

THE CAMDEN CHRONICLE

H. D. Niles and
E. N. McDowell, Publishers.

Published every Friday at 1109 No. Broad Street, and entered at the Camden postoffice as second class mail matter. Price per annum \$1.00.

We are glad to receive communications of a reasonable length, but an important condition of their publication is that they shall in all cases be accompanied by the full name and exact address of the sender. Objections, resolutions of respect, and church notices will not be charged for. Matters of purely a personal nature will be charged for at the rate of five cents a line. Whiskey or patent medicine advertisements will not be accepted at any price. Rates for display advertising made known on application.

Camden, S. C., October 8, 1915.

Is Advertising Expensive?

Advertising that is regarded by the advertiser as an expense is just that. There is something wrong with it. Nine times out of ten the copy has a charley-horse. Its so weak it couldn't move itself let alone move others. And whose fault is that? Advertising's? Not on your life. Its the fault of the man who is paying for the advertising. Go to his store, and the chances are that you will find it slowly expiring from dry rot. The goods will be dusty and neglected. Even the boss will have a frown, and the frown never attracts buyers. Life is too short to waste with the wooden faces. It isn't the advertising that's expensive, its the lack of push that's behind the failures.

GOOD FOR CHARLESTON.

Good for the grand jury! That is the sentiment which echoed all over Charleston yesterday when the fluting of twenty-two true bills against alleged blind tigers became known. It will be re-echoed from all parts of South Carolina, because there is good reason to hope that the action of yesterday really marks the beginning of a new era. Judge Mendel L. Smith, whose ringing charge to the grand jurors regarding their duty made a deep impression upon all who heard it, spoke for a great body of citizens when, following the finding of the true bills, he warily congratulated the grand jury upon what it had done. It is not simply that twenty-two per-

sons are to be placed on trial charged with violating the liquor laws which makes what happened yesterday so deeply significant. The significance lies in the fact that at last a smashing blow has been dealt to the dangerous view, long sedulously encouraged in this community, that a class of lawbreakers ought to be shielded because the law which they defied was not what the community as a whole thought best. We believe that the new attitude of the Charleston County grand jury is fairly representative of the changed attitude of the community toward this class of lawbreakers. At last the intelligent citizenship of Charleston has come to see that the illicit liquor sellers had constituted themselves a burden upon the community which was more than it could carry. They have kept us back for years, and we are convinced that satisfaction is general at the results of the campaign being waged against them by Governor Manning and now to be followed by prosecution in the courts.

What the grand jury did yesterday was in a way the best day's work for Charleston which has been done in years. It definitely destroys the vicious and humiliating tradition that no Charleston County grand jury would consent for illicit liquor sellers to be put in jeopardy of the chain-gang.—Friday's Charleston News and Courier.

Capt. R. M. Gaffney, one of the most prominent citizens of Gaffney, was found dead in his bed Saturday morning. Heart failure is supposed to have been the cause of his death.

Mayor C. E. Danner and Councilman W. F. Marscher of Beaufort, won the recall election which was held in that town by a vote of 144 to 75. There were 358 white votes and 66 negro votes cast in the election. Practically the whole of the negro vote was cast against the recall. The election was orderly and the result was accepted quietly. This is the end of a political fight which has been in progress for several months in Beaufort.

Rev. J. B. Bozeman has resigned his position with the Connie Maxwell orphanage, Greenwood, to take an interest in the Times, a newspaper published in Union.

Attorney General Peebles has been elected vice president of the Association of Attorney Generals.

WRITES TO SHERIFFS

About Law Segregating Races in Cotton Mills and Other Corporations.

Columbia, S. C., Oct. 2.—The following letter was addressed to day to the sheriff of each county in South Carolina: "Dear Sir:—I desire to call to your attention the following Act of 1915, approved by me on February 16th, 1915. I do not know whether or not this Act is being violated in your county, but merely call same to your attention in order that you may be on the lookout and see that same is enforced. I feel that it is of vast importance that our white citizens shall not be forced to work side by side with negroes, and that every precaution should be taken that the two races do not come into contact with each other any more than possible. I shall co-operate with you in the enforcement of this and all other laws on the Statute Books.

