ALL ACCORDING TO NATURE

Animals and Birds Universally Obey Law Seemingly Imprinted by a Supreme Intelligence.

Strange things happen in the jungles. Carveth Wells, explorer and lecturer, tells about the hornbills, long-tailed birds so big they often measure five feet from tail tip to beak. In Malay Jungles Wells saw the male hornbill during the mating season drive the female into a hollow tree, then wall up the opening with mud. This protects Mamma Hornbill against enemies. She stays in her hill until eggs are laid and hatched. Then pa lets her out. Meantime he has fed her through a small opening left in the mud. He gathers the food by using his saw-toothed beak to cut fruits and flowers from their stalks. Maybe that's where man originally got his idea for the saw, now used to cut boards.

Not necessary to go as far as Malaysia. In Canada, when timber wolves mate, Mrs. Wolf hunts a cavern with a roof that slopes downward to meet the floor in a V-shape. She pushes her young far back in the V. This is to keep Pa Wolf from eating his family. Mother Wolf can get at the babies easily, with her small body. Pa Wolf, having a larger body, cannot wedge himself in far enough to reach them. Wise nature that makes Mother Wolf smaller than pa. Wise Mother Wolf that knows, in advance, her husband's appetite and how to baffle it.

Seals swim north to rookeries or breeding grounds. The male seals go first, house hunting. After they have located good homes, near plentiful food supply, messengers swim back to summon the cow seals.

In the baby ward of a hospital you see infants, each in his own bed, all very orderly. Mother Bee does the same, builds an apartment house of cells with wax walls. In each cell one egg is laid and one individual raised. Wasps have the same system, manufacturing in their bodies the paper with which they make the cells. Ants build their nurseries in the earth or rotted trees, with many bedrooms, also corridors through which Mother Ant dashes about, peering into each room to see that baby is O. K., then on to the next.

You cannot explain these peculiar things in nature, any more than you can explain why a male peacock always has four wives, never more, never less. All forms of life seem to revolve around the function of having children. Considering the intricacies and far-sightedness of what we call nature, it is bewildering how any man can fall to believe that a Supreme Intelligence is behind it all.

To Explore the Sahara.

Under Rothschild auspices, a zoological expedition, composed of one Englishman and one Scotchman, is forcing its way deep into the heart of the Sahara desert, a region which is practically unmapped zoologically, the Living Age states. At its head is Capt. Angus Buchanan a zoological explorer of great skill and experience. The expedition has been sent to find and collect birds, animals and plants wherever it is able to penetrate, to look for any traces of Roman or other classical civilization in the central Sahara, and to secure camera and motion-picture records of the habits, customs and general mode of life of the inhabitants of the country.

The expedition, with its camel caravan, is now heading for the desert north of Nigeria. Communications are necessarily very irregular, for there are only five main roads across the desert, some of which have never yet been traveled by Europeans. Once Captain Buchanan leaves the French post of Agades there may be no news from him for months.

Copper and Health.

The use of copper sulphate for the disinfection of reservoirs and the destruction of algae and noxious germs in water has led to much discussion of the old idea that copper is dangerous to health. An official of the Department of Agriculture maintains that a change has come over scientific opinion on this subject. Strange as it may seem, he says, there is not an authentic case of copper poisoning on record, either in this country or abroad, and he adds that toxicologists and physiologists who have sufficiently studied the subject agree that copper, in the amount used for purification of water, is harmless. On account of the many defects in the practical use of filtration plants, he regards purification of water supplies by copper as a preferable method, or, at least, as a safe auxiliary.—Washington Star.

American Rainfall.

A vivid picture of the amount of rain that falls upon the United States is given by a Washington scientist. It is equivalent to ten Mississippi rivers flowing constantly. Otherwise measured, it equals 30 inches of water for the entire area, making a total volume of 152,000,000,000 cubic feet. But this is only half the amount that would be necessary to maintain the full productivity of the soil of the whole country. One-third of this amount runs down to the sea in rivers. The problem for engineers to solve is the utilization to the utmost of the supply that nature furnishes.—Exchange.

