THE CAMPEN CHRONICLE, CAMD EN, SOUTH CAROLINA, FREDAY, OCTOBER 13, 1922

MADE REMARKABLE FORECAST.

E. Roy Stone Missed McLeod's Major ity by Eight Votes.

(From Greenville News.)

Missing by only eight votes the majority which Thomas G. McLeod secured over Cole L. Blease for the nomination as governor of South Carolina, E. Roy Stone, of this city, self-styled "political prognosticator," has justly carned his right to that title,

Two days before the second primary on September 12, The News carried Mr. Stone's forecast in which it was stated that McLeod would win over Blease by

TAX NOTICE.

Office of Treasurer Kershaw County, Camden, S. C., Sept. 22, 1922.

Notice is hereby given that the books will be opened for the collection of State, County and School taxes from October 15th, 1922, to March 15th, 1923. A penalty of 1 per cent will be added to all taxes unpaid January 1st, 1923, 2 per cent February 1st, 1923, and 7 per cent March 15th, 1923. The rate per centum for Kershaw county is as follows:

	MII	18.
State Taxes	. 7	1-2
Good Roads	0	34
County Taxes		1-4
Hospital		3
DeKalb Township Road Bonds.	. 9	1-2
for DeKath Township only	M. 77.	

28 1-2 Total Dog Tax \$1.25. All dog owners are required to make a return of their dogs to the County Treasurer, who is required to furnish a license tag. All dogs caught without the license tag the owners will be subject to a fine of Twenty (\$20.00) Dollars,

a majority of 14,272 votes. The exstate." ecutive committee, meeting in Columbia more than Mr. Stone predicted ! Since 1910, when C. C. Meatherstone

race in their aspirations for the gov- twelve years. ernorship, Mr. Stone has been making his prognostications. In that year he predicted the election of Blease and The News, Mr. Stone has been fiterally missed his majority by only 960 votes,

Mr. Stone prides himself most on his prognostication of 1914 when he predicted the order in which the five candidates for governor would finish, and considers this his best work to date. He predicted the election of Manning and did not miss the number of votes received by any candidate more than 831 votes. He also predicted in that year that E. D. Smith would defeat Cole L. Blease, Jennings and Pollock. who opposed Senator Smith,

In 1918 he predicted the election of Dial over Blease by a large majority. He also predicted the election Cooper, who lead the field.

The only time Mr. Stone has missed the result of the governor's race was in 1016 when he predicted that Cooper, instead of Manning, would be in the second race with Blease. Manning a prophet or a son of a prophet." was in the second race and his election | Many letters, the number being estiover Blease was predicted by Mr. Stone.

Mr. Stone's predictions of the first and second primary of 1922 have Stone got in some of his best work as been quite remarkable. He predicted that McLeod and Blease would go into the second race, but missed the outcome somewhat on the proportionate vote. His prognostication gave the two candidates an almost equal number of votes, whereas Blease had a long lead in the first primary. His prediction of other state races in the first primary, however, were carried out almost to the letter.

He predicted Jackson's election over his two opponents in the first primary. He said the race for secretary of state would be close with the odds on Dove, He said that Wolfe would be elected by an overwhelming majority in the first (rimary, Walter E. Duncan, he prodicted would be elected by the fargest majority ever given any candidate either of a public or private nature. in South Carolina for comptroller general. He said there would likely be a second race for superintendent of edneution between Mr. Swearingen and Mr. Hope, with the odds in favor of Mr. Swearingen or possibly Mrs. Drake He predicted a close race for adjutant general with the odds slightly in favor of Marshall. He missed this prediction, as Craig was elected.

He made a prognostication of the accord primary only in the race for the young political prognosticator governor, with the result as told above. lived for seven years. Since that His prognostication gave a forecast time he has resided largely in Anderof the vote in each county. While son and Greenville and for the greater of course the totals in these countles [varied from the actual count he of 14.272. The official count gave tempt to enter public life. Blease 85,834 and McLeod 100,114, giving MeLeod a majority of 14.280 During his entire career as a prognosticator, Mr. Stone has missed only break the news gently. three of his predictions for the minor state officers Mr. Stone explained yesterday the door, reason that prompted him to begin some means should be arrived at to kitchen this minute." give the public exact information, as tion that often rumors gained head wrong feller." way that such and such a candidate was running strong in a certain local ity. It was to replace rumors with accurate information that Mr. Stone, undertook to make his prograssing-Links. The method by which he arrives a these condusions is somewhat sindlar to that used by the United States, government is making up cotton erop estimates Mr. Stone has many friends and representatives in every county and section of the state and from these, who represent all factions, he obtains the reports upon which the forecasis are based. These reports. are compiled and calculated and the result is then made puttle courty white we want to be a set of the "If there is not spaced could be a taken to my off memory of the fore usts," declared Mr. Stone vestor The is probably 20121233 effect the runnes at Contrast which have more the rotation of and house and a second - 14-12 11 15 which an annual to 10.61 10.55 which is the experimently called the share our post of L. Mr. Stone, who is agency superto declare the result of the primary, visor for the Carolina Life Insurance found that McLeod won over Blease company, probably knows more persons by exactly 14.280 votes or only eight in South Carolina than any other individual in the Palmetto state, He is proud of this extensive friendship. and Cole L. Blease made a memorable as well as of his forecasts for the past

> Following the recent elections, the forecasts of which were published in swamped with letters, some unique, some congratulatory and some almost threatening. One of the latter included a telephone call from a neighboring city and in which the person at the other end of the 'phone said he represented the Ku Klux Klan. Mr. Stone was threatened for making his forecast in which it was declared that McLeod would win. The person at the other end of the line said Mr. Stone's forecast would hurt "Cole Blease's chances," Of course Mr. Stone was sensible enough to reason that Mr. Blease had no connection with the call but that it might have been made by one of the former governor's ardent supporters.

> Other letters congratulated Mr Stone and declared him to be "either mated by Mr. Stone as several hundred, were received, particularly following the second election when Mr. a prognosticator.

Some of the writers wanted to know when judgment day was coming. Others wanted to know if prohibition would ever give way to the good old days of beer and wine. Other letters pertained to personal questions, the writer wanting to know "does so and so love me," or "when will my friend come back to town." and similar questions

Mr. Stone made no attempt to answer, any of these, but if any answers had been made there would have been no effort made to convey the impression that he was a "know all." Mr. Stone confines his prognostications exclusively to political affairs and makes no attempt to forecast other events.

Mr. Stone was born in Anderson county 37 years ago, and has the same birthday as Woodrow Wilson. Being one of fourteen children, he was forced to take a responsible part in the work about the home and farm and early in life learned the art of tactfully getting along with people. When ten years of age his father removed from Williamston, in Anderson county, to Gray Court, in Laurens county, where part of the time has made this city

Romances of Everyday Life.

Washington, October 12 .--- Swiss insurance companies have increased their rates on women risks as much as 15 per cent. The reason given is that short skirts, high heels, and low necks increase the likelihood of a woman falling and hurting herself or catching pneumonia.

Michigan had a law which prohib-Hed an unnaturalized citizen from possessing firearms. The State Supreme Court said it was unconstitutional on the ground that it was not right to give a skunk a stronger weapon against its enemies than a farmer might possess against hawks and foxes who steal chickens,

A Sioux City, Iowa, policeman had a great deal of trouble with a certain girl auto-speeder, whom he arrested and warned time and time again. Finding his remonstrancees of no avail, the officer married her to reform her. Speeding is said to be on the increase on the beats of marriageable policemen in Sloux City.
