

Not Yet Settled

In writing to the Sumter Item from South under date of June 1, the Pisgah correspondent says:

A large and enthusiastic meeting was held at Rembert school house last night to take definite action whether we should hold an election to join Kershaw, or remain without action for the present.

Judge W. B. DeLoach, Hon. T. J. Kirkland, Supervisor M. O. West and Hon. W. R. Hough, of Camden were present by invitation, and made eloquent addresses, showing the financial condition of Kershaw county which is good and assuring us that a warm and hearty welcome awaits us if we go to Kershaw.

Mr. Kirkland gave the law on how

to hold such elections. Judge DeLoach spoke of the close business and social relations between this section and Kershaw. Mr. Hough spoke on taxation and Mr. West on roads. After which Rev. J. W. Kenny made a fine address in advocacy of going to Kershaw. Other remarks were made, after which, on motion of Messrs. Thos. D. McLeod and James E. Rembert, it was unanimously resolved, by a rising vote, to hold the election at once.

The meeting held in Sumter last week did not bind or reflect the sentiment of the people here.

The banking and cotton business has come to Camden from this section and the people feel that they had rather go to a county where a countryman can be elected to office and not a city

man every time.

The ladies served a nice luncheon. Mr. J. E. DuPre presided over the meeting.

Hay for Sale

Fresh mown hay at reasonable prices, if taken out of the field.

WOULD PUBLISH PETITION

Of Those Asking Executive Clemency Before Action is Taken

Members of the state board of pardons have asked Governor Cooper to promulgate certain new regulations relative to petitions for pardons. The plan suggested is to have petition for pardons published in the papers of the county in which the crime was committed, the publication to be two weeks in advance of the filing of the petition.

This recommendation was signed by all members of the board and sent to the governor. The letter follows:

"The board suggests to your excellency that if it meets with your approval, you promulgate regulations requiring petitions to be published in a newspaper in the county where the crime as committed for two weeks prior to the meeting of the board, the fact that the petition will be presented to be stated.

"The board suggests to your excellency that it would greatly facilitate our work, were the petition required to be completed and in your hands a reasonable length of time prior to the meeting of the board. This is in order that the board may familiarize itself thoroughly with the record of each before attempting to pass upon it.

"In concluding, the board would state to your Excellency that its action in every particular was by the unanimous vote of the board. All of which is respectfully submitted."

Members of the pardon board are: W. P. Conyers, Greenville; G. F. Pegues, Cheraw; Jos. L. Nettles, Columbia—Saturday's Columbia State.

Marriages.

Married on Saturday morning last, June 5th, 1920, by Probate Judge W. L. McDowell, Mr. James Hall and Mrs. Nanie F. Marcus, both of Cassett, S. C.

At the home of Probate Judge McDowell on Saturday afternoon, June 5th, Mr. George Dewey Kelly, of Bethune, S. C., and Miss Mildred Elizabeth Kelly, of Bishopville, S. C. After the marriage the young couple left by auto for Asheville, Hendersonville and other North Carolina resorts where they will spend a few days after which they will be at home to their friends at Bethune, S. C.

At the home of Probate Judge McDowell on Monday morning last Mr. O. J. Baker and Miss Jannita Collins, both of Bethune, S. C.

Double Tragedy at Greeleyville.

Greeleyville, June 8.—Exclaiming "God forgive me!" Robert Hogan, aged forty-three, about 3 o'clock this afternoon shot and killed his wife and then took his own life by firing a bullet into his head.

Hogan was married to Mrs. Robert Lesene about one year ago. Before her marriage to Mr. Lesene she was Miss Hallie Pitts, daughter of the late Robert Pitts, of Gourdin.

The tragedy, it is said, took place in the presence of four of Mrs. Hogan's children, who are said to be the only witnesses of the affair.

Just as Mrs. Hogan was coming down the steps preparatory to going to town her husband, it is reported, shot her six times before turning the gun on himself.

Mrs. Hogan is survived by five children by her first husband, Edward and Harry Pitts, brother of Sumter, and Mrs. S. W. McClary, of Lanés, a sister, also survive.

No cause for the act has been given.

Owl In His Chicken Coop.

Mr. B. M. Hall, from near the old Adams Mill section, was exhibiting to his friends here Tuesday a huge live owl which he caught in his chicken coop early that morning. The big bird had gone in the coop where a mother hen and brood of biddies were roosting and it is thought that in the fight between the bird and hen the prop under the coop was knocked down, making the intruder a prisoner. He had slain five of the little chicks and it is not known how many he had eaten.

It may be true that breeding stock should not be kept fat, but there is no need for warning Southern breeders of danger in this direction, judging from the condition in which they usually put breeding stock into auction sale rings. We have known many a man to fatten beef cattle for \$8 to \$10 a hundred and think it paid him to feed; but what we cannot understand is why these same men will put breeding stock in a public sale in poor condition. On well bred breeding stock that cost two or three hundred pounds put on to make them fat will sell for \$25 to \$50 a hundred pounds. If it pays to feed steers for \$10 to \$12 a hundred, certainly it will pay to feed the breeding stock that is for sale for \$25 to \$50 a hundred.

The lack of feed production and the failure to feed are the discouraging aspects of the livestock business in the South.—Progressive Farmer.

The largest mass of pure rock salt in the world lies under a section of Galicia. It is known to be more than 500 miles long.

Speaking of "Good Lookers"

Have you seen our new stock of Goodyear tires in the smaller sizes?

The famous ALL-WEATHER treads add as much to the looks of a Ford, Chevrolet or Maxwell as they do to any of the big high-powered cars.

And they give the same long mileage in these smaller sizes.

There are two other types of Goodyear Clincher casings in these sizes. We believe that each type is the best of its kind at its price.

Come in and look them over!

Those Good Brakes
in a

MAXWELL

are aided by special steels

Brakes seem to be one of the overlooked features of a motor car. In a Maxwell they have had the extreme of attention.

For instance, a road engineer, in about 500,000 miles of experimental driving, has constantly tested and studied them. That is why you can check the speed of a Maxwell in an instant and bring it to a standstill either by foot brake or hand brake.

Special steels in a Maxwell are largely responsible. They give it extra strength in wear and endurance, but they make the car light in weight.

Thus when you call on it to halt, the brakes are not required to "wrestle" with superfluous weight, and the momentum of the car is easily stopped.

These are steels made to Maxwell's own formulae. They equal, pound for pound, the steels in any car built. But no car has steels just like them.

In a large measure they contribute to Maxwell's growing prestige, as expressed in figures like these: nearly 400,000 now in use; and 100,000 more for the year 1920.
