"IS YOUR GIRL SAFE?"

Dr. John A. Rice, pastor of Trinity Methodist church, Sumter, is in the limelight just now. The doctor's position in the spot light or publicity has been brought about by a recent sermon he delivered on the social conditions in Sumter and the dangers surrounding the youth of the city.

"If the community encourages coupling the hair to a certain way, your girl will comb hers that way. If the community makes dresses in a certain way, your girl will make her dress that way or there will be trouble. No matter what it costs, your girl must do as others do and you must pay the bills. That girl must have things considered right by those she goes with, which being interpreted means by the community as a whole.

"You are aware of the rumors current on our streets the last few weeks. They disclose certain alarming symptoms of putrid social conditions that demand instant and heroic treatment.

"One of our perils is the automobile. It is alarming to see a group of a half dozen girls and boys staving through the streets at breakneck speed without a chaperone. It is appalling to see a girl in her teens start to the country alone with a boy, who, like herself is immature. It is unspeakable to see a girl sitting on the front seat of an automobile between two boys while the back seat is vacant, her arms in the attitude of embracing both. It is unthinkable that girls out of our so called best families are allowed to go into groves where automobiles assemble or elsewhere under cover of night, to come back in the wee small hours of the morning with the blackness of eternal night in their souls; come back, I say to go the rest of the long way in the grip of the consciousness of an hour's moral shame.

"I could speak of dress as another indecency. It looks as if women of the land are losing, if they have not lost, the sense of modesty. Dresses fashioned in the underworld of Paris to reveal rather than conceal, are no proper patterns for decency.

"We have been hearing rumors lately as to certain dances. Look at that girl yonder; her head is falling on the shoulders of the man she is hugging to her bosom. The music stops suddenly, she slowly raises her head and lets her hands down to her side. She has desecrated the holiest thing a woman has in this world or any other world. She has tempted that young man, carried him to the very gates of hell, and she herself has gone there with him. Look at that boy and girl reeling out of the dance hall to the sidewalk, their arms around each other. Look at them again, as they are hugging and kissing of the street. Nobody may have seen these pictures, but somebody saw something that suggested that such things were going on.

"Men now may talk as they please, may suggest what their foul minds conceive and nobody objects, nobody criticises, there is no field of honor.

Will Make Motion for New Trial

Greenville, June 4.—Motion for a new trial for Kenneth Gossett, recently convicted in Abbeville county on a charge of criminal assault, will be made at the next term of court in Abbeville county, which term convenes next Monday. This announcement was made here today by attorneys for Gossett. It will be alleged in the motion that two jurors made statements derogatory to the defendant before they were put on their voir dire. It will be alleged that they were prejudiced in the matter. Gossett is now in the state penitentiary to which he was recently sent.

A charter was issued from the office of W. Banks Dove, secretary of state, Friday for the New York-Atlanta Highway Bridge company of Iva, Anderson county. The capital stock is \$100,000. The company proposes to operate a toll bridge over the Savannah river between Anderson county, this state, and Elbert county, Georgia. W. T. A. Sherrard is president of the company; R. Stapleton, vice president; and H. S. Wakefield, secretary and treasurer.

University of South Carolina

The examination for the award of vacant scholarships in the University of South Carolina and for admission of new students will be held at the county court house on Friday, July 9, at 9 A. M. Applicants must not be less than sixteen years of age. When scholarships are vacant after July 9, they will be awarded to those making the highest average at examination provided they meet the conditions governing the award. Applicants for scholarships should write to President Currell for scholarship examination blanks. These blanks, properly filled out by the applicant should be filed with President Currell by July 2. Scholarships are worth \$100, free tuition and fees, total \$158. The next session will open Sept. 15, 1920. For further information and catalog, address, President W. S. Currell, Columbia, S. C.