Wanted to Know.

"Mamma, what's in the package?"
"While at the butcher's, dear, I got some lights for the cat."
"Mamma, if I ate lights could I see in the dark like Kitty?"—Boston Transcript.

A Good Suggestion.

We note that many cities, alarmed over the price of their neglect, are "going after" speed demons. Their action is most timely and should encourage similar steps on the part of those in authority in other sections.

The speed fiend is a menace to the city or country-side through which he travels. The inflammable gas that propels a motor car will deal death just as surely as the liberated gas behind a pistol ball. Accidents will happen, of course; but the speeding motorist who takes life through no fault of his victim should be shown no leniency because he chose a motor car instead of a pistol, a shotgun, or an axe to commit murder.—Satuda Standard.

Planting Trees Along the Highways.

To make Minnesota famous as "the state with the tree-lined highways" is the object which the forestry department of that state has set out to accomplish. The department will plant 30,000 trees along the highways this year and each year hereafter will add to the number. What Minnesota is doing is also being done in Pennsylvania and many other states. Experts declare that if the trees are set back far enough their roots will not injure road pavements. It was contended at one time that tree roots and the shade cast by the branches were detrimental, for instance, to asphalt paving, but experience in Washington, D. C., and other cities, especially in Florida, Illinois, Massachusetts and California, containing beautiful tree-lined asphalt streets have completely exploded the idea.

Sammy Good, one of the best lightweight boxers on the Pacific coast, is trained for all his fights by his sister and wife, both of whom are boxing fans.

ANNOUNCEMENTS.

FOR TREASURER

I hereby announce myself a candidate for county treasurer for Kershaw county to succeed myself.

D. M. McCaskill.

I hereby announce myself as a candidate for the office of Treasurer for Kershaw County at the Democratic primary to be held in August and pledge myself to abide the rules of the party.

S. W. HOGUE.

I hereby announce myself as a candidate for the office of Treasurer for Kershaw County, subject to the rules of the Democratic party. If elected I pledge faithful and efficient service.

W. A. SHAW.

FOR SHERIFF.

I hereby announce myself as a candidate for re-election to the office of Sheriff of Kershaw County, subject to the rules of the Democratic primary.

GROVER C. WELSH.

I hereby announce myself as a candidate for the office of Sheriff of Kershaw County subject to the rules of the Democratic primary.

M. C. WEST.

FOR STATE SENATOR

I beg to offer myself as a candidate for the state senate and ask your thoughtful and friendly consideration of the same.

Respectfully,
T. J. ARRANTS.

At the earnest solicitations of many friends from every section of the county I am announcing myself as a candidate for the office of State Senator for Kershaw County.

W. R. HOUGH.

After considering the matter carefully for some time, I have concluded to offer myself as a candidate for the office of State Senator from Kershaw County.

R. B. WILLIAMS.

I have decided to make the race for the State Senate subject to the rules of the democratic primary. I will stand four square on every issue before the voters of Kershaw County. If you don't know me, ask the man who does, and come out to the campaign meetings.

Respectfully,
L. O. FUNDERBURK.

FOR REPRESENTATIVE.

I hereby announce myself as a candidate for the House of Representatives from Kershaw County, subject to the rules of the Democratic party.

N. S. RICHARDS.

I hereby announce myself a candidate for re-nomination as a member of the House of Representatives from Kershaw County, subject to the rules of the Democratic party.

GEORGE G. ALEXANDER.

I hereby announce myself as a candidate for the House of Representatives from Kershaw County, subject to the rules of the Democratic primary.

RICHMOND H. HILTON.

I hereby announce myself a candidate for the House of Representatives, subject to the rules of the Democratic primary.

WILLIAM D. COOK.

I hereby announce myself a candidate for the House of Representatives subject to the rules of the Democratic primary. If elected I promise the people of Kershaw County faithful and honest service.

