"BE A BOOSTER"

If you think your towns the best, Tell 'em so. If you'd have her lead the rest Help her grow. When there's anything to do the fellows count on you, You'll feel bully when it's through, Don't you know?

If you want to make a hit, Get a name. If the other fello's it,

Who's to blame? Spend your money in your town. Thus you keep prices down-Give the mail concerns the frown That's the game.

f you're used to giving knocks Change your style, Throw bouquets instead of rocks'
For a while.
Let the other fellow roast,

Shun him as you would a ghost-Meet his hammer with a boast And a smile.

When a stranger from afar Comes along Tell him who and what you are-Make it strong.

Needn't flatter, never bluff. Tell the truth for that's enough-Join the boosters, they're the stuff, We belong.

Garden Fete For Eleventh Grade

Friday evening the spacious grounds of the Long home on Mill street presented a festive scene. Brilliant lights swung from massive trees and rustic benches were attractively arranged in shady nooks.

The occasion was a compliment to the Eleventh grade soon to graduate from the Camden High School, with the Ninth grade acting the admirable part of host and hostesses. The games were all athletic, and was very much of a track meet. High jumpers were awarded doughnuts and broad smile runners were much in evidence. Prizes were awarded the experts in the different track attractions. and the "loving cup" overflowed with joy and merriment. Ice cream and cake were served during the evening, also fruit nunch.

MOTHER GOOSE PLEASES

Tiny Tots Entertained Public at Opera House Thursday Evening.

The Mother Goose Rhymes staged at the opera house last Thursday evening by the first grade of our Camden graded school was most creditable to pupils and teachers and thoroughly enjoyed by a large and enthusiastic audience. The only hitch came when Cupid, bereft of his clothes utterly refused to appear in public. All honor to Cupid! May He live long to set us so good and example.

The rest of the scene was very beautiful and we hope before long to have when a bolt of lightning hit the transbetter look at the old woman with the switch and the little fairies with their gauzy wings. The pie of black to the city pumping station, supposed birds was most effective. So were Miss Muffett and her Spider Mrs. Jack Spratt whose lean spouse failed to appear. The ten o'dock scholar was effective. The grand father clock was a mediately reported the gruesome diswork of art. Little Boy Blue was charming and others all, charming the audience by their enjoyment of what they themselves were doing-showing the wonderful training and work by their teachers which had made it possible to get up such an entertainment in such a short time. Teachers and scholars deserve unlimited praise, and it is good to know that 'The Mother Goose Rhymes' which was to help with the equipment of the new school building was most successful in a financial way also.

The Story of Our States By JONATHAN BRACE

XXIII.—MAINE

OBSCURED the haze of antiquity the old Icelandic sagas record a voyage in 1000 by Leif,

son of Eric the Red, who sailed from Greenland to Labrador and down the coast of Maine. The next probable voyage to this coast was by John Cabot in 1497 and later by his son Sebastian. It was, however, Capt. John Smith, the leading spirit of the settlement at Jamestown, who sailed as far north as the Penot scot and first drew a rough chart

In the grant by James I to the Plymouth Colohy Maine was included in their territory. Opposition to the Plymouth Colony arose among the king's courtiers and Sir Ferdinando Gorges and Captain Mason succeeded in obtaining for themselves rights to the country between the Merrimac and Kennebec rivers. This they divided, Gorges taking the northern section. Meanwhile Gorges had sent over a small colony to the mouth of the Kennebec, but this settlement was soon abandoned. The first permanent settlement was made in 1625 at what is now York. Massachusetts objected to Gorges' claim and finally annexed all the territory up to Casco Bay and called this northern section the District of Maine. Maine was dissatisfied with the rule of the mother state and by 1820 succeeded in being admitted to the Union as the twenty-third state.

Maine was the first state to adopt prohibition. In the beginning Maine was strongly Democratic. It was largely for this reason that she objected to being ruled by Massachusetts which was Federalist. Since 1856, however, Maine has been decidedly Republican. It has six

electoral votes for president. The name Maine was so designated in the charter of 1639 in which Charles I granted this land to Gorges. It had already been commonly used by the sailors as distinguishing the mainland from the many islands along the shore. The nickname for the state is the Pine Tree State. Its area is 38,040 square miles, which is precidelly as large as the combined area of the other five New England (by McClure Newspaper Syndicate.)

LIGHTNING KHAS THREE

During Severe Electric Storm at Easley Saturday Afternoon.

Greenville, May 13.-Clifton D. Bolt. superintendent of the Basley Water and Light Plant, and his assistant, A. Cal McMahan, were killed by electricity in some mysterious way this afternoon at the Easley pump station, near Easley, these making the third death from electricity in Easley today, the first being that of Miss Ollie Brown, of Glenwood Mill village, who was instantly killed about 2 o'clock, while standing in her room in her residence. former outside the house.

Messrs. Bolt and McMahan, had gone ly to fix something that had gone wrong with the plant. About threequarters of an hour later a passer-by saw the bodies of the two men and imout to the scene. The body of Mr. the body of Mr McMahan was inside the building, in a corner, in a sitting position, with a crowbar in his hand. ence on Mr. Bolt, although the indications were that he had writhed on the ground before dying. The pumping station is operated by a 2,300-volt current and the supposition is that Mr. McMahan first came in contact with electricity in some way, and that Mr. Bolt, coming to his rescue, was also electrocuted. A severe electric storm passed over this section during the afternoon and it is thought that a bolt of lightning might have been conveyed to the pump house while the men were in it by one of the wires.

An electrician, who arrived on the spot immediately after, warned the erowds to stay away from the building, saying it was "charged with electricity," and disconnected the station from the electric lines. An investigation is going forward.

Miss Ollie Brown was standing in a room with several other persons beneath an electric light and with her hand on an iron bed, when a bolt of lightning struck the transformer. She fell dead, although no one else in the room was hurt.

Florence, May 12 .- F. E. Warner, a witchman on the Atlantic Coast Line freight vards, was killed here last night when he was caught between the bumpers of the locomotive tender and a box car which, it is said, he was attempting to couple. Warner's body was pierced by the bumpers. When extracated he was in an upright position. He was carried to the hospital and lived two hours. Warner was 25 years old.

Hobkirk Hill Chapter Met

Especially pleasing in every particular was the May meeting of Hobkirk Hill Chapter with Mrs. Clifton McKain as hostess. The regent, Miss Minnie Clyburn presided and the secretary, Mrs Edwin Muller called the roll and read minutes of last meeting. After several business discussions the

program for the afternoon was presented, Miss Helen Phelps gave an interesting account of the Battle of Camden. Miss Leila Shannon told of her old nurse, a family slave, who in early youth saw the remains of Baron De-Kalb removed to where they now rest.

Miss Lois Williams as a representative of the Camden Music club gave a lovely piano selection, and responded to an encore. Mr. Clifton McKain then pleased the company with two songs.

A salad course with accessories was served with hot coffee. Mrs. Briggs, of Washington, D. C., Mrs. Rann, of Nevada, and Mrs. A C

Ancrum were guests of the afternoon.