Miss Maud Cleveland, of Berkeley, Cal., graduate and member of the faculty of the University of California, recently received the D. S. M. at the American Woman's Club in Paris for "conspicuous service" while serving as head of the Red Cross home communications department of the A. E. F. Miss Cleveland had charge at Brest of the war brides who married American soldiers.

CULL CLOSE AND FEED WELL

Clemson College, June 9.—In the growing of livestock there are two things to be used freely,—the knife and feed," says W. J. Sheely, Animal Husbandman of the Extension Service, in discussing the importance of careful culling and good feeding. Mr. Sheely believes that to the motto, "Breed the Best to the Best for the Best," should be added, "Feed the Best to the Best for the Best."

With these two motives in time, every undesirable animal should be culled from the herd and sent to the butcher. A breeder can have better advertisement than to have it known that he sends the inferior animals in his herd to the butcher and offers for breeding purposes only those animals that have good conformation and are well grown for their age. Inferior animals will often cause prospective purchasers to have doubts and to fall out with the particular breed.

The policy of the Extension Service livestock specialists to aid breeders to grow and sell to best advantage, and therefore breeders are urged to cull their herds carefully and grow out well all animals offered for breeding. Well grown well fitted animals of good conformation are the ones that bring the most money and make satisfied customers. Good feed and careful feeding and attention are needed to help do this. In short, the best policy to follow is, "Feed only the Best to only the Best for the Best."

In England it is again becoming the fashion for society people to go into business. Lord Carnwath, a Scotch earl of ancient pedigree, is a commercial traveler. A son of the Duke of Montrose has joined a shipbuilding firm in Glasgow, while a son of the Marquis of Ailsa runs an automobile repair shop in London.

Drawn from actual photograph taken March 10th, 1920, in Carnegie Hall, New York.

Mr. Flagg's Story

of the Miraculous Proof given at Carnegie Hall, New York, on March 10th, 1920.

"Miss Case draped her beautiful self against the phonograph. One of her song recordings was put on the instrument, and they, Miss Case and the phonograph, sang together. Then she stopped, and her other self continued. Then together again. "I looked away and then back again,—and it puzzled me to determine which was at the bit.

The Pianist

"Then the tallest pianist in the civilized world played a charming thing, accompanied by himself via the phonograph,—lifting his fingers away from the keys now and again. I could see him stop playing,—but I couldn't hear him stop.

The Dark Scene

"Then the big stunt of the recital. "Miss Case began singing with the phonograph. At a certain stanza the house was suddenly darkened. The song went on. I was shooting my ears out like periscopes to detect the second when she would stop. I was sure I got it. Then she seemed to be back again. The flood of lights came on,—but no Anna! Only the phonograph singing away.

It was quite wonderful,—and the audience applauded and laughed. Two girls behind me said "Googracious."

Read what the New York papers say:

"The twin-ship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable." —New York Globe.

"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing." —New York Evening Sun.

"The voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same." —New York Evening Mail.

Hear the phonograph that baffled James Montgomery Flagg

Come in and test its marvelous realism for yourself

An audience of 2800 New Yorkers completely baffled! An Official Laboratory Model did it—actually rivalled Anna Case, one of the world's most brilliant sopranos, in a startling test at Carnegie Hall, on March 10th, 1920.

In our store, you can hear an instrument exactly like this famous Official Laboratory Model. You can test it for yourself—and see what a truly perfect realism it attains. We have equipped ourselves to give Mr. Edison's unique Realism Test.

The NEW EDISON

"The Phonograph with a Soul"

The instrument used on March 10th, 1920, in Carnegie Hall, New York, was an exact duplicate of the original Official Laboratory Model on which Mr. Edison spent three million dollars in research work.

We, too, have an exact duplicate of this three million dollar original. We guarantee that it is capable of sustaining precisely the same test made on March 10th, in Carnegie Hall, New York City.

This guarantee will be given in writing,—if you wish.

Our Budget Plan puts this guaranteed Official Laboratory Model within your reach. It's a thrifty way of buying. Ask about it when you come to hear the Realism Test.