J. B. MUNN.

FOR JUDGE OF PROBATE

To the Democratic Voters of Kershaw County—Ladies and Gentlemen:

I hereby announce myself as a candidate to succeed myself as Judge of Probate for Kershaw County, and promise the same efficient service in the future as in the past.

Very respectfully,
W. L. McDOWELL.

I hereby announce myself as a candidate for Probate Judge for Kershaw county, subject to the rules governing the primary election. If elected I pledge faithful and impartial service in the discharge of the duties of the office. FRANK H. ARRANTS
After due consideration I hereby

announce myself a candidate for Probate Judge for Kershaw County subject to the rules governing the primary. The people of Kershaw county have been very considerate of me in the past, for which I am sincerely grateful, and if elected Probate Judge I pledge fair and reasonable service to one and all.

I. J. MCKENZIE.

Responding to the solicitation of a number of my friends, I hereby announce myself as a candidate for the office of Probate Judge for Kershaw county, subject to the Democratic primary.

JOHN I. BOWERS.

FOR AUDITOR

I hereby announce my candidacy for Auditor of Kershaw County, subject to the rules of the Democratic party. If elected I pledge faithful and efficient service.

B. E. SPARROW.

FOR AUDITOR.

With deep appreciation for the generous support accorded me in the past I hereby announce myself a candidate for reelection to the office of Auditor of Kershaw County, subject to the rules governing the Democratic Primary.

W. F. RUSSELL.

FOR MAGISTRATE

I hereby announce myself a candidate for re-nomination to the office of Magistrate for DeKalb Township subject to the rules of the democratic primary.

SAMUEL N. NICHOLSON.

I hereby announce myself as a candidate for the office of Magistrate for Lower Flat-Rock subject to the rules of the Democratic primary.

S. S. CLYBURN.

Cylinder Re-grinding Machine

W. O. Hay's Garage, of Camden, has just installed the most up to date machine which will regrind many makes of cylinders without the necessity of removing block from chassis, which in itself saves in mechanics time more than the total cost of grinding, pistons and wrist pins—in the old way.

W. O. HAY'S GARAGE,
South Broad Street, Camden, S. C.

This is the job that gives results.

Kelly-Springfield TIRES

The reductions that have brought the price of Kelly-Springfield Tires down to a comparative basis were made possible simply by greatly increased production in the most modern and most efficiently equipped tire plant in the world.

The quality of Kelly products is better than ever, but now, it costs no more to buy a Kelly than the so-called high-grade tires.

The public is going to buy a lot of Kelly's this year, and we are going to sell them.

No waiting to order it for you.

High-grade Oils, Willard Batteries, Competent and Reliable Service on All Make Cars. Specializing Ignition, Starter and Generator Troubles.

STRONG SAFE CONSERVATIVE

Better Roads For Chesterfield.

Federal Aid Project No. 165 extending from County line at Lynchies River to Ingram Mill pond linking up with project 119 on the W. A. Highway, which is now under construction, received the official approval of State Engineer Chas. H. Moorefield in Chesterfield on Monday.

Mr. Moorefield met the County Board of Commissioners and agreed to lay aside \$50,000,000 to be matched by the county with a similar amount. The project extends approximately 23 miles and will cost from \$90,000 to \$100,000. The road bed will be sand clay and concrete bridges erected over all

streams.

This will make the W. A. Highway, through Chesterfield County, a highway to be proud of and one that will mean much to Cheraw this winter.

Engineers are already at work re-locating some lines and the contract for building will be let in the near future.—Cheraw Chronicle.

Fordson

THE UNIVERSAL TRACTOR

\$395
F.O.B. DETROIT

Reduce Your Production Costs

Farming, like every other business, must cut down the overhead.

It is not a question of being able to afford a Fordson; it is a question of being able to continue farming on the old too-costly basis.

The farmer's problem is not all a sales problem; it is also a production problem. He must cut down the cost of production.

The Fordson does more work at a lower cost and in less time than the old hand methods.

Let us give you the proof. Write, phone or call today.
