

Telegraph and Telephones Returned.

Washington, June 5.—Telegraph and telephone companies whose lines have been controlled and operated by the government since last August 1, were ordered tonight to resume immediately operations for their own account by Postmaster General Burleson. The Post-office department, however, under terms of Mr. Burleson's order retains a measure of control of the services, pending final legislative action by Congress.

Regulations prohibiting discrimination against wire employees because of union affiliations, maintaining existing rates and charges and instructing companies to keep special accounts to facilitate cost settlement between themselves and the government are retained in effect under the order issued by the Postmaster General.

Tomorrow an episode of the Pathé serial "The Tiger's Trail" will be shown at the Majestic. On the same program will be Hattie Barrisole in "Patriotism"

Burgundy at Its Best.

Burgundy wines of 1915 are reported by the most eminent connoisseurs of Paris to be the best since 1865. In fact their verdict is "perfect."

The summer of 1915 was hot, so was the autumn, with light rains now and again at exactly the right intervals. M. Mathieu, celebrated savant on the subject of wines, writes: "Since 1865 there has been no Burgundy like that of 1915 in delicacy or strength. The 1915 vintage is a remarkable synthesis of bouquet, aroma, body and flavor."

But of course all this is of merely academic interest to us.

Less Crime, Fewer Carpets.

There does not at first glance seem to be much connection between crime and carpets, says the London Daily Mail, but it is a fact that the decrease in crime brought about in India, as elsewhere, by the war has led to a decrease in the supply of Indian carpets. The reason is that most of these carpets, especially the finer and more expensive kinds, are made by convicts, notably in the great jail at Poona.

They are made entirely by hand, so it is a case of few convicts few carpets.

Hard to Distinguish.

"In Shakespeare's day the liver was thought to be the seat of love," "Maybe the Elizabethans were not so far wrong, after all. The symptoms of love and an acute bilious attack are very similar."

Tribute Of Respect.

Death entered our midst and took from among us our sister Mrs. Sallie Goodale whom we all loved tenderly, but our Heavenly Father loved her more and had her come home and rest. She rests from her labors, but her works follow her.

Be it resolved by the Women's Missionary Society of the Camden Baptist Church of which she was a member:

First, That we bow in submission to God's will feeling that He doeth all things well.

Second, That we strive to emulate our sister's sincere consecration to the great cause of Missions, and as her voice was ever ready to testify to the goodness and power of God through Jesus Christ her loving personal Saviour may we follow her example.

Third, That we mourn her absence in the flesh, but rejoice that she is now living in the presence of Jesus.

Fourth, That we tender our sympathy to her family and that a copy of these resolutions be sent to her family published in the Baptist Courier and our papers of Camden, and also that a blank page in our minute book be inscribed to her memory.

Mrs. M. M. Benson,
Mrs. M. G. Huckabee,
Mrs. L. B. Campbell,
Committee.

Tonight at the Majestic is billed Bryant Washburn in "Something To Do."

Hubby's Blunder.

He resided in the suburbs, and when he accidentally met an old friend in the city who persuaded him to remain in town for the evening he went to the telegraph office and wired his wife as follows:

"Missed the 5:30 train. Don't keep dinner waiting. Shall be home late."

It was very, very late when he did arrive home, and his wife met him at the door.

"Did you get my message?" he said, beating down at her.

"Yes," she said, very quietly, "but I would like you to explain why you sent a message at 4:28 telling me you had missed the 5:30 train."—Richmond Sunday Herald.

Phonograph in the Hebrides.

Mrs. Kennedy-Fraser, who has done so much to create interest in Hebridean songs, took a phonograph to the islands, says a writer in Daily Chronicle. This was in order to secure the absolute accuracy of the weird music which is traditional in the Hebrides. The people were so excited by the novelty of singing into the phonograph that they could hardly wait for the record to be played, and then they were amazed at the fidelity with which it rendered the songs and all the trivial sounds of outlookers.