Section 1. Separation of employees of different races provided for—Equal accommodations. Be it enacted by the General Assembly of the State of South Carolina, That it shall be unlawful for any person, firm or corporation engaged in the business of cotton textile manufacturing in this State to allow or permit operatives, help and labor of different races to labor and work together within the same room, or to use the same doors of entrance and exit at the same time, or to use and occupy the same pay ticket windows or doors for paying off its operatives and laborers at the same time, or to use the same stairways and windows at the same time, or to use at any time the same lavatories, toilets, drinking water buckets, pails, cups, dippers, or glasses; provided, equal accommodations shall be supplied and furnished to all persons employed by said person, firm or corporation engaged in the business of cotton textile manufacturing as aforesaid, without distinction to race, color or previous condition.

Section 2. Penalty for violating this Act.—Any firm, person or corporation engaged in cotton textile manufacturing violating the provisions of this act shall be liable to a penalty of not over one hundred (\$100.) dollars for each and every offense, to be recovered in suit by any citizen of the county in which the offense is committed and to be paid to the school fund of the district in which offending textile manufacturing establishment is located.

Section 3. Act not to apply to certain employees.—This Act shall not apply to employment of firemen as subordinates in boiler rooms, truckmen, or to floor scrubbers and those persons employed in keeping in proper condition lavatories and toilets, and carpenters, mechanics and others engaged in the repair or erection of buildings.

Section 4. Immediately effective.—This Act shall take effect immediately upon its approval by the Governor. Approved the sixteenth day of February, A. D., 1915.

I shall be glad to hear from you from time to time advising as to the progress you are making in the enforcement of law in your county.

Very truly yours,
Richard I. Manning,
Governor.

It is stated that the Arabic "settled in ten minutes." Wish some of our dear delinquent subscribers would follow suit.—Barwell People.

A gentleman in Union paid a small debt the other day. In less than an hour it had gone to a creditor of the man he paid, and in another hour was on its way to pay a debt to the man first named. It is astonishing how many times a dollar will pay a debt, each time going to a different man.—Union Times.

According to a condensed statement of the condition of the banks of the state made by Examiner Mauldin, there is more than 54 million loaned by the banks more than 36 million on deposits and only about 10 million borrowed by the banks.

Kershaw News Notes.

Mr. and Mrs. W. U. Clyburn have issued invitations to the marriage of their daughter, Ada Jocoska, to Mr. William Samuel Britt, to occur at Kershaw, Oct. 20th, at home.

Last Saturday was another busy day in Kershaw. Four hundred and thirty-eight bales of cotton were sold here, each weighing weighing the same number of bales, viz: 219 bales. The ruling price paid was 12.08. Several bales sold as high as 12.30. While the larger portion of the money represented was applied to the payment of debt, there was also brisk trading and the Kershaw merchants had a good day.

The school at Abney began its fall term Monday morning with Miss Louise Crouch, of Leesville, in charge as principal. Miss Crouch is boarding at the home of Mr. and Mrs. D. M. Kirkley.

Miss Rosalie Kirkley, of the Abney section, left last Friday for Bamberg county, where she will teach school near Ehrhardt.

Cake and cream will be served Saturday night at the home of Mr. and Mrs. B. F. Roberts for the benefit of Buffalo church.

Attorney E. L. Williams of counsel for Jas. H. Watson, charged with the killing of Walter Sowell, colored, appeared before Associate Justice A. S. Hydrick in Columbia last Thursday in an application for bail for Mr. Watson, which was granted in the sum of \$2,000. Solicitor Cobb consenting. Mr. Watson gave bail Friday and returned home Friday night from Camden, where he had surrendered to Sheriff Huckabee of Kershaw county.

Miss Doela Outen and J. C. Hunter, Jr., were married Sunday by Magistrate B. N. Jones at his home, south of Kershaw.—Kershaw Era.

A \$1,000,000 PURCHASE.

Sumter Concern Sells Its Plant and Valuable Patents.

The purchase for \$1,000,000 of the Sumter Electrical Company of Sumter, S. C., by the Spiltdorf Electrical Company of Newark has been closed, it was announced Monday last at the office of the Spiltdorf concern in Newark.

The Sumter Company was purchased, officials of the Spiltdorf Company said, to enable the Spiltdorf concern to use the Dixie magneto in a certain type of gas engine. Hitherto the concern has manufactured only high-tension magnetos for use on automobile and aeroplanes. From now on, however, it will produce low-tension magnetos such as are used on stationary, marine and tractor engines.

