Moving Picture on Growing Cotton Under Boll Weevil Conditions, at THE MAJESTIC THEATRE, CAMDEN, S. C., SATURDAY, MARCH 24th, 1923, at 11:30 A. M.

This picture is being shown by the Chilean-Nitrate Committee, of New York. It will be found to be very instructive as well as entertaining, and as it is absolutely FREE, all persons interested in this subject are urged to be present.

### BETHUNE NEWS NOTES.

Happenings of Interest As Told By Our Correspondent.

Bethune, S. C., Mar. 14.—A Fiddler's Convention will be held at the school auditorium Friday evening, March 23. Twenty-five dollars in prizes will be given. Part of the proceeds will go towards the school improvement fund. A committee from the improvement association has been appointed to sell refreshments that evening.

Mr. B. W. Best attended the Knight Templar's meeting in the Masonic temple Thursday evening, and afterwards services in the Billy Sunday tabernacle.

Mr. W. M. Stevens left Tuesday night for Boston and other points in Massachusetts. Mr. Stevens will be away several weeks.

Mrs. Ellen Brannon returned Thursday from an extended visit, to her daughter, Mrs. Hugh Oliver, at Quitman, Ga.

Miss Myrtis Dukes spent the week end with her parents at Bowman.

Mr. C. L. Mays made a business trip to Timmonsville last week.

Mrs. C. L. Mays and daughter, Annie, are guests of relatives in Cherraw.

Miss Eunice Severance is visiting relatives in Lamar.

Mrs. Larue Seegars and child, of Columbia, are guests at Mrs. Seegar's father's home.

Rev. J. M. Forbis spent Thursday and Friday in Columbia on business and in attendance at the Billy Sunday services.

Dr. S. W. McCaskill, of Camden, is in Bethune for a few days.

Dr. E. Z. Truesdale was called to the bedside of Mr. G. S. King Tuesday night at White Springs, Fla. Mr. King resided here for a number of years and is now critically ill at his Florida home.

Mr. M. B. Gunter visited his old

home in Batesburg last week and stopped over in Columbia for the Billy Sunday revival.

Among those in attendance at the Billy Sunday meetings the last few days are: Mr. and Mrs. Watford, Mr. and Mrs. A. K. McLaurin, Mr. and Mrs. Parrott, Rev. J. R. Sojourner, L. C. Parker, Dargan Clyburn, Malloy Hearon, Mary Louise McLaurin, Mrs. W. H. Hearon, Mrs. Louise Kelly.

Mrs. H. C. Wall, of Andrews, is spending several days with her parents, Mr. and Mrs. M. O. Ward.

Mr. and Mrs. John McDonald and C. McDonald, of Hartsville, spent Sunday with Mr. and Mrs. A. B. McLaurin.

### Steals Collection After Services.

Jacksonville, Fla., Mar. 11.—Jacksonville's "gentleman bandit" so-called because of his polite manners and debonaire appearance—today successfully executed his fifth robbery within three weeks by stealing the collection of early mass at the Church of Holy Rosary after he had attended services.

The young man was noticed in the church because of the fact that he was a stranger. As 10:45 o'clock services were ending he left the church and walked to the home of the pastor, the Rev. Father D. A. Lyons. When discovered in the house by Mrs. T. Rainey, of Chicago, who was visiting her brother, the man said that he had left a note for the pastor. A short time later it was discovered that the collection had been stolen.

Charles Fitzmaurice, superintendent of police in Chicago, has issued an order to all police captains to close up every vice resort in the city and keep them closed.

Three hundred and sixty cases of whiskey were seized on board an oyster fishing boat at Freeport, N. Y., Tuesday.

### MURDER ON HIGH SEAS

Scaman Is Sentenced to Serve 3 Years in Prison.

Florence, March 9.—A United States court jury here this afternoon found John Harris, seaman on the schooner "Zebedee Cliffe" guilty of involuntary manslaughter and he was sentenced to pay a fine of one thousand dollars and costs, and serve three years in the federal prison in Atlanta.

