritten correspondence. It makes every letter, every numeral, every character, "as plain as print."

The complete story of Printype has never before been told. Here it is:

**The Real Story of PRINTYPE**

The idea from which "Printype" sprung resulted from the success of our type experts in equipping a typewriter used in our offices to write "The Oliver Typewriter" in our famous trade mark type just as the name appears on the outside of the machine and in all Oliver publicity.

The beautiful appearance and the marvelous clearness of the reproduction of our "ebony" trade-mark type, disclosed the possibilities of equipping The Oliver Typewriter to write the entire English language in shaded letters!

We worked for years on the plan and finally succeeded in producing, for exclusive use on The Oliver Typewriter, the wonderful shaded letters and numerals known to the world as "Printype."

**The Public's Verdict**

That the public is overwhelmingly in favor of Printype is impressively shown by this fact:

Already over 75 per cent of our entire output of Oliver Type writers are "Printypes."

The public is demanding Printype in preference to the old-style type.

Within a year, at the present rate, 90 per cent of our total sales will be "Printypes."

Thus The Oliver Typewriter, which first successfully introduced visible writing, is again to the fore with another revolutionary improvement—Printype, the type that prints print!

**To Corporations:**

The Oliver Typewriter is used extensively by great concerns in all sections of the world. Our "17-Cents-a-Day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations, but prefer the easy system of purchase.

The masses want The Oliver Typewriter because it stands the test of the largest corporations.

**DEMOCRATS MUST BE ALERT**

National Chairman McCombs Calls Attention of Wilson Supporters to Necessity of Meeting This Unjust Attack.

Democratic National committee, New York, Oct. 15, 1912.

My Dear Democratic Friend and Co-worker:

The success of the Democratic ticket on Nov. 6 is dependent wholly upon the activities of you loyal working Democrats. And we are depending upon you with absolute confidence. I know that the responsibilities are heavy, but I further know that the results will justify this confidence which we place in you. The way to attain the most effective results is to have each voting district so thoroughly organized that every Democratic voter will be brought to the polls on election day and will vote the Democratic ticket. When elections are lost to the Democrats it is generally because the Democratic vote has not been brought out. Will you surely see to it that all your Democrats vote this year?

Senator Gore, who is chairman of the organization bureau of the national committee, is delighted and enthusiastic about the way the real Democratic workers are getting into the harness, and he feels this same dependence and confidence in you.

"Wolf! Wolf!"

I take the liberty of calling your attention to a line of attack on us that is being used by the Republicans, and I urge you to guard against and to counteract in your district. They are raising the false and wholly unfounded charge that Democratic success will mean business depression. To show you one way in which they are attempting this line of fooling the voters I quote a few sentences from a letter recently got out from their Chicago headquarters which they are now sending the business firms:

"The campaign now in progress has a direct personal interest for you. Upon its result depends the maintenance of the present business prosperity which the country is enjoying. Why sacrifice present prosperity for uncertainty and depression, which a tariff for revenue only would certainly bring?"

That these suggestions are wholly false and are wickedly made to fool the people is evidenced by the fact that with the election a short time off and with almost every reader and thinker and political observer believing that Wilson and Marshall will be elected, yet practically every line of business is showing extremely marked activity. The railroads are placing heavy orders for new rails and equipment, and their earnings are running ahead of last year by many millions of dollars monthly, wholesale houses are having tremendous demands for goods, the steel mills and factories are full of orders, and bank clearings show heavy gains all over the country. This intense business activity is due to the fact that the business world knows Governor Wilson will do just what he says he will do. His record is one of complete fulfillment of his promises. All well posted business men know that Governor Wilson's election will help rather than disturb business, because they have absolute confidence that he means every word of it when he says:

"WE DON'T WANT TO DISTURB THE INDUSTRY OF THE COUNTRY. \* \* \* THE CHANGES (IN THE TARIFF) WHICH WE MAKE SHOULD BE MADE ONLY AT SUCH A RATE AND IN SUCH A WAY AS WILL LEAST INTERFERE WITH THE NORMAL AND HEALTHFUL COURSE OF COMMERCE AND MANUFACTURE."

To Fool the Voter.

I call your special attention to the fact of these evident conditions of heavy business in the face of the very apparent election of Wilson and Marshall. What does this mean? Simply that the legitimate business world knows that the election of the Democratic ticket means continual and unprecedented prosperity, yet in spite of this the Republican managers make this wicked attack, which, if it has any effect at all, can be only to fool the voters and to create worry and hardship in the minds of some of the people where there is no basis for any feeling except that of happy anticipation of better things to come when our candidates are elected.

Give special attention to this line of attack in order that you may meet it and overcome its effects. They are writing these letters, putting their advertisements in the papers and magazines and on the billboards with the unholy purpose of falsely scaring people into voting the Republican ticket.

Please let me know at once if these attacks are having any influence among the people or in any of the communities where you have had occasion to observe.

I myself and the national committee want to co-operate with you, and we want you to help us bring about the greatest Democratic victory this country has ever seen. We do this with the full knowledge that Democratic victory will mean greater business prosperity, greater demands for wage earners and greater opportunities for every person in our nation, with the exception of those who are now enjoying special and unfair privileges under the law. Sincerely yours,  
WILLIAM F. M'COMBS,  
Chairman Democratic National Committee.

**NUGGETS FROM WOODROW WILSON'S SPEECHES.**

The Republican party doesn't propose to change any of the essential conditions which mark our present difficulties.

Mr. Roosevelt proposes in his platform not to abolish monopoly, but to take it under the legal protection of the government and to regulate it, to take the very men into partnership who have been making it impossible to carry out these great programs by which all of us wish to help the people.

We don't want to disturb the industry of the country, but to destroy the control over the industry of other people which these men have established and which makes it impossible that we should give ourselves a free field of service.

Tariff schedules have been made for the purpose of keeping as large a number as possible of the rich and influential manufacturers of the country in a good humor with the Republican party which desired their constant financial help.

The Republican party has practically fostered the trusts. The Democratic party proposes to prevent monopoly, and the third party proposes to take monopoly into partnership with the government by accepting it as an inevitable necessity and bringing it under the regulation of law, making it a legalized institution.