In the purchase of the Sumter Company are included all the rights to the basic patents of the Dixie Magneto, which was invented by Charles T. Mason, President of the Sumter Company. These patents, it was asserted, practically control the low-tension magneto field and are the most valuable single item transferred by the purchase.

The Gulf Coast Storm.

New Orleans, Oct. 3.—Scores of relief vessels despatched from almost every point along the Louisiana and Mississippi gulf coasts today were searching the storm-stricken district where hundreds of persons were reported marooned and without food as a result of Wednesday's hurricane. The list of known dead still stood at 202 early tonight but it was believed that the total death list will be above 300 as more than 100 persons are reported as missing. Refugees were arriving on every boat, bringing with them stories of hardship and suffering. In nearly every instance they were being landed with no belongings other than the clothes they wore. Most of them were penniless. Committees in charge of the rescue work were still sending out vessels with supplies as rapidly as boats could be obtained and it has been arranged to forward large quantities of food and clothing to central supply stations to be established throughout the stricken area. Conditions in New Orleans were being improved rapidly. Telegraph and telephone companies today had succeeded in running nearly a score of wires into New Orleans from points where interrupted communication had been maintained through the storm. The cotton and other exchanges which ceased operations Wednesday when telegraphic communication with the outside world was interrupted, will resume trading tomorrow, it is said.

BLIND TIGERS CAPTURED.

Thirty-Nine True Bills Returned in Charleston Last Week.

Columbia, Oct. 2.—As evidence of the effective work being done by the special constables sent to Charleston by Governor Manning for the purpose of enforcing the liquor laws, it is noted with a great deal of interest here that the Charleston County grand jury this week returned thirty-nine true bills out of forty indictments handed them by the acting solicitor, Wm. H. Grimbald, Esq., Judge M. L. Smith is presiding and his forceful, many charge to the grand jury on the question of law enforcement brought forth many complimentary remarks from law abiding citizens all over the state. Governor Manning is deeply gratified that the work he is attempting to do is beginning to bring forth such good results. Law enforcement and good citizenship go hand in hand.

THE COW AND HER PRODUCT.

Clemson College Weekly Notes For Farmer and Dairyman.

(These notes are prepared weekly by the Dairy Division of Clemson College which will be glad to answer any questions pertaining to dairying.)

Good dairy cows yield greater returns for feed consumed than either swine, sheep or beef animals.

A heavy milker is a very hard worked animal and must possess a strong constitution.

The most reliable testimony in a bull's favor is the satisfactory performance of his offspring.

Skimmed buttermilk is the equal of natural buttermilk in practically every important respect.

An abundance of pure water is a prime necessity with a dairy cow. Where cows have no access to flowing water, they should be watered regularly morning and night.

Whenever possible, record the dates of service and calving. This enables a dairyman to avoid many mistakes that might prove costly.

Legumes should be grown on every dairy farm. Where a liberal quantity of rich legume hay is fed with corn silage, little grain or concentrates will be required.

Camden Cotton Market.

The highest price quoted on the Camden market for cotton yesterday was 12 1/4 cents. Not a great deal of cotton has been sold on the Camden market within the past few days owing to the rainy weather. We were told by a well known county man a few days ago that Camden buyers are not paying as good prices as either the Kershaw or Bishopville market and as a result many farmers living within a few miles of Camden are carrying their cotton to Kershaw and Bishopville. Just why this is we do not know, but it is a fact that Camden merchants are losing a great deal of trade by the price of cotton being lower than other towns.

Motocycles With Side Cars.

Washington, Oct. 4.—Postal regulations were modified today to permit the use of motocycles with side boloms by rural carriers under special authority from the department in each case.

He Married It.
"Do you believe that there is really something which can invariably tell when a man is lying?"
"I know it."
"Ah, perhaps you have seen one of the instruments?"
"Seen one? I married one."—The Pathfinder.

FOR SALE

We are offering 125 acres near the Antioch section of the county; 50 acres under cultivation, some timber. Good dwelling, tenant house and barns.

This entire farm with exception of about ten acres under substantial wire fence, being especially adapted to live stock raising. Price reasonable. Terms.