JAPS HONOR BRITISH SAILOR

Still Revere Memory of William Adams, Who Led Expedition to Their Country in 1600.

Two memorial stone lanterns near the Japanese port of Yokosuka are the people's tribute to the memory of William Adams, an English sailor who was the first of his countrymen to settle in Japan, and who is credited with opening the way for commerce between Britain and Japan. In 1600 Adams led a trading expedition bound for the West Indies. His fleet consisted of five vessels symbolically named Faith, Hope, Charity, Fidelity and Good News. The expedition met with many misfortunes of weather and sickness. Their adventures included the loss of eight men who were eaten by cannibals on one of the Pacific islands.

The ship carrying Adams finally reached the coast of Bungo, in the eastern part of Krushu, Japan. The Englishmen made friends with the natives until the arrival of some Portuguese Jesuits who told the Japanese leaders the strangers were pirates and had them imprisoned. The emperor heard of their plight, and had them brought to his palace at Osaka. The ruler finally decided that the men were harmless and released them, retaining Adams at court to teach shipbuilding and other arts to the natives. In 1613 another English sea captain arrived in Japan with letters from the king of England, to the emperor of Japan. Through Adams' influence the Englishmen and the oriental ruler signed a treaty giving Britain the perpetual right to enter any ports of the empire and trade freely throughout the country.

VARIOUS KINDS OF CHARITY

And Greater Far Than the Giving of Alms Is the Practice of Charity of Thought.

Someone has said that "Charity is the highest tree in heaven." It is a saying that we can well believe, for not only does charity cover a multitude of sins but, it also covers its devotees with its solace and comfort.

It is to be feared, however, that there is a misconception as to the full meaning covered by the word charity. Many people seem to understand that charity consists solely in the giving of alms. And the fact is that almsgiving is merely one form of charity.

There is a charity that we can practice toward those of our fellow men who stand in no need of alms. There are, indeed, many who are well provided with the goods of this world who stand in great need of charity. The charity of our thoughts is what we stand in need of.—Los Angeles Times.

Diamond Cutters.

There are 25,000 diamond cutters and polishers in the world. Of these only about 675 are in the United States, and these have come mostly since the outbreak of the European war, which crippled the industry in Amsterdam and Antwerp, the world's greatest centers. There were at the beginning of the present year 36 diamond-cutting establishments in this country. This is exclusive of shops where all kinds of precious stones are cut.

The number of Germans employed as diamond cutters did not exceed 600 before the war, and of these only 75 per cent worked for establishments in Germany. During the war 600 or 700 Belgian cutters emigrated to England and organized as a branch of the London Diamond Cutters' union. They did work principally for Belgian and Russian houses.

Protecting Airplane Propellers.

An aluminum plating for airplane propellers has been devised for the purpose of protecting the wood from the influence of the weather, which has been a serious problem heretofore. The plating is a thin leaf which is incorporated in the finish of the propellers, and the idea was developed by the forest products laboratory at Madison, Wis., and placed in production by the war department. The process is practically 100 per cent effective in preventing absorption of water, particularly in the storage stage. A French authority states that 80 per cent of the French propellers produced are rejected by the pilots mainly because they are out of balance. This difficulty is due largely to unequal absorption or distribution of moisture and can be greatly reduced by an effective water-proofing coating.

Stopping a Great Waste.

Millions of dollars' worth of fruit have been wasted in Florida during the quarter of a century. Hereafter nothing will be wasted as the drops, cuts and rips will all be utilized by new processes evolved by a clever chemist and scientist. The growers and the public generally will be helped by these processes, as the former will reap a benefit from the sale of their waste products and the latter will have the benefits of the manufactured products which are greatly in demand.—Florida Times-Union.

Electrocute Leopard to Save Pelt.

A leopard used by a motion-picture concern recently took to sulking, which made him a disagreeable companion for the actors in the jungle scenes, according to Popular Mechanics Magazine. Shooting him with a high-powered rifle was first considered, but was objected to, as it would disgrace the valuable pelt. To avoid this, electrocution was decided upon, using power from a near-by station.

