

PLAN FOR WATEREE BRIDGE
Survey To Be Made at Early Date of Various Locations

Columbia, June 9.—A year or more will likely have to elapse before the Waterree river bridge between Richland and Sumter counties is in use, according to officials of the State Highway Commission, which Monday afternoon approved the request for \$75,000 of Federal aid for the construction of this span.

The next step in the process of securing the bridge is the survey by the highway engineers, with a view to determining the best location and the cost of the various phases of the work. The location of the bridge will be decided by the State Highway Department, which will act with a view to the best bridge for the least cost and to serve the greatest number of people, to the best satisfaction.

The survey for the bridge will be started at an early date, but this will take a good many months, it is stated, because the highway department proposes to survey a number of possible locations and to investigate the situa-

tion thoroughly.

After the survey is completed plans will have to be drawn, and when these are completed bids will be asked for and the contract let to the lowest bidder. All of these processes will take months.

Sumter county highway authorities and Richland county authorities have approved the project and each county will contribute \$37,500 to match the \$75,000 of Federal aid money, for the construction of a \$150,000 bridge of steel and concrete.

Dr. Lee Found Guilty

The case against Dr. George F. Lee, of Sumter charged with violation of the narcotic act, which was interrupted Friday by the defendant fainting in the court room, was concluded Saturday at Charleston, the jury finding the accused guilty. He was sentenced to pay a fine of \$1,000 and costs and serve a term of three months in the Richland County jail.

B. W. Pierce, charged with violation of the narcotic act, pleaded guilty of the charge and was sentenced to serve one year in the penitentiary in Atlanta.

RAINBOW DIVISION REUNION

City of Birmingham Has Been Selected The Place in July.

Columbia, S. C., June 14.—The first annual convention of the Rainbow Division Veterans will take place on the 12th, 13th, and 14th, of July. From all reports this is going to be the greatest event in the history of the Old Rainbow Division since the day it was instrumental in making the Boche sign the armistice. The city of Birmingham has been selected as the place of this meeting and they are preparing to let us capture the town in real style with any kind of weapons or methods you want and have signified their willingness to be captured. Special trains from all over the country with various State Chapters units will carry thousands of our old comrades to the scene of battle. They guarantee one thing and that is, no "Corn Whily" will be served except to those who are rab'li souvenir hunters.

We want the South Carolina Chapter to send a real live delegation of wire cutters to show the old Fighting Alabams we are still their friends.

Special Pullmans will leave Columbia, S. C., 4:00 P. M., July 11th. Arrive Spartanburg 7:40 P. M.; Arrive Greenville 1:00 A. M., July 12th. Arrive Birmingham 12:10 Noon July 12th. Leave Birmingham 4:20 P. M., July 14th. Arrive Greenville 5:05 A. M., July 15th. Arrive Spartanburg 6:30 A. M. Arrive Columbia 2:30 P. M., July 15th.

One and one-third fare round trip has been granted by the railroads in this territory to all delegates and their dependents.

Identification certificates for reduced fares can be obtained from J. G. Todd, Charlotte, N. C. Write him and let him know if you are going and to send this certificate to you. Do this TO-DAY as it will be necessary to have in all names of delegates by June 25th, 1929.

Robert S. Lafaye, Secretary.

Farm Facts

Union County will hold its County Fair this year November 2 to 6 inclusive.

Anderson farmers are selling and buying land at very high prices, two tracts having been sold recently one for \$400 per acre and another for \$600 per acre.

The Beaufort truck farmers have gathered about 3500 acres of Irish potatoes which produced about 210,000 barrels and sold for nearly \$3,000,000.

There were in this state on February 1, 1929, according to the Bureau of Crop Estimates 1000 farm tractors and 2587 motor trucks used for farm purposes.

Holl weevils have been reported already in Barnwell, Bamberg, and Orangeburg Counties.

Cotton Root Louse

There has recently been quite a bit of complaint from farmers in the county suffering from cotton root louse. In their activity the root lice are dependent upon the ants as a means of traveling from one plant to another. The lice secrete a honey-dew and the ants tend them and transfer them from one stalk to another so as to obtain this honey-dew, consequently the farmer must look upon the ants as enemies rather than as friends as is often the case. A system of timely shallow and rapid cultivation serves as a temporary means of control. The infested cotton should be cultivated at least once a week during dry weather and as soon after every rain as the soil will permit in this way the ants are thoroughly disorganized and must turn their attention to organization instead of nursing the cotton root lice, hence their progress is greatly retarded. This process should be kept up until the cotton is thoroughly established in the soil and in a thrifty growing condition.

J. W. Sanders, County Agent.

Resolutions on Death of Oliver Gaskins

Whereas it has pleased Almighty God in His infinite wisdom, to call unto Himself our true and faithful worker, Oliver Gaskins.

And whereas, we deplore his loss and feel that his example should be a bright and shining light to his dependents and race.

Be it resolved that we the Civic League of Camden, extend to his family our sympathy in their loss which is shared by us. That we know, that faithful to the end he has passed over the river and rests under the shades of the trees.

That we inscribe on the page of our minute book devoted to his memory, "well done thou good and faithful servant" etc., and that we make with his name one of the trees that he planted and loved and publish these resolutions and send a copy to his family.

Mrs. E. C. von Tresekow, Chairman.