Harris was charged with the murder of G. Karlson, his shipmate, the killing having occurred aboard ship, near the Charleston Lightship on February 24. Karlson was a Finn. The jury was out two and a half hours. Harris set up a plea of self defense. He had no attorneys when he faced the bar, and Judge Smith asked for volunteers, A. L. King, of Florence, Christie Bennett, of Columbia, and J. Waities Waring, of Charleston, responding.

There were no eye witnesses. Harris who said he was from Chicago and had been before the mast twenty years told his own story of how Karlson had seized him around the neck with one hand while with the other he brandished a short handled axe and how he had wrenched the weapon from Karlson's hand and struck the Finn several blows on the head. Karlson, he declared, had become angered because he had left the door of the cabin open. The night was stormy and the sea rough, the decks being awash at times. Harris testified that he immediately reported to Capt. William F. Plummer, master of the ship.

Although the cooks gallery was separated from the cabin bunks by only a short partition, neither the cook nor the watch heard any scuffle within the room. Karlson was found by Captain Plummer in his bunk with the bed clothing over his face. The man died two hours

later without regaining consciousness.

### Leaps to Death From Monument.

Washington, Mar. 9.—A leap from a small window near the top of the Washington monument, 504 feet from the ground, brought instant death today to A. Birney Seip, grandson of the late Gen. William Birney, who served with distinction during the Confederate war as a brigadier general in the Union army.

Seip had been suffering from a nervous disease for several years, relatives said, and had left home unknown to his mother. He had suffered a breakdown several years ago while attending Cornell university, and had just come home from a Philadelphia sanitarium.

Monument attendants expressed the belief Seip could not have fallen from the window, which is only 18 inches high and three feet wide. Although there are attendants stationed at the top, no one saw Seip leave the window. His shoes were ripped off by friction from the contact with the side of the monument and the force of the wind during the plunge. A coroner's verdict of death by suicide was returned.

### Stork Kept at Work.

Charleston, W. Va., March 9.—The mother of 20 children at the age of 37, Mrs. Homer McMann, of Belburn, Green Briar County, today was making a valiant fight for life, while at her side nestled four baby boys born yesterday. Each of the quartet weighed 5 1-4 pounds at birth and all probably will live, the attending physicians stated. Grave fears however are entertained for the recovery of the mother.

The stork previously had brought three sets of twins into the McMann family, but one child of each set died, in addition to three other children, including the quadruplets.

### AUTO IS DEMOLISHED.

Four Young Boys Miraculously Escape Injury.

Marion, March 6.—Running northward on Main street yesterday afternoon at a speed of about forty miles an hour in answer to a call from the Marion Cotton Oil Company, Marion's large new fire engine crashed into a Ford sedan occupied by four boys, bursted like an egg shell and then hurtled across the sidewalk into the front of the city market. The boys, who were the sons of G. L. Henney, of this city, miraculously escaped death. They sustained only cuts and bruises and minor injuries, though the car in which they were riding was struck with terrific impact and completely demolished.

Joe, Frank, Howard and Horace were the boys in the car, with Joe at the wheel. They were coming out of Harllee street into Main and claim they did not hear the approaching fire engine until too late to save themselves. The collision occurred about 5 o'clock. Due to the fact that Golden Rule sales were in progress many people were in the business district trading. Immediately after the accident a large crowd gathered and the boys were extricated from the debris. When asked how it felt one of the boys said, "It was like a dream. I hardly knew what happened until people were helping us out of what was left of the car."

The sedan was tossed up on the edge of the sidewalk. A roadster belonging to John McNeill, which was parked in the vicinity, was damaged. The glass show windows of the city market were broken and the wood work of the front splintered. The property belongs to the estate of J. C. Mace.

Badger Gasque, a volunteer fireman, riding on the back of the engine, was thrown off and sustained a dislocated arm and cuts and bruises. His injuries were more severe than any of the other and he was removed to the Howell Hospital for treatment. Mr. Gasque is manager of the Marion Motor Company.

The fire truck was damaged to such an extent that it had to be abandoned and the fire fighting apparatus taken off and carried to the oil mill. The fire at the oil mill, however, proved not to be very serious. Some eight or ten bales of lintens in the mill yard were afire. They were soon put out.

Edward Dunford, fireman here,

was driving the engine. The siren was being sounded and the bell rung and apparently all the usual precautions were being taken by the driver and the crew on the engine.

