

Make Your Dreams Come True

The next few days—up until January 4th, will go a long way towards settling the question whether you will ride in your own automobile or continue to stand on the curb and watch the cars go by. The next few days will show whether you are going to justify yourself in the opinion of your friends. These are going to be influential days—days that will show these friends of yours whether their judgement was good, bad or indifferent when they selected you among all their friends as the most ambitious and energetic.

**25,000 EXTRA
VOTES
FOR Balance of
This Month**

Here is the greatest opportunity of the contest to pull yourself together and get in the winning class. It is practically the next ten days or never with you. If you don't do something during opportunity time; if you don't work your very hardest; if you don't make your time worth something to you during the balance of opportunity time, then you are not the sort of stuff your friends thought you were—you are not energetic folks—you are not up to their standard of energy—you have fallen short in their estimation.

The 25,000 extra vote offer will close promptly at eight o'clock Saturday, January 4th. This is the offer that will enable you to get in the driver's seat and place your name on the license register. This offer will not be repeated nor will the time be extended.
