ALADDIN SECURITY OIL
STANDARD OIL COMPANY

When there's quick baking to be done

NEW PERFECTION Oil Cook Stoves

IN fact, the New Perfection Oil Cook Stove does all kinds of cooking perfectly and economically. With a New Perfection Oven it is possible to bake the fluffiest of cakes and light, crisply-browned biscuits.

Note the long blue chimney on each New Perfection burner. This provides a draught which drives clean heat produced by the white-tipped flame forcibly against the cooking utensil, without sooting it. Soot is simply good heat gone to waste.

And remember that the white-tipped flame gives the most heat. Through the mica door in the chimney you can always see the flame and wick and adjust them in a second.

Busy housekeepers appreciate the small amount of attention that the New Perfection requires. No coal or wood to bring in, no ashes or litter to sweep up and take out. It stands up well above the floor and you can dust under and around it in an instant. Select the four-burner size with cabinet top and New Perfection Oven. It is made also in five, three, two and one-burner sizes for any who prefer them.

You will always get perfect results from your oil stove if you use Aladdin Security Oil—it's pure kerosene.

New Perfection Oil Cook Stoves are sold at most department, furniture and hardware stores.