### Sued for \$10,000.

Washington, March 5.—Miss Alice M. Robertson, of Oklahoma, whose term as a member of the house expired yesterday, was sued today in the District of Columbia Court for \$10,000 damages for alleged slander. The suit was brought by Benjamin E. Cook, her former secretary, who charged that Miss Robertson in a conversation said he had sold her automobile without authority and had "pocketed the proceeds."

### DEATH DEALING STORM.

More Than a Score Reported Killed and Many More Injured.

Washington, March 12.—More than a score are reported dead, and scores injured, some seriously, by widespread storms during the night and early today, according to dispatches.

A Jackson, Tenn., dispatch says that twenty are reported killed, and seventy-five injured in the vicinity of Pinson, Tenn. A number of the dead and injured are negroes. Fifty dwellings in Pinson are reported as being wrecked. A freight train was blown off the track. Relief parties have been sent from Jackson.

Three were killed and a number hurt near Richmond, Ky.

One child was killed and five injured when the wind ripped the roof off the high school building at South Portsmouth, Ky., carrying it into the school yard where the children were playing.

Cincinnati reports that a Southern railway train from New Orleans ran into the rear end of another at Pulaski. Two are reported hurt. The wires are down.

### Big New Power Plant.

Spartanburg March 8.—A new power plant along Green river in western North Carolina was announced today by the Blue Ridge Power company, which now has a plant on the same stream in Henderson county at Tuxedo, which develops 8,000 horsepower and supplies power to cotton mills and several municipalities in North Carolina and in Spartanburg county, South Carolina. The location of the new development has not been made public, but will probably be below the present plant, possibly in Polk county.

# The Proof of Your Method Is the Cotton You Raise

I'm a practical Georgia farmer, and spent \$23,000 in money, and five years in time on my Burke County plantations, in an effort to perfect a poison that would protect my cotton from the Boll-weevil. Hill's Mixture is the result, and in the past two years the boll weevil has gotten practically none of my cotton.

And I raised 604 bales on 812 acres in Burke County in 1922. (This was 4% of the crop for my county, on 1% of the planted acreage.) I was enabled to do this by protecting my cotton with "Hill's Mixture," preventing the boll-weevils from getting one pound of my cotton!

## You Can Raise Cotton

If you'll protect your crop with HILL'S MIXTURE—economical, efficient and the easiest boll-weevil poison to apply, on the market today.

Hill's Mixture is a liquid poison, composed of calcium arsenate, molasses, water and secret ingredients which form a combination that we are convinced, from results obtained, attracts the boll weevil.

Six gallons will give protection to an acre of cotton. Compare this with the cost of dusting.

The molasses in Hill's Mixture acts as a binder, and a rainfall of less than a half-inch has little effect on it! It can be PUT ON ANY TIME OF THE

DAY, and requires no machinery for its application. Make a mop out of a stick with a rag tied on the end, and pass up and down the rows, touching the bud of each plant with the mop.

## Unqualified Endorsement of Users!

Hill's Mixture was tried out last year by scores of farmers on thousands of acres of land, and EVERY-ONE OF THEM ARE GOING TO USE IT AGAIN IN 1923! Let me send you their letters endorsing it. The President of the American Cotton Assn. made a special trip to Burke County to investigate Hill's Mixture, and endorsed it as the best boll weevil poison on the market.

Hill's Mixture is mechanically mixed, every ingredient being put in in the exact proportion. None of the uncertainty of "mixing your own."

Hill's Mixture is sold in 50-gallon barrels. Secure prices from the agent whose name appears below.

J. L. MOSELEY, Camden, South Carolina  
Agent for Camden and Territory and the Southern and Eastern Parts of Kershaw County.

FOR THE HILL'S MIXTURE CORPORATION  
AUGUSTA, GEORGIA

### AUTOMOBILE CYLINDERS AND CRANK SHAFT GRINDING

We are prepared to give your car an overhaul equal in every respect to the factory or that can be done in any large city. We have reground forty cylinder blocks since last July and so far as we know they are giving excellent service.

## W. O. HAY'S GARAGE

SOUTH BROAD STREET, CAMDEN, S. C.
