High Soap Prices Arouse Interest in Home Made Soap

Women all over the country are saving money by making their own soap. Try this: First, set a large can or jar in your kitchen; throw into it all meat skin, waste grease, bones and other kitchen scrap that has any grease in it or on it. When the can or jar is full, render it (by boiling) and you will obtain enough clear grease to make a big batch of dandy soap, cheaper and purer than any you can buy.

With Grease and Red Devil Lye

You will find home soap-making so easy and economical that it will be a genuine pleasure. On the label of every can of Red Devil Lye are complete directions for making soap by the cold process or by boiling.

Anybody Can Make Soap

if they have Red Devil Lye and grease. Furthermore, soap making at home pays big because you buy nothing but Red Devil Lye—the other ingredients are actually saved out of the waste that you have been throwing away. You will find us every time you use Red Devil Home Made Soap.