W. G. Lattimore, white, indicted in 1901 on the charge of killing Mack Lowry, white, in Spartanburg county has surrendered to the sheriff of Spartanburg for trial. Lattimore fled the day after the killing and has since been roaming over the country; but his conscience troubling him, he decided to return and face his trial.

We Sell Genuine International Repairs

Made For

The Line

By the

INTERNATIONAL HARVESTER COMPANY

REPAIRS made for International implements and other farm equipment by the Harvester Company are the only repairs made from the original patterns. All others are copied from copies, and in this roundabout reproduction they may lose in correctness of shape, sharpness of detail, closeness in fitting, and quality of material. These repairs are made for Deering, McCormick, Milwaukee, Titan and other International-made machines.

Genuine IH Repairs

Are Better in Quality
Fit Better and Wear Longer

The Harvester Company stands back of its machines. Be fair in the matter. Do not substitute imitation repairs for the genuine and expect best service. Repairs made by other concerns and marked "Made for" or "Will fit", are not genuine IH repairs. They often lack weight, are not always correct in shape, are imperfectly finished, do not fit properly, or are made of inferior material. Buy Genuine International Repairs for your International Farm Equipment.

First Soak-Shave Soap and

Boil 10 minutes-Punching Clothes with Stick

AND the average week's washing is done for a few cents. Did you ever hear of anything like that? Clean Easy is the most wonderful laundry soap ever made. It does all the work. You don't have to rub or scrub a thing. Clean Easy knocks dirt, spots, stains, germs—anything and everything unclean out of all sorts of clothes.

It won't hurt the clothes—but has the go-get-'em action that cleans overalls, work shirts and all heavy work.

Clean Easy looks different from other soaps—and it is different!

Boiling clothes is the only safe

way to wash. Heat kills germs and disintegrates dirt. The Clean Easy method purifies and sterilizes clothes as well as cleans and sweetens them. You couldn't wash your clothes as clean if you scrubbed all the skin off your fingers.

Thousands of women call Clean Easy their best friend. It helps keep them young, bright and happy, for the old back aches, red hands and rheumatism caused by the scrubbing boards are forgotten.

You will be delighted with the ease, rapidity and economy with which Clean Easy cleans clothes. Ask for it today. At your grocer's.

Notice how different Clean Easy looks from other soaps—and how differently it works. There is no "just as good wash soap" made. Clean Easy is in a class by itself.

SAVES THE RUB

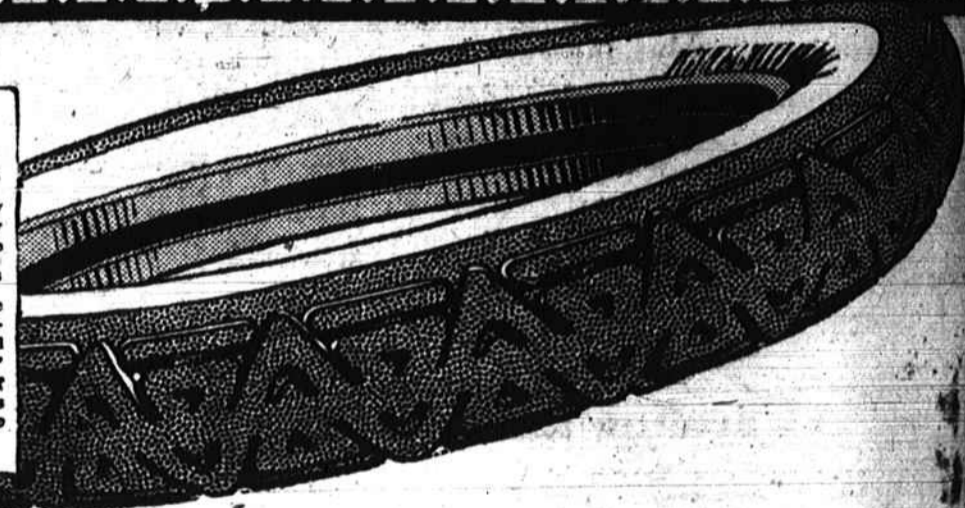

The women delegates and alternates from New York to the Democratic convention in San Francisco will travel in a special train.

The educated women in Czechoslovakia are without a doubt the most progressive along these lines of any of the European nations.

Mrs. Arthur Hamilton, daughter of Sir Charles Fairlie-Cuninghame, training for an attempt to swim English Channel in August.

The Zig-Zag Tread

Mechanically and scientifically correct for greatest security under all road conditions. The and shaped cups alternate on both sides of the extra wide, heavy tread. Skidding is obliterated. Parallel lines of the "Pine Trees" and straight center line of tread are thick rubber studs that assist in keeping the wheels "dead on."

Lee Cords—Economy Tires

PUT a Lee Cord on your car. Forget about it for five, six or seven thousand miles. Then watch it closely. Note how it continues to roll up mileage—how it stays young and keeps postponing the need of a new shoe—how it outrides and outlives any tire you ever had.

Lee Cord construction, the high quality of materials and the hand work of skilled cord tire specialists practically eliminate blowouts, blisters, tread separation, sidewalls breaking, internal friction and the other usual tire troubles.

Keep close count on the mileage delivered. Divide the price of the tire by the miles of service. Let the tire-cost-per-mile be your guide for future tire buying.

When you begin using Lee Cords you end tire waste. Every mile brings a saving; you'll see the difference in a year. But don't wait to have me show you their advantages.