MANY KILLED IN EXPLOSION

Powder Exploded in Mine Tunnel in Pennsylvania.

Wilkes-Barre, Pa., June 5.—Eighty-three men dead and fifty others burned and mangled, many of whom will die, is the toll of a disaster in the Baltimore tunnel of the Delaware and Hudson Coal Company in the east end section of this city early today. Seven kegs of black powder, 300 pounds in all, were detonated and the dead and the maimed were literally roasted by the superheated gas flames following the explosion.

The tragedy occurred while the men were on their way to work this morning. Owing to their working places being two miles from the mouth of the tunnel the men were making the trip in a train of 14 mine cars drawn by an electric motor, the powder being carried in two cars in the middle of the train.

The train had penetrated the tunnel about 200 feet when August Ruddle, one of the survivors, states the overhead trolley wire sagged and touching a steel powder keg formed a short circuit. In an instant there was a shower of sparks and a terrific blast. A great sheet of flame drawn by the air current, enveloped the helpless men who were huddled closely together in the cars with no possible chance to escape.

Owing to the ventilating system the smoke and flames were drawn inward and the first intimation of the disaster to those on the surface was the shrieks of anguish of the injured. Rescue corps were at once formed and the dead and injured were rapidly brought to the surface where the living were given first aid treatment by physicians and then rushed to hospitals, even the fire apparatus being used in the emergency.

When the rescuers first entered the tunnel they found the dead and dying piled in heaps in the cars and along the tunnel. Bodies of the dead were burned to a crisp. Of the dead, sixty-nine

were found dead in the tunnel and fourteen others succumbed to their injuries at the hospitals. Only forty-nine have been identified.

The body of Jasper Bookout, aged 50 years, a resident of the Clifton Mills section of the county, was found Thursday at Thompson's ford on the Pacono river, near Clifton, by two small boys who were fishing.

"The Reason Why."

B. A. Thomas Stock Remedies are the best, they are scientifically made and all medicine. They keep the health up, and the feed bill down. There is a cause for every effect, remove the cause and the effect removes itself.

The Poultry Remedies are especially made to relieve all the diseases in the Fowl family such as Cholera and Roup and makes the Hens lay.

The Hog Remedy will positively keep off the Cholera, and if given in the first stages, will cure 90 per cent.

Don't forget to keep on hand a bottle of Farris' Colic Remedy for Horses. It is so simple with dropper, that a child can give it. Also a bottle of Farris' Healing Remedy for Cuts and Bruises on man or beast. They never fail.

These remedies are all guaranteed to you by your dealer, to give satisfaction, or your money back.

Made by Old Kentucky Manufacturing Co., Paducah, Kentucky.

For sale by Springs & Shannon, Camden, S. C.—adv. June 8.

WINTHROP COLLEGE

Scholarship and Entrance Examination To Be Held July 4th and 5th.

The examination for the award of vacant scholarships in Winthrop College and for the admission of new students will be held at the County Court House on Friday, July 4th, at 9 a. m., and also on Saturday, July 5th, at 9 a. m., for those who wish to make up by examinations additional units required for full admission to the Freshman Class of this institution. The examination on Saturday, July 5th, will be used only for making admission units. The scholarships will be awarded upon the examination held on Friday July 4th. Applicants must not be less than sixteen years of age. When scholarships are vacant after July 4th, they will be awarded to those making the highest average at this examination, provided they meet the conditions governing the award. Applicants for scholarships should write to President Johnson for scholarship blanks. These blanks, properly filled out by the applicant, should be filed with President Johnson by July 1st.

Scholarships are worth \$100 and free tuition. The next session will open September 17, 1919. For further information and catalogue, address President D. B. Johnson, Rock Hill, S. C. 6-7-8-13

President To Return Soon.

