"Smoke Virginia-Carolina Straight"

For 300 years Virginia-Carolina tobacco has made good!

From the beginning Virginia-Carolina has been the world's favorite tobacco.

It has been cultivated and improved for three centuries. Today—five times more of it is smoked in cigarettes than all the foreign-grown tobaccos combined. Only the lively taste and rich flavor of Virginia-Carolina tobacco can account for this.

And only in a cigarette made entirely of Virginia-Carolina do you get the full flavor and all of that relish and zest.

Put the proof up to Piedmont.
