## May Sink Surrendered Vessels.

Paris, Dec. 18,-The American delegates to the peace congress have resolved to advocate the sinking of the surrendered enemy war ships and resist any proposition to distribute them on the basis of naval losses. This announce ment is made by those in close touch by her some time ago from a friend, with the American representatives, who, it is added, feel that such a position would result in avoiding contention and materially support President's Wilson's declaration that the war was not based on aggression or the acquisition of property. England, through Sir Erie Geddes, first lord of the admiralty, had previously acquiesced in the American plan to destroy wraships, and, it is declared, will continue to support the United States, although it is expected that some of the lesser naval powers will demand that the prizes be distributed.

When hostilities ceased the American army was being prepared and equipped to hurl ten tons of mustard gas into the German forces for every ton the Germans could deliver, Major Gen, William L. Sibert, director of the chemical warfare service, said Friday at Washington at a dinner given in his honor. The day that the armistice was signed, he said, plans for the manufacture of the standard gases were in operation with a manufacturing capacity greater than that of England and France combined. This capacity would have been trebled in the case of centain gases before the end of the new year.

Return to home waters of the first ships of the American armsida sent to Europe to combat German sea power, will be marked by a great naval pageant in New York harbor about December 23. Secretary Daniels announced today that he will go to New York on the will be led by Admiral Mayo, commander-in-chief of the Atlantic fleet, on his flagship, the Pennsylvania, which accompanied President Wilson to Ru-
