Workers," was taken 'nto custody 10 derson is one man who is working hard days ago. He is now at Ellis Island and giving God all his increase. He awaiting deportation.

Peter Blanki, who succeeded Schnabel as general secretary of the Russian union, also is being held for deportation.

n practically every industrial center in the east and middle west were aimed at the Union of Russian Workers, an organization which Attorney General Palmer disclosed was formed in New York 12 years ago by a group of men at the head of which was William Szatow, now chief of the bolskeviz police at Petro-

In their raids in Newark and Trenton, N. J., the federal agents seized materials for making bombs and a complete counterfeiting outfit together with considerable counterfeit money. In parctically every raid the officers found great quantities of radical literature.

The Union of Russian Workers first came into public notice during the senate investigation of the steel strike, Jacob Margolis, counsel for the strike committee, testifying that he sought the aid of the Russians in the strike.

Attorney General Palmer described the Russian union as "even mire radical than the bolshevik" and declared its purpose was to amalgamate a lot of the Russian groups in the United States into one organization. Mass action, including armed action in time of "great national strife" is the principle of the

While discussing the activities of the union at length from its first convention at Detroit in 1914, at which members from Canada were present, down to the present time, department of justice officials would not go into details of the raid. They refused to answer any question as to that in Washington further than to admit that nine men had been hundred and twenty-five (125) acres; arrested and that of the five released as tract No. 21, containing ninety-three upon proving their American citizenship one would be rearrested.

only a few days. Build Today-Stop Paying Rents.

An attractive, snug, convenient, roomy little bungalow with graceful lines embodying the most modern of architectural ideas. Securely and substantially built to make it lasting and comfortable in the most severe weather. Especially built for convenience. While small in appearance, and snug its rooms are in reality of ample size for every comfort. Built at a tremendously reduced cost, due to the immense savings in quantity production. From the flooring to the roof; from the slding to the interior finish, it is already prepared for erection and partially built. In buying a QUICKBILT Bungalow, you

SA.VE

WASTE- All the material is already prepared and the large waste piles of scrap lumber are thus eliminated. Every foot of lumber is used. You buy no surplus material.

TIME- Every piece of material has its own place. Everything is numbered and systematized. The instructions to the carpenter are complete and the order of erection simple. No time is lost in looking for material. The time ordinarily required in preliminary cutting and trimming is saved. As a large porton of the house is already built in panels, just that much time and cost is eliminated in construction.

LABOR- With the entire process of erection systematized and complete, the great building "bugaboo"—preliminary preparation—eliminated, the labor in the erection of a QUICKBILT Bungalow is reduced to a minimum, and therefore, of minor consideration. A carpenter of average speed and experience with two laborers, can erect the house in 7 days. The ordinary house will take almost as many weeks.

MONEY A saving in waste of material, time and labor, is a pense of erection is cut in half, but that is not all. You need not pay a contractor's fee. The erection is so simple and systematic that any carpenter of average intelligence can erect it with ease. Many owners build them themselves. You pay no architect's fee. The complete plans with all specifications and instructions are furnished FREE. And yet, the plans are made after careful study by the best and most experienced of architects, with a view to eliminating waste and gaining the greatest possible convenience, economy and strength. The cost of the material is further reduced by the fact that you buy it from the mill, manufac-

turer and forest in one. Our complete plants cover the entire process from the tree to the completed house. You pay no middle-man a profit you buy direct from the source of material. In our complete plants a which hundreds of houses are built simultaneously, every short out perfection is used and every waste avoided. As the houses are made in great quantities you gain the advantage of the low cost or quantity production.

CONVENIENTLY PLANNED HOME The house is shipped F. O. B. Charleston, complete with all necessary material except the brick work. Size over all, 33-ft. x12-ft. There are two large bed rooms, size 9-ft. x 12-ft. with closes, one spacious living room 12-ft. x 15-ft., kitchen 12-ft. x 12-ft. and an stractive front porch 12-ft. x 6-ft. The house is well lighted, spacious, well ventilated and convenient. The construction is largely of North Caroling Pine, "The Wood Universal," thoroughly kiln dried. Excellent flooring and ceiling. Walls built in panels of siding lined with heavy builders' paper to insure warmth. Durable, fire-resisting, standard asphalt strip shingles with slate green or red finish. Artistic paneled halds finish. Excellent doors and sash. All necessary nails and hardware furnished. House comes with exterior walls stained any one of a number of standard colors or painted with one heavy coat of priming paint. Exterior trim and inside-finish painted with one heavy coat of priming paint.
