**WENSON ANNOUNCES.**  
Democratic Voters of the District I respectfully ask to be re-elected to Congress and agree to result of the Democratic election. I will not be able to attend the District because of the great important legislation growing war situation, but will be in the District when it is absolutely essential to be at their time. W. F. Stevenson.  
The disgrace of poverty is by discomfort.

**UPHOLD THE SCHOOLS.**

Attention is called to a notice from the Trustees and the County Board of Education inviting those interested in the welfare of the schools of this District (No. 1) to meet in the Court Room at 6:15 on Tuesday afternoon next, April 3rd. The object of this meeting is to consult about the conditions confronting our school system in this District. We are informed that an increase of revenue is essential in order to secure and retain desirable teachers, meet growing needs for more room and to keep in repair the buildings we now have.

The health of the pupils, as well as their education, is liable to suffer if we fail to furnish the proper space, ventilation, heating and sewerage, as well as more teachers. We must not delay in expanding to the increasing demands for school facilities and certainly should not be willing to fall behind in progress.

We trust that the call of the Trustees will not be overlooked or neglected.

**REPORT DISLOYALTY.**

**Who to Carry Your Complaints To In Case of Sympathy for Enemy.**

Columbia, April 23—Since the recent adoption by Congress of the sedition bill, the reporting of suspicious and disloyal acts or manifestations of sympathy for the enemy becomes more important, and the government must necessarily depend upon the loyal people of the nation to report such expressions and activities, forbidden by the new law, which come to their attention. Only in this manner may enemy propaganda be checked and the attention of the authorities directed to suspicious individuals.

It has been reported to the State Council of Defense that many people throughout the State fail to report suspicious cases coming to their attention for reason they have been uncertain as to whom to properly make reports. In every county there is a local chairman of the State Council of Defense. Reports of enemy activity or disloyal utterances made to the county chairman will be immediately reported to the intelligence division of the War Department, and all reported cases will be promptly investigated; or the report can be made direct to the intelligence officer, Headquarters Southern Department, Charleston, S. C.

It is the authority of intelligence officers that names of persons giving information will not be divulged and that there need be no fear, on the part of anyone, of embarrassment in case their suspicions prove to be unfounded, but informants should indicate the nature and source of their information, as well as being definite concerning time and place. No one is asked or expected to act as a spy or detective, but it is desired that all patriotic and loyal people be vigilant in the present crisis, and jealous of their country's cause and of their liberty.

The chairman for Kershaw county of the State Council of Defense is W. B. DeLoach, who will promptly forward to the proper officials any reports of enemy activity or propaganda made to him.

**THE SUGAR SITUATION.**

**Unless Used Sparingly There Will Not Be Enough For Canning Season.**

Columbia, April 24.—Unless there is a big saving of sugar from the present consumption, and unless every possible spoonful is saved during the next few weeks there will be hardly enough sugar for the canning season during the summer and early fall.

This statement is made by the Food Administration upon receipt of advices from Washington in effect that after considering the inventory of sugar in this country and the amount expected from Cuba, it is shown that even with fair conservation until the preserving season there will be hardly enough to supply the needs of the American people. To avoid a sugar famine, and at the same time to provide for the canning of fruits and vegetables, which must be preserved, it is of the utmost importance, says the Food Administration, that conservation of sugar be rigidly enforced and that conservation must be practiced in every possible way. The strictest economy and even slight shortages now may be necessary so that there will be no actual shortage during the canning season.

Retail dealers of the state will be instructed by the Food Administration to maintain the prescribed limits on sugar sales. Consumers residing in cities or towns must not buy more than five pounds at one time, and consumers in rural communities are limited to 10 pound purchases, or 50 cents and \$1.00 worth respectively. Sugar will later be sold in larger quantities for canning and preserving purposes, as a matter of course; but it will be furnished for such purposes only upon the signing of a certificate, the form of which has not as yet been determined upon by the Food Administration for South Carolina. Further announcement concerning the use of this certificate will be made in the near future. It is further announced by the Food Administration that in order to build up reserve stocks of sugar, so that there may be a supply available later for canning and preserving, jobbers are now permitted to carry 60 day's supply.

If, however, there is going to be enough sugar to supply the needs when the canning season comes, sugar consumption should be cut down, in every possible way in the meantime.

**PRISONERS MUST WORK**

**Officers of Prison Camp Instructed to Utilize Labor of 1,370 Inmates.**

Washington, April 16.—The war department has decided to make the German prisoners of war now held in this country earn their keep. Orders were sent today to the army officers commanding the enemy prison camps at Forts McPherson and Oglethorpe, Ga., authorizing them to utilize the labor of the 1,370 inmates in completing a new system of roads about the post.

Prisoners who were taken from the German raiders' Cormoran, Prinz Eitel Frederick and Seadler were members of the imperial naval reserves. Thirty-eight others, taken from the U.S.S. by the destroyer Fanning, are now on their way to this country. They are expected to arrive next week and will be sent immediately to Fort McPherson.

**TROUBLE AMONG MOVIE STARS.**

**Owen Moore Brings Suit Against Doug. Fairbanks.**

Los Angeles, Cal., April 22—Heart balm in the sum of \$230,000 will be demanded of Douglas Fairbanks by Owen Moore, motion picture actor, for the alleged alienation of the affection of Moore's wife, Mary Pickford, queen of the movies.

