ALFALFA

Alfalfa should be grown on every farm. Make a beginning—start now.

ALFALFA ENRICHES THE LAND

Besides Producing More Abundant Harvests Alfalfa Adds Plant Food to the Soil for the Use of Other Crops.

Alfalfa enriches the soil. The roots of the alfalfa plant penetrate 12 to 35 feet into the soil—far beyond the reach of corn, wheat, oats and other shallow rooting plants. In this way potash, phosphorus and other elements of plant food are drawn up from below through the roots of the alfalfa plant and stored in the upper soil for the use of other crops. The experiment set forth in the accompanying chart was made in Canada, where it was found that alfalfa

Alfalfa Enriches the Land

Wheat	Bu. Per Acre
Alfalfa Sod	61.5
Timothy Sod	42.
Barley	
Alfalfa Sod	30.
Timothy Sod	20.
Corn	
Alfalfa Sod	24.
Timothy Sod	18.

sod yielded 61.5 bushels of wheat per acre, as compared with 42 bushels on timothy sod.

Barley yielded 30 bushels per acre on alfalfa sod, and only 20 bushels on timothy sod. Canada is not a corn country, yet the experiments show similar results. Alfalfa sod yielded 24 bushels per acre of corn, as compared with 18 bushels on timothy sod. This is only one of many such experiments which give the same results, proving alfalfa to be a soil enriching crop.

ALFALFA MOST VALUABLE CROP.

Per Acre Value Five Times More Than Clover—Some Wisconsin Census Figures Which Talk for Themselves.

According to the 1910 census of the hay crop, the state of Wisconsin grew 18,000 acres of alfalfa, which averaged 2.8 tons per acre for the entire state, and the average acre value of the crop was \$31.00. During the same year the combined acreage of timothy and clover averaged 1.6 tons per acre, valued at \$14.00. It costs no more to grow an acre of alfalfa than it does to grow an acre of timothy or clover. The average cost of growing an acre of clover or timothy is approximately \$10.00. Thus the farmer would clear \$4.00 per acre in growing these crops, whereas if he grew alfalfa he would make a profit of \$21.00 per acre, or

Alfalfa Most Valuable Forage Crop

Wisconsin Hay Crop, 1910

	Acreage	Average Yield Per A.	Value Per A.
Alfalfa	18,000	2.8 Tons	\$31
Timothy	767,000	1.4 "	14
Clover	119,500	1.7 "	14
Timothy and Clover	1,600,000	1.6 "	14

over five times the income received from any one of the other hay crops. The latest reports from Wisconsin show nearly 40,000 acres seeded to alfalfa with an average of about four tons to the acre.

ALFALFA RICH IN PROTEIN

With 12.3 Per Cent. of Digestible Protein, Alfalfa Surpasses Even Wheat Bran in Feeding Value.

Alfalfa has high feeding value, as shown by the chart below, taken from California Bul. No. 132. This is due to its digestibility and its composition. Alfalfa is rich in digestible protein which is the bone and muscle building element. It is also rich in ni-

ALFALFA RICH IN DIGESTIBLE PROTEIN

	%
ALFALFA	12.3
WHEAT BRAN	11.2
OATS	9.5
CORN	7.5
CLOVER	7.5
TIMOTHY	2.5
CORN FODDER	2.5
CORN SILAGE	1.3
OAT STRAW	1.2
WHEAT STRAW	.4

trogen, the component of protein, but protein is the costly food element. It is absolutely necessary for the production of milk and for young growing animals. Pigs will starve on corn alone. All animals must have frame building food as well as fat producing food, such as corn. Alfalfa with corn makes a perfectly balanced ration, supplying the animal with an abundance of bone, flesh and fat giving material.

CITATION.

State of South Carolina, County of Kershaw.

By W. L. McDowell, Esquire, Probate Judge.

Whereas, Mrs. Ellen L. Pearce, made suit to me, to grant her letters of administration of the estate of and effects of B. M. Pearce, Jr.

These are therefore to cite and admonish all and singular the kindred and creditors of the said B. M. Pearce, Jr. deceased, that they be and appear before me, in the Court of Probate, to be held at Camden, S. C., on August 15, next, after publication thereof, at 11 o'clock in the forenoon, to show cause, if any they have, why the said Administration should not be granted.

Given under my hand, this 2nd day of August, A. D., 1913.

W. L. McDowell,

Judge of Probate for Kershaw Co.

Published on the 8th and 15th days of August, 1913, in the Camden Chronicle and on the Court House door for the time prescribed by law.

NOTICE TO DEBTORS AND CREDITORS.

All parties indebted to the estate of P. W. Gallagher, deceased, are hereby notified to make payment to J. W. Barry, attorney at law, Charlotte, N. C., and those having claims against the said estate will present them duly attested to

J. W. BARRY, Qualified Executor of the Estate of P. W. Gallagher, Charlotte, N. C. Camden, S. C., Aug. 2nd, 1913.

More than 30,000,000 sticks of gum is the annual output of American factories. All this is made of chicle.

COLLEGE OF St. Genevieve

FOR YOUNG LADIES.

Asheville, North Carolina. Located in "Land of the Sky," 3,000 feet above sea level. Unsurpassed climatic conditions, with mild winters.

Trains 17, 18, 15, 36 local trains between Columbia and Hamlet, connecting at McBee with the South Carolina Western Railway. Trains 1 and 3 through trains for the South. Trains 4 and 2 through trains for the East. For detailed information and Pullman reservations call on local agent or write C. B. Ryan, G. P. A., Norfolk, Va.; C. W. Small, D. P. A., Savannah, Ga.; or J. S. Etchberger, T. P. A., Columbia, S. C.

NEW SEABOARD EQUIPMENT.

Modern in Every Respect And Equipped With the Very Best.

The Seaboard Air Line has placed in service on all through trains the handsomest sleepers ever built. The cars are induive to cool traveling as well as to safety. Paddle fans really cool the passengers without buzzing. The tile floor is cool, sanitary and does not contain odors as carpets do. The sunken electric lights give sufficient light without being glaring, and the ventilation of these modern cars removes the sting of summer. The service is a la carte, offering the best the market affords.

In addition to this, they have also put in service new steel coaches, elaborately finished which makes them the pioneers in solid steel trains operating in the South.

For full information relative to Seaboard schedules, etc., write C. W. Small, Div. Pass. Agent, Savannah, Ga. 11-18

MONEY TO LOAN.

On improved farms. Easy terms. Apply to B. B. Clarke, Camden, S. C. 50.

A polar bear in the Central Park, New York, menagerie is very fond of gundrops.

Wood's High-Grade Seeds.

Crimson Clover

The King of Soil Improvers, also makes splendid fall, winter and spring grazing, the earliest green feed, or a good hay crop.

CRIMSON CLOVER will increase the productivity of the land more than twenty times as much as the same amount spent in commercial fertilizers. Can be sown by itself or at the last working of corn, cotton or other cultivated crops.

We are headquarters for

Crimson Clover, Alfalfa, Winter Vetch, and all Farm Seeds,

Write for prices and Descriptive Fall Catalog, giving information about all seeds for fall sowing.
