Makes Initial Appearance.

Mr.W illiam Elliott, the famous young star of the legitimate stage, makes his initial appearance on the screen at The Majestic next Friday in the Famuos Players Film Company's artistic adaptation of the celebrated play, "When We Were Twenty-One," a five-part feature on the Paramount Program. Mr. Elliott will be remembered for his excellent characterization as the young attorney in "Madame X," who shared stellar honors in that famous production with Dorothy Donnelley, and who is at present starring in the great Broadway triumph, "Experience."

In the play in which Mr. Elliott is introduced to the motion picture public, the popular star portrays the memorable character of the fascinating every hedge be sprayed, or none will 'Imp," who by turns delights and shocks his guardians and his loving friends, during his whirlwind course through the drama. This strong and novel feature will remain at The Majestic only one day.-adv.

Keep Your Fowls Up. This office is plunged in profound grief over the death of Mr. Cohen, who was generally beloved and honored for his devotion to duty, his splendid qualities of character, and his quiet spirit of friend liness. Mr. Cohen is the son of W. B Cohen, of this city and before he came to The leeving Post staff, had been an instructor in history at the University of South Carolina. He was in is early twenties, cut off in the very flower of his promising young man hood. His death was the result of a deplorable accident, a sacrifice on the altar of duty.

Swat The White Fly.

Our hedges, flowering shrubs and evergreens, the glory of our city, are in danger of being destroyed by the dread white fly that has ruined many orange groves in Florida. Clemson advises us to take steps at once to ex-terminate the pests. Millions of eggs have already been laid in and on the leaves of plants. Our coldest weather will not kill the larvae and the first warm day in winter, millions of white flies will be hatched to feed upon our plants. Concerted action must be taken by every householder, the city, the Civic League and the tourists owning hotels and places.

No one property owner can eradicate them. All must work together and be saved. The Civic League will communicate with the Government and Clemson and do its part towards having a professional sprayer take charge of things. The cost of spraying, etc., will be little if any at all. White and colored will share the expense. If a citizen does not care to spray, then it will be necessary for him to dig up and burn his plants in order to save the rest of the hedges in the city.

The spray is made of crude petroleum and that alone has done much

Our "glory will have departed" if we ose our hedges and evergreens. December must find the spraying under way. Let us all work together in this matter at once.

"Swat the white fly" must be our Mrs. E. C. von Tresck w.