Suit probably will be filed this week according to Moore, in a statement made at Los Angeles Athletic club, now his home, declared he was taking action against Fairbanks for his own protection.

"I met Mr. Fairbanks in 1912," said Moore. "And immediately became fast friends. I introduced him into my home and trusted him. I was the last to hear rumors and the last to believe them. It is only recently that I came fully to realize actual conditions. And I have hesitated to take action—at first because I wished to be absolutely sure, then out of consideration for Mrs. Fairbanks, and recently because I did not wish to hamper in any way the Liberty loan campaign, in which my wife is taking so active a part. There has been but one aggressor in the case. My wife has been as much victimized as the rest, not wholly blameless, perhaps, but imposed upon."

It is of interest to know that other people wonder about diversions, and whether they ought to play games, etc., and otherwise divert themselves during these anxious times. Personally, I think yes. The French are so gay and volatile, yet beneath it all is a steadfastness and an endurance which almost passes understanding. It is one of their own writers who says: "The irrepressibility of the soul's joy. It is the measure of the soul's strength." Why not play rook or cards, or any other game? It is not meant for anybody to work all the time even in war. Don't mind the criticisms of other people—criticizing is probably the way they divert themselves, and a rotten, poor way it is, in my humble opinion.—Exchange.

**The Tight Wad.**

—If there is anything on earth that gives us a longing for eternal rest and deep, damp solitude it is the man who comes to town, builds up a big paying business, grows rich, and then squats down on his gold like a hen on a door-knob, and is too stingy even to let the gravelers grind in his own gizzard. A real, genuine 18-karat stingy, selfish man can't be honest, and if he ever gets to heaven and has wings he will fold them up and walk for fear he will ruffle plume or lose a tailfeather.—From the Marietta Journal.

There are two kinds of girls in every community. One is the kind that appears best abroad—girls that are good for parties, rides, visits, balls and cards, and whose chief delight is in such things. The other is the kind that appears useful and cheerful in the dining room, a sick room, and all the precincts of home. They differ widely in character. One is often a torment at home—the other a blessing. One is a moth, consuming everything about her, the other is a sunbeam, radiating light and gladness around her pathway.—Exchange.

**Would you mix your cattle-feed with cotton?**

YOU know that such a combination would be carried through the digestive tract without giving the milk-producing and fat-producing food a chance to be assimilated. The lint on old style hulls acts the same way. It forms a pad or cushion-like covering around the concentrates that prevents the digestive juices from extracting the full amount of protein.

**BUCKEYE HULLS**  
TRADE MARK  
COTTONSEED  
LINTLESS

contain no lint to clog or flux the digestive tract. They are digested and they allow the other forage to be digested the same as hay or any other roughage.

When you mix your feed with Buckeye Hulls you know that you are using roughage that will help—not hinder—the meal, corn, oats, or whatever concentrate you prefer.

**Other Advantages**

2000 pounds of real roughage to the ton—not 1500. Coat much less per ton. Go much farther. No trash or dust. Easy to handle because sacked. They mix well with other forage. They take less space in the barn.

Mr. C. K. Henderson, Aiken, S. C., says: *that he would rather have Buckeye Hulls than any others. He uses Buckeye Hulls altogether—says they are cheaper and better.*

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

**Book of Mixed Feeds Free**

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.

**Total Eclipse of Sun in June.**

On June 8, 1918, there will be a total eclipse of the sun passing over the United States. The path of totality will enter the United States in the state of Washington and will travel in a southeasterly direction through Colorado, Mississippi and intervening states, passing off the continent near Orlando, Fla. The shadow will reach the Mississippi River at 5:37 p. m. on June 8, 1918, present reckoning. The time of arrival at the western boundaries of Arkansas and Alabama will be about one minute earlier and later, respectively. The beginning will be an hour earlier, and the ending an hour later than the above time. Near Memphis, Ark., the time of totality will probably be 68 seconds, at the Mississippi river 61 seconds.

The northern boundary of the shadow for Arkansas, Mississippi and Alabama will follow a line from a point south of Fort Smith and near Arocho, through Waldron, Cedar Creek, Saffaw Junction, Hixon, Holly, in the state of Arkansas; Greenville, Pickens, O'faloma, Meehan and energy, in the state of Mississippi, and Campbell, Evergreen and John, in the state of Alabama. It will be the first total eclipse in thirteen years.

The name "Germania" has been eliminated from the titles of two banks in Charleston, the name "Atlantic" replacing it, while a local fire insurance company has shed "Germania" and adopted "The Peoples" instead.

Notice of Meeting of Democratic Clubs and County Convention.

Notice is hereby given that all Democratic Clubs, in Kershaw County, will meet at their respective meeting places, on Saturday, April 27, for the purpose of electing officers and delegates to the County Convention. Each club is entitled to one delegate for every twenty-five (25) members, and one delegate for a majority fraction thereof, based upon the number of votes polled in the first primary of the preceding election year.

The County Convention is called to meet at the Court House, at 12:30 Monday May 6, 1918.  
L. A. Wittkowsky,  
County Chairman Kershaw County.
