

Optimism

Our farmers have made wonderful development and strides in the last few years in spite of the Boll Weevil. This brings us to the conclusion that we have one of the best farming sections anywhere in the Southland. With a little effort and good fertilizers we can produce anything. We have the world beat in raising cotton, sweet potatoes, corn. We can raise many other crops, namely, tobacco, hay and any kind of garden truck for market. Springs & Shannon has catered to the wants of our farmers for over 80 years and we are in just as good a position to do it today as we ever have been. We at all times carry a full stock of Farm Implements, Fertilizers, Groceries, Hay, Grain and everything else the farmer needs. Our stock is just as complete in hard times as it is in flush times. We feel confident that we can save the public money on their purchases. Get our prices before buying.

DONT FORGET LARRO COW FEED.

GOOD PRINTING

—is now at your command. The old printers' rule, "follow copy if it goes out of the window" will be followed for all who have their definite plans. There are many possibilities as yet untouched, however, in the methods of producing new and business-building printed matter. To those who are desirous of getting the most from their printing bills, we offer special facilities.

Although our shop is generally filled with orders, our facilities and workmen make it possible to get your orders out on time and you don't have to wait long after placing your order.

Postmaster Calls Attention to Important Postal Requirements.

Postmaster Trantham requests that we publish for the benefit of the public the following bulletin recently sent out from the postoffice department at Washington:

"Notwithstanding attention has been repeatedly called to the requirement that a parcel of fourth-class matter shall not be accepted for mailing unless it bears on the outside the name and address of the sender, many postmasters fail to observe the requirement.

"This causes much inconvenience and annoyance, since persons and concerns receiving parcels which do not bear the senders name and address are often unable to ascertain who sent them and give the sender proper credit, or, if the parcels are undeliverable, their return can not be effected.

"In order to facilitate the handling of parcels of fourth-class matter and prevent confusion and delay, it is important that the senders name and address be placed on parcels in a uniform manner, and to this end the senders return card should be placed in the upper left hand corner of the side of the envelope label, or tag bearing the addresses name and address.

"It is also highly desirable that there be inclosed in every parcel of fourth-class matter a card or label bearing the written or printed names and addresses of the sender and the addressee, so that in case such names and addresses appearing on the outside should be destroyed or lost the delivery of the parcel or its return to the sender may nevertheless be effected. Postmasters are requested to impress upon their patrons the desirability and advantage of inclosing a card bearing such names and addresses for purpose of identification and urge the observance of this precaution.

MADE OPEN CHARGES

At a public meeting last Monday in the courthouse at Bishopville, staged by the women of that town, and which was largely attended, strong resolutions were adopted openly charging that the drug stores of that town were selling alcoholic preparations to the young men, calling upon the mayor and public department to suppress this illegal traffic, and going on record as boycotting the drug stores where these women believe the law is being violated; also calling on the sheriff of the county to round up the liquor law violators, one resolution saying:

"That before appealing to any outside agency, they desire to urge upon the proper officers of the town and county that it is their duty to stop this violation of the law, but unless results are obtained, the aid of the federal government will be sought and such other means used as will secure the enforcement of the law."

And here is another:
"Be it resolved that the members of this meeting pledge themselves not to patronize any drug store in the town of Bishopville that they believe engages in the illegal sale of alcoholic preparations and that they request their physicians not to have prescriptions filled at such stores."

Now, that is the way to go about having the laws enforced. It is refreshing to see that those women have the courage of their conviction.—Rock Hill Record.

Cash Value of Education.

Forty years is considered wage earning period.

1—Average salary of illiterate man is \$400 per year; 40 years at \$400 is \$16,000.

2—Average salary of grammar school graduate is \$600 per year; 40 years at \$600 is \$24,000. Increase of \$8,000. School period 1,000 days. Value of a day in grammar school is \$8.

3—Average salary of high school graduate is \$900 per year; 40 years at \$900 is \$36,000. Increase of \$12,000. School period 800 days. Value of a day in high school \$15.

4—Average salary of college graduate is \$1,500. 40 years at \$1,500 is \$60,000. Increase of \$24,000. School period 800 days. Value of a day in college is \$30.

5—Average salary of leading professional and business man (college graduate) is \$5,000; 40 years at \$5,000 is \$200,000. Increase over high school graduate \$164,000. School period (college) 800 days. Value of a day in college may be worth \$205.

The uneducated man has seven chances in 10,000,000 to rise to prominence.

The high school graduate has 65 chances in 10,000,000.

The college or university graduate has 900 chances in 10,000,000.

In what class are we going to be? Now is the time to decide. It behooves us to grasp our opportunities before it is too late. Nobody but a fool would waste his time at school when confronted with such startling statistics.

A Question of Sex.

Two negro quartermaster privates were standing on Trafalgar Square, London, a few days before the Armistice, as a battalion of Scotch Highlanders passed. They watched the column approach without a word of comment, so great was their amazement at a Scotch soldier's uniform. After the battalion passed, one negro turned to the other and said:

"Nigger, what wuz dat?"
"I dunno, jesting they wuz sojers."
"What gits me is dis, dey wan't men, cause dey was wearin skirts, an' dey ain't wimmen, 'cause dey had whiskers."
The other negro's face brightened, then said: "You is a no' foot! 'Course dey wan't men, an' dey wan't wimmen. Dey wuz one of dem Middlesex Regiments we done heard so much about."