Paris, June 9.—President Wilson is now regarded as probable, with five days or two weeks.

Farm Lands Should be Listed Now

During the war all farm produce commanded high prices, and farming communities have enjoyed marvelous prosperity. Now, with the coming of peace, and the opening of the markets of the world, should also come plenty. The real estate market should be active.

If you intend to sell your land this year, list your property now and avoid the rush season when time for careful inspection of land is lacking.

I believe it will be to your advantage to list with me. If you intend to buy, see or write me.

Farm lands are my specialty.

W. M. MANNING, REAL ESTATE

ARCADE BLDG. COLUMBIA, S. C.

This cozy home may be -

Your Home

An attractive, snug, convenient, room little bungalow;

Graceful lines, embodying the most modern of architectural ideas; securely, substantially built to make it lasting and comfortable in the most severe weather. Built with a view to convenient arrangement. While small in appearance, its roominess in reality of ample size for every comfort.

QUICKBILT BUNGALOW NO. 44

while beautiful, convenient, roomy and thoroughly sturdy, is built at a tremendously reduced cost, due to immense savings in quantity production. From the first to the last, from the siding to the interior finish, it is ready prepared for erection and partially built. It is a QUICKBILT Bungalow you

SAVE WASTE-All the material is already prepared and the waste piles of scrap lumber are thus eliminated. Every foot of lumber is used. You buy no surplus material.

TIME-Every piece of material has its own place. Erection is complete and systematic. The instructions are complete and the order of erection simple. No carpenter is lost in looking for material. The time ordinarily required for preliminary cutting and trimming is saved. Furthermore, a portion of the house is already built in panels, just as much as can be eliminated in construction.

LABOR-With the entire process of erection systematized and instructions complete and the great building "bugaboo"—preliminary preparation, eliminated, the labor in the erection of a QUICKBILT Bungalow is reduced to a minimum, and therefore, of minor consideration. A carpenter of average aptitude and two laborers, can erect the house in 5 days. The ordinary will take almost as many weeks.

MONEY-A saving in waste of material, time and labor, is a saving in money. With a QUICKBILT Bungalow the expense of erection is cut in half, but that is not all. You need not pay a contractor. The erection is so simple and systematic that any carpenter of average intelligence can erect it with ease. Many owners build themselves and pay no architect's fee. The complete plans with all specifications and instructions are furnished FREE. And yet, the plans are made after study by the best and most experienced of architects, with a view to the saving of waste and gaining the greatest possible convenience, economy and strength. The cost of the material is further reduced by the fact that the mill, manufacturer and forest in one. Our complete plans cover the process, from the tree to the completed house. You pay no middle-man. You buy direct from the source of material. In our complete plans in which houses are built simultaneously, every short cut to perfection is used and every expense avoided. As the houses are made in great quantities you gain the advantage of cost of quantity production.

PRICE - \$952 less 10 per cent. \$856 for cash. Net price \$856

F. O. B. Charleston. The price includes all necessary material, except the brick and plumbing. Size over all, 21-ft. 5-in. x 30-ft. 6 1/2-in. There are two large bedrooms 9-ft. x 12-ft., one 12-ft. x 12-ft., one spacious living room 12-ft. x 12-ft. The house is well lighted, spacious, well ventilated and convenient. The complete kitchen 9-ft. x 12-ft., a bath room 5-ft. x 6-ft., and an attractive front porch 12-ft. x 6-ft. The house is finished with heavy builders' paper, large of North Carolina pine—"the Wood Universal," thoroughly kiln dried, floor and ceiling. Walls built in panels of sliding, lined with heavy builders' paper. Sure warmth. Durable, fire-resisting, standard asphalt strip shingles with slate red finish. Artistic paneled inside finish. Excellent doors and sash. All nails and hardware furnished. House comes with exterior walls stained any color and number of standard colors or painted one heavy coat of priming paint. Interior and inside finish painted with one heavy coat of priming paint.

WRITE TODAY
